THE REGENCY AUCTION 44

APRIL 21st • THE BELLAGIO • LAS VEGAS

Welcome friends!

In the pages that follow, you will see one of the coolest selections of coins to appear in a Regency Auction! While not at its original venue, the Regency Auction 44 will offer something for everyone, especially if you collect half dollars! The market is very strong right now, and the consignments came flooding in, resulting in the offerings you are about to see.

Starting off the auction is the Boylston Collection of Seated Liberty half dollars. Assembled over the course of many years, the extensive offering of 145 pieces includes many Choice and Gem grade pieces, including coins pedigreed to Newman, Pittman, Eliasberg, Richmond, and other important collections of ages past.

Half dollars from other consignors follow the Boylston Collection, and the selection, from the earliest issues (1795 PCGS AU58 CAC) to the most recent (1964 SMS PCGS SP67+), is extensive and full of great pieces! Gem quality rarities and pop top examples are happily presented for the astute collector.

Concluding the half dollar section is the Gerald R. Forsythe Collection of Walking Liberty Half Dollars, the all time greatest set of Walkers on the PCGS Registry. It was Mr. Forsythe's decades of searching out the finest pieces that produced this set, and it is his desire that the set be sold intact, as a single lot. Just think, one bid, and you are automatically vaulted to the #1 spot on the PCGS Registry.

From there, type coins from large cents to dollars continue to show impeccable quality. Many impressive rarities have been consigned, including Gem grade pieces, condition rarities, and popular collector issues. Starting off the gold selection is the Forsythe Collection of Proof Indian Head Eagles. This is the former Far East Collection, assembled exclusively by our sister firm, Legend Numismatics, and is another #1 all time PCGS Registry Set.

Overall, the quality in this catalog just oozes off each and every page. When the final lot closes, we expect many new record prices to be set, and to congratulate many happy buyers and sellers for these amazing coins.

Happy Hunting,

Julie Abrams
President

TERMS AND CONDITIONS

This is a public auction, conducted in accordance with these Terms and Conditions of Sale, by Legend Rare Coin Auctions (hereinafter referred to as "LRCA"). By bidding on any lot offered by LRCA, the bidder indicates acceptance of the following Terms and Conditions of Sale. Bidders are to comply with the Terms and Conditions of Sale, posted on LegendAuctions.com, at the time of the auction in which they are participating.

BUYER'S PREMIUM

A 17.5% buyer's premium will be added to all successful bids, and is payable by the winning bidder as part of the total purchase cost.

SALES TAX

All sales are subject to applicable state and local taxes. Any lots that are picked up and/or delivered in the state of The Regency Auction are subject to applicable state and local taxes.

PAYMENT

All merchandise must be paid for within TEN (10) days of the date of sale. We reserve the right to cancel any unpaid order after that time and to ban the bidder from future sales. Credit cards (Visa, MasterCard and Discover) are accepted for auction payments up to \$2,500.00 per invoice. Invoices and/or balances over \$2,500.00 must be paid via personal or certified check, money order, or wired funds. Personal checks, money orders and cashier's checks may be held for up to 10 business days in order to allow time for them to clear appropriate banking channels. Please email info@legendauctions.com for bank-wiring instructions and/or to provide numismatic references.

E-CHECK PAYMENTS

E-check payments now available. Please email form to info@legendauctions.com

INTERNATIONAL BUYERS

Foreign buyers, unknown to us, are required to deposit 25% of their anticipated expenditures before bidding. Please contact us in advance of bidding for bank wiring instructions.

EXTENDED PAYMENT TERMS

For all items \$15,000.00 and over, LRCA is now offering Extended Payment Terms. Please advise us at least 48 hours before bidding or purchasing the item in question. Pre-approval is required.

RETURN POLICY

All lots are sold "as is." Lots graded by PCGS, NGC or other third-party grading services, or any lot viewed by the buyer or anyone on buyer's behalf prior to the auction, may not be returned. This is not an approval sale. All sales of lots to the highest bidder are final. Bidders are strongly advised and encouraged to research any lots upon which they plan to bid, and to determine bids, based upon their own evaluation. Bidders assume all risks concerning and related to the grade, quality, appearance, condition, history and origin of any lot. Bidders acknowledge that coin grading is not an exact science, that it can be subjective and inconsistent and that it is possible that two parties might assess or grade the same coin differently. LRCA makes every effort to accurately describe all items offered in its sales. All items will be available for preview prior to the auction.

SHIPPING

Shipping costs will be billed separately and are non-refundable. Items will usually ship within 5-10 business days after payment has been received and/or funds have cleared. Coins will be shipped via Fed Ex or USPS or transported via armored carrier.

The shipping charge includes fees for our third-party insurance coverage, as well as any costs incurred through the USPS or Federal Express. Any shipments made via armored carrier (Brinks, Dunbar, etc.) will be calculated and assessed at the time of shipment.

INTERNATIONAL SHIPPING

It is not possible for LRCA to ship to some countries. Please email questions to info@legendauctions.com. Payment for all international orders is required in US funds. Please contact julie@legendauctions.com for bank wiring instructions.

Customs requirements for each country are the responsibility of the buyer. All packages shipped outside of the United States will include the required customs declaration and full value of the invoice.

BIDS VIA TELEPHONE

An absentee bidder may also participate live, during the auction, via telephone. Requests for phone bidding must be received at least three days prior to the auction date. Please fill out our phone bidding request form online or call 732-935-1168 to request a call from one of our representatives during the live auction. LRCA cannot guarantee phone lines, but will make every effort to accommodate those who wish to participate via this method.

RIGHTS & RESPONSIBILITIES

The auctioneer will determine the highest bidder. The auctioneer, alone, has the right to reopen the bidding for an item, if deemed necessary. LRCA and its representatives reserve the right to remove any attendees who impede the preview and/or the auction. Title to all merchandise shall pass to the winning bidder after receipt of good funds by LRCA. Bidders will be held responsible for their bids, including those bids placed incorrectly. PLEASE VERIFY BIDS BEFORE SUBMITTING THEM. In order to have a bid removed or corrected, bidder must contact LRCA prior to start of the auction. Bidder waives auctioneer's responsibility and holds LRCA harmless for failure to recognize, accept, receive or execute any lost or missing bids by internet, telephone, email, floor bid, fax, mail or other means. LRCA reserves the right to postpone or cancel an auction without notice. Lots may be withdrawn at LRCA's discretion, without prior notice. Lots may carry a reserve. A reserve is a price below which the auctioneer will not sell an item, or will re-purchase the item on behalf of the consignor or for LRCA. LRCA permits bids to be placed by the auctioneer, or an employee of the auctioneer, up to the pre-determined reserve set by the consignor. Legend Rare Coin Auctions' partner, Legend Numismatics, reserves the right to bid on items, for its own account and for the accounts of its clients.

DISCLAIMER AND WARRANTIES

No warranty of merchantability or fitness for a particular purpose is made or implied on any lot. No warranty, whether expressed or implied, is made with respect to any lot except for warranty of title, and in the case of title, auctioneer is selling only that right or title to the lot that the consignor may have as of the auction sale date. All lots are sold "as is" and with all faults. Purchaser hereby assumes all risks concerning and related to the grading, quality, description, condition, authenticity, and provenance of a lot.

- a. Coins and currency listed in this catalog graded by PCGS, NGC, or any other third party grading service or examined by the buyer prior to the auction sale may not be returned for any reason whatsoever by any buyer, except for claims related to authenticity.
- b. For non-certified coins that have not been examined by the Buyer prior to the Auction Sale: if it is determined in a review by LRCA that there is a material error in the catalog description of a non-certified coin or the LRCA no later than seventy-two (72) hours of delivery of the lots in question, and such lots are returned and received by LRCA, in their original, sealed containers, no later than fourteen (14) calendar days after delivery, in the same condition the lot(s) were delivered to the Buyer, time being of the essence.
- c. If an item or items are returned pursuant to the terms herein, they must be housed in their original, sealed and unopened container.
- d. Late remittance or removal of any item from its original container, or altering a coin constitutes just cause for revocation of all return privileges.
- e. Grading or condition of rare coins may have a material effect on the value of the item(s) purchased, and the opinion of others (including independent grading services) may differ with the independent grading services opinion or interpretation of LRCA. LRCA shall not be bound by any prior, or subsequent opinion, determination or certification by any independent grading service.
- f. Questions regarding the minting of a coin as a "proof" or as a "business strike" relate to the method of manufacture and not to authenticity.
- g. All oral and written statements made by LRCA and its employees or agents (including affiliated and related companies) are statements of opinion only, and are not warranties or representations of any kind, unless stated as a specific written warranty, and no employee or agent of LRCA has authority to vary or alter these Terms and Conditions of Auction Sale. LRCA reserves the right to vary or alter the

Terms of Sale, either generally or with respect to specific persons or circumstances, in its sole discretion. Any variation or alteration shall be effective only if in writing and signed by an officer of LRCA authorized to do so.

h. LRCA is acting as an auctioneer. Title to the lots purchased passes directly from the Consignor to the Buyer. Accordingly, LRCA is not making, and disclaims, any warranty of title.

i. Bidder acknowledges that the numismatic market is speculative, unregulated and volatile, and that coin prices may rise or fall over time. LRCA does not guarantee or represent that any customer buying for investment purposes will be able to sell for a profit in the future.

j. Bidder acknowledges and agrees that neither LRCA, nor its employees, affiliates, agents, third-party providers or consignors warrant that auctions will be unimpaired, uninterrupted or error free and accordingly shall not be liable for such events.

WAIVER AND RELEASE

Bidder, for himself, his heirs, agents, successors and assignees, generally and specifically waives and releases, and forever discharges LRCA, and its respective affiliates, parents, officers, directors, shareholders, agents, subsidiaries, employees, managers and members and each of them, and their respective successors and assignees from any and all claims, rights, demands and causes of actions and suits, of whatever kind or nature, including but not limited to claims based upon Auctioneer's negligence, whether in law or equity, tort or otherwise, whether known or unknown, suspected or unsuspected (a "Claim"), which Bidder may assert with respect to and/or arising out of, or in connection with any challenge to the title to or authenticity of any goods purchased, the sale itself, any lot bid upon or consigned, and/or the auction, except where such Claim is otherwise expressly authorized in these Terms of Sale. It is the intention of Bidder that this waiver and release shall be effective as a bar to each and every Claim that may arise hereunder or be related to the Auction Sale.

DISPUTES

If a dispute arises concerning ownership of a lot or concerning proceeds of any sale, LRCA reserves the right to commence a statutory inter-pleader proceeding at the expense of the Consignor and Buyer and any other applicable party, and in such event shall be entitled to its reasonable attorneys' fees and costs. LRCA reserves the right to cancel or postpone the Auction Sale or any session thereof for any reason whatsoever. No Bidder shall have any claim as a result thereof, including for incidental or consequential damages. Neither LRCA nor any affiliated or related company shall be responsible for incidental or consequential damages arising out of any failure of the Terms of Sale, the auction or the conduct thereof and in no event shall such liability exceed the purchase price, premium, or fees paid. Rights granted to Bidders under the within Terms and Conditions of Auction Sale are personal and apply only to the Bidder who initially purchases the lot(s) from LRCA. The rights may not be assigned or transferred to any other person or entity, whether by sale of the lot(s), operation of law or otherwise. Any attempt to assign or transfer any such rights shall be absolutely void and unenforceable. No third party may rely on any benefit or right conferred by these Terms and Conditions of Auction Sale.

Any dispute arising out of or related to these Terms of Sale, the Auction Sale or any lot, with the sole exception of actions by Legend Rare Coin Auctions to collect amounts owed to it and other damages, shall be submitted to binding arbitration pursuant to the commercial arbitration rules of the American Arbitration Association, with any arbitration hearing to occur in Monmouth County, New Jersey. Absent an agreement of the parties, the arbitrator shall limit discovery to that which is necessary to enable the hearing to proceed efficiently. The arbitrator shall not have the power to award punitive or consequential damages, nor alter, amend modify any of the terms of this Agreement. The award by the arbitrator, if any, may be entered in any court having jurisdiction thereof. Each party shall pay one-half the costs of the arbitration. Bidder acknowledges and agrees that the competent courts of the State of New Jersey shall have exclusive in personam jurisdiction, subject to the requirement to arbitrate, over any dispute(s) arising hereunder, regardless of any party's current or future residence or domicile. Bidder further agrees that venue of the arbitration proceeding shall be in Monmouth County, New Jersey, and any court proceeding shall be in the Monmouth County Superior Court, in the State of New Jersey, and in each case waive any claim of Forum Non Conveniens. Bidder agrees that any arbitration or legal action with respect to this Auction Sale is barred unless commenced within one (1) year of the date of this Auction Sale.

Auction participants expressly waive any right to trial by jury.

OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

PRINCIPALS

Laura Sperber
Partner

Laura was raised in Highland Park, NJ. During high school, the coin bug hit her hard. Her trip to the 1976 NYC ANA left a lasting mark and huge desire for her to own and handle the greatest rarities. While attending Monmouth University, Laura attended coin shows more than classes. After college, she started LSS RCI, a wholesale coin company. In 1986, she realized the need for a "better" coin retailer and teamed up in 1986 with George Huang to form Legend Numismatics.

In 1996 Bruce Morelan became a partner and since then Legend has exclusively built or assisted in assembling this generation's greatest collections. In 2012 Laura saw the need for a smaller, boutique auction firm, and created Legend-Morphy with Dan Morphy, whom she split with in 2014. Today, Laura is also a leading consumer advocate for coins. The passion has never subsided, and she keeps a beautiful Proof Walker on her desk to this day.

Bruce Morelan
Partner

Bruce started collecting coins when he was only six years old and by the time he was in high school his dream was to be a coin dealer. But life intervened and instead, Bruce went into business. By chance, he became Legend Numismatics' financial backer in 1996. His great grandmother had given him three coins when he was young, one of which being a Trade Dollar, so he set out to build the finest Trade Dollar set. After a few years with ultra rarities, Bruce returned to his love of dollars and completed both a set of Gobrechts and a set of Seated Dollars.

After selling those sets, Bruce recently returned to dollars with a new Gobrecht set and a spectacular early dollar set capped by his dream coin, the Amon Carter 1794 Dollar. Not many collector's can say they have completed not only the finest 1794-1885 Dollar Sets and have over the years owned such coins as two 1913 Liberty Head Nickels, an 1894-S Dime, 1876-CC Twenty Cent piece, 1827 Original and Restrike Quarters, 1838-O Half Dollar, two 1885 Trade Dollars and four 1884 Trade Dollars!

Matt Bell
CEO

Matthew Bell graduated Magna Cum Laude from Ithaca College with Business Administration degrees in Finance and Marketing and Accounting. He is a member of five collegiate honor societies, the Oracle Society, Phi Kappa Phi, Beta Gamma Sigma honor society for Business, Sigma Iota Epsilon, and Beta Alpha Psi.

Prior to joining the Legend team, he was Senior Accountant for Global Essence, Inc, an international flavor and fragrance company. Originally hired as a Staff Accountant, he was

quickly promoted to be the number two person in the Finance Department for the company.

Matthew was brought onto LRCA in September 2017 as Controller for both LRCA and Legend Numismatics. He was promoted initially to Executive Vice President in May of 2018, and again to CEO in January of 2020. Since he has been with the company, Legend Rare Coin Auctions has seen its business expand to seven Regency Auctions per year, and enjoyed three consecutive years of revenue growth.

Julie Abrams
President

Julie Abrams started in numismatics in 1986 when she joined up with Bernard Rome and launched Teletrade, the first computerized auction company. As President of Teletrade, Julie helped expand the company, increasing the frequency of auctions and expanding annual sales to \$24 million within a few years. In 1999, GMAI, a publicly traded company, purchased Teletrade and Ms. Abrams became Executive Vice President of Sales for the parent company, as well as continuing her role as CEO for Teletrade.

In 2004 she joined Stacks-Bowers, she worked to develop an online bidding platform for the firm. She also marketed Stacks' programs to secure consignments from dealers and institutions such as banks, museums and universities.

Julie is a member of the American Numismatic Association, the Central States Numismatic Association and Florida United Numismatists.

THE BOYLSTON COLLECTION

Legend Rare Coin Auctions in conjunction with Elizabeth Coggan Numismatics is pleased to present, unreserved to you, the sale of the Boylston Collection of Seated Liberty Half Dollars. Featured is an array of Mint State and Proof pieces meticulously assembled over the past 25 years with an emphasis on WHITE coins. Where white coins were not attainable for certain dates, the collector purchased high grade, toned examples, in an effort to have as complete a date/mintmark collection as possible. Never before has such an expansive and extensive collection of Seated Halves been offered.

The collection contains scores of top pops throughout, with pedigreed pieces tracing back to the famous Louis Eliasberg, Sr Collection as well as other storied holdings. Particular highlights include the 1840(O) Reverse of 1838 in PCGS MS64 CAC, the 1842-O Med Date Reverse of 1840 in PCGS MS64+ CAC, and an 1866-S With Motto NGC MS66. Additional rarities contained are an 1856-S PCGS MS64 CAC, an 1857-S PCGS MS66 as well as an 1862 NGC PR66 CAMEO and an 1873 Arrows NGC PR66 CAM, a POP 1, FINEST graded 1875-CC PCGS MS66+, and a drop dead gorgeous 1877/6 PCGS MS65+ CAC.

The consignor's passion for white Seated Liberty Half Dollars

led him to purchase as many duplicate dates and grades as possible. He had a deep appreciation for the design traits of Miss Liberty set against frosty white surfaces or black and white cameo contrasted fields. One of the inadvertent results of collecting so many high grade white pieces, tucked away over the past two and a half decades, is the creation of demand and price appreciation for those very same coins. Collector demand, coupled with the influx of fresh coins to the marketplace after so many years, is sure to create unfettered enthusiasm and spirited bidding! We encourage you to jump in and pick up some of these beautiful coins while you can.

While the consignor wishes to remain anonymous, I know he would like to convey to you the joy he has experienced putting together this remarkable collection and his thanks for your participation in this sale. We sincerely hope you have as much fun reading the descriptions, viewing the coins, and purchasing a favorite coin or two, as we have had assembling the collection.

Best of luck to you!

Liz Coggan

LOT 1

50C 1839 DRAPERY. PCGS MS63 POPULAR FIRST YEAR ISSUE.

A desirable and highly sought by date and type collectors. Far above average strike detail for the issue--with crisp hair strand delineation on Liberty's head and full breast feathers on the eagle. Under strong magnification there are a couple of light breaks in luster and a few random contact marks, but all are commensurate with the grade. Blazing white and cartwheel luster.

Two major varieties of 1839 dated halves were coined. The first was Without Drapery at the elbow and they were minted only in 1839 and are considered quite scarce. The other was With Drapery at the elbow (such as this coin) and they were coined from 1839 through 1852. Although a more common example, they are still difficult to come by in higher mint state grades.

PCGS 12, NGC 15. A mere 44 coins grade finer. Listed in the PCGS Price Guide for \$2,600. The last example to trade at auction was in October 2016 and it fetched \$2,233. With the demand for white Seated halves as strong as it is, we anticipate this high end piece will command a handsome price!

PCGS# 6232 | EST: \$2,000+

LOT 2

50C 1840 REVERSE OF 1839. PCGS MS65

TIED FOR THIRD FINEST GRADED! Booming mint bloom is accentuated by lovely toning intermingled in shades of soft gray, rose and ice blue. A couple of light ticks are noted on the left shoulder of Miss Liberty and one on her chin under strong magnification.

WB-10 Doubled Date. Rarity-3.

Clearly seen with the naked eye are the undertypes of the 18. Also doubled are the 4 on crossbar and the 0 is repunched south. Struck with the Small Letters reverse from 1839.

PCGS 8, NGC 2. Just 6 coins grade finer 5 are PCGS MS-66 and one grades PCGS MS-66+. PCGS Price Guide is \$8,500. This exact piece last sold at auction in January 2015 (a weaker market) where it fetched \$8,813. An outstanding opportunity for both the date and variety specialist. So few GEM pieces remain, that we expect a dogfight when this coin comes up for sale! Good luck!

PCGS# 6234 | EST: \$6,000+

LOT 3

50C 1840-(O). REVERSE OF 1838. PCGS MS64 CAC

A DREAM coin for the student of numismatics. Blast white with just a trace of champagne gold to lend originality to the coin. Intense mint frost accents precision point design details. Save for a tiny contact mark in the right obverse field, this coin is exhibiting gem-like surfaces (no guarantees, merely an observation). Struck from a heavily rusted obverse die as is evidenced by the rash of tiny pimples on Liberty's neck, chest and forearm.

Rusty dies were highly uncommon at the

Philadelphia Mint at the time, although quite common in New Orleans.

Medium Letters, Reverse of 1838. WB-101. Known as one of fabled missing mintmark varieties coined at the New Orleans Mint. Although Seated halves were coined in 1839, it was not the Seated half dollar design that was incorporated in the production of this issue, but, rather, the Capped Bust half dollar reverse. Remarkably, no one noticed the omission of the mintmark until 1980!

The carry over reverse die was on it's last leg and it is quite remarkable that it survived the striking of the Seated halves. Evidence of the deterioration of the die is noted in the myriad of radial die cracks from various border points around the legend to the center of the coin.

A splendid condition rarity and a prized piece that harkens back to the fabled Harlan P. Smith, S.H. and Henry Chapman, May 1906, John H. Clapp, 1942 and Louis Eliasberg, Sr. 1996 Collections.

PCGS 2, NGC 8, CAC 2. Just 17 coins grade finer, and we wonder how many really stack up quality-wise to this beauty! PCGS Price Guide is \$15,000. This exact piece last sold at auction in January 2018 for \$10,800. That certainly seems like a bargain price based on the pedigree and outstanding quality of the coin. Destined for a top flight collection. We expect all out war on this GEM. Bid liberally or go home empty handed!

PCGS# 6233 | EST: \$10,000+

LOT 4

50C 1840-O PCGS MS63+ CAC

SUPERB ORIGINALITY and aesthetic appeal. A coin that will appeal to the purist. The surfaces are booming with original mint bloom and frost and are kissed with honey gold toning highlights. Just one or two teensy contact marks are noted under magnification. Extremely well struck for a New Orleans Mint issue and for this variety in particular, as it generally comes with weakness at Liberty's mid section, but this piece is a pleasant exception.

WB-11 with a Large O mintmark. A large reverse die cracks starts at the rim and travels through the L in dollar to the eagle's right leg. Another crack begins at the rim and continues along the right side of D in UNITED, through the wing and to the base of the shield.

PCGS 7, NGC 5, CAC 3. Just 2 pieces carry the coveted + designation for the grade. Only 9 total pieces grade finer with the nicest a PCGS MS-66. PCGS Price Guide is \$5,500. This coin sold back in November 2010 for \$4,945. A prized piece for the connoisseur. With the price spread jumping to \$10,000 in MS-64 and the potential upside in condition of this fabulous piece, we expect strong bidding activity. She's worth the splurge!

PCGS# 6235 | EST: \$5,000+

LOT 5
50C 1842 MEDIUM DATE. PCGS
MS65

TIED FOR SECOND FINEST GRADED! Creamy white surfaces look like satin sheets and bounce with life from the blazing luster rolling over them. A glorious GEM with incredibly choice surfaces. Just a couple of tiny flea bites in the right obverse field are noted under magnification. Outstanding strike.

WB-12. Medium date, Triple Punched Date with the digits repunched north 3 times! Rarity-3. A plethora of Liberty's head.

PCGS 3, NGC 3. Just two coins grade finer and both are MS-66. One PCGS and one NGC. PCGS Price Guide lists the date at \$7,500. Everything that has sold at auction has been heavily toned. The last PCGS coin traded for \$5,640 in January 2017. We challenge you to find another WHITE GEM that has sold in the past decade! You won't, as they are rarer than the proverbial hen's tooth! Destined for a top Registry Collection. Sure to elicit a flurry of bidding activity! Don't miss out.

PCGS# 6239 | EST: \$5,500+

LOT 6
50C 1842-O SMALL DATE. NGC
MS61

A CLASSIC RARITY. Remarkably well struck for the variety. Most extant specimens are weak on the left lower portion of the eagle's body (as made). This coin is fully struck throughout! This piece has a ton of luster for the grade that is not subdued in spite of the pretty apricot toning blanketing the obverse and reverse.

WB-2 Rarity-5. Large O mintmark. One of just two die pairs used to strike this rare Small Date, Small Letters issue. This variety represents the second and final use of the obverse die and the only use of the reverse die in 1842.

PCGS 1, NGC 0. A scant mintage of 203,000 coins made this issue a destined rarity from the day it was coined. PCGS Price Guide is \$21,500. Just two other mint state specimens are known, both are MS-62 and graded by PCGS. One is the former Gardner Collection piece and the other is from the Louis Eliasberg, Sr Collection. The last time this piece appeared at auction was in 2016 (a much weaker market) where it sold in March for \$11,750. Deserving of a world class collection. Bid like this is your last opportunity to own this date in Mint State for a long time to come, it likely is!

PCGS# 6238 | EST: \$12,000+

LOT 7
50C 1842-O MED. DATE. REV. OF
1842. PCGS MS64+ CAC
SOLE FINEST GRADED FOR
THE VARIETY. This coin screams
 original, GEM! Rolling frosty
 cartwheel luster bounces off the
 surfaces and accentuates fully defined
 design elements. Toned in a wash of
 peach and gold toning over silvery
 gray fields. A couple of toning
 spots are noted for accuracy. One
 on Liberty's head (a distinguishing
 feature, making this coin easy to
 trace) as well as a small one in the
 right obverse field. Thankfully no one
 has dipped off the color and so it remains as pristine as the day it was coined!

Many mint state examples of New Orleans Mint Seated halves remain, as there was little numismatic interest in them at the time they were coined. Interestingly, New Orleans was the only branch mint to strike halves from the 1830s through 1854.

WB-12 R-3. Medium Date, Medium Letters. A prized rarity that has the storied Richard Jewell Collection as part of its provenance.

PCGS 6, NGC 3, CAC 3. Just 1 + designated example and this is it! PCGS Price Guide is \$15,000. A mere two coins grade finer, an MS-65 PCGS and an NGC MS-66. This example most recently sold in July 2017 for \$11,163 and is from the Jascha Heifetz Collection. Back when the market was stronger, it traded hands at auction for \$22,375 in July 2013. We anticipate the coin will trade closer to its market high in 2013 considering the limited availability and red hot coin market. Opportunity is knocking loudly here! Worthy of a world class cabinet!

50C 1843-O NGC MS66

SOLE FINEST GRADED! What a spectacular rarity! When you twirl this coin in the light you are struck by the intensity of the luster, but beyond that you are **BLOWN AWAY** by the beautiful ice blue, violet and fiery peach overtones. The strike is sublime and totally unexpected on this notoriously weak date. All of the design elements are visible with pinpoint precision which probably earned the piece it's MS66 grade. A few teensy ticks can be seen on the obverse and there is a faint, well concealed scratch near Liberty's knee (noted for accuracy).

WB-1. Large O. 3 repunched south with a small slanted line of the secondary 3 noted above the primary digit.

PCGS 0, NGC 1. PCGS Price Guide does not list MS66, but an MS65 is listed for \$30,000. Two MS65 PCGS CAC pieces last traded in 2010 and 2015 for over \$23,00 and \$23,500 respectively. The last appearance for this MS-66 graded piece at auction was October 2014 pedigreed to the Eugene Gardner Collection Part II, where it traded for \$15,275. We anticipate feverish bidding for this TOP POP rarity! Someone is going to significantly improve their Registry collection with this Gem! Good Luck!

KNOCKOUT eye appeal. Creamy mint bloom drapes clean fields. Subtle nuances of celery, lemon yellow, electric blue and soft peach toning create a lovely halo effect. Virtually unblemished surfaces save for a tiny tick here and there which you need strong magnification to even see. Rare in GEM status. In fact, MS-65 and MS66 Seated halves of any date/mint are considered exceedingly elusive, which is what makes this collection so spectacular--the quantity of high grade gems is highly unusual.

WB-4 Rarity-3. Overlapping 8s in the dentils.

PCGS 0, NGC 2. PCGS Price Guide value is not listed for the grade (MS64 is \$4,500). From the highly regarded Eugene H. Gardner Collection, Part III where it sold for \$8,813 in January 2017. The market is much stronger today than in 2017, so prepare to battle it out for this AWESOME piece!

A SLEEPER DATE and eye popping beauty! Creamy white luster encompasses extraordinarily mark-free surfaces. A couple of faint scratches to the left of the date is all that is keeping this coin from an MS-64+ or even MS-65 grade (no guarantees, but boy is it nice!). Far above average strike for the date with crisp hair definition and complete eagle feathers.

WB-19, Rarity-5. Lg. O. Identifying features are die lines from the rock beneath the foot and on the reverse there are die lines in the dentils beneath the word HALF and a file line from dentil to the second T of STATES. Scarce and especially desirable in this lofty state of preservation.

PCGS 5, NGC 5. Only 4 pieces grade finer. The highest graded piece is MS65. PCGS Price Guide value is \$4,750. Six long years ago was the last appearance of this coin at auction and it fetched \$3,290 in February 2015. With the price differential between an MS-64 and 65 grade being significant and considering the quality of the piece offered herewith, we can't but help think this coin will cause a stir of spirited bidding. Good luck!

ONE OF THE FINEST extant examples of the date and mint and most likely the finest for the variety! This piece actually looks a little prooflike. Very flashy fields surround frosty, well struck motifs. The fields are awash in wisps of golden toning. Superb eye appeal and originality.

WB-18 Tripled Date. Lg O Rarity 4. Super cool, dramatically pronounced triple punching on the date is clearly visible to the naked eye. From the York Collection.

PCGS 9, NGC 8, CAC 4. Just 9 pieces grade higher. PCGS Price Guide value is \$5,500. We sold this particular coin in our Regency Sale December 2017 WITHOUT the CAC sticker for \$9,106. LOT 13

50C 1846 6/HORIZONTAL 6. NGC MS65

UBER COOL variety and the SOLE FINEST KNOWN example. This coin has all the bells and whistles you would expect from a finest graded, super cool variety! FLAWLESS satiny smooth surfaces exhibit intense cartwheel luster. Electric navy blue, violet and fiery orange toning accentuate the eye appeal and do nothing to diminish the blazing underlying luster. Boldly rendered design details with the underlying horizontal 6 clearly visible to the naked eye.

Arguably the most well known and iconic blundered dates in all of United States coinage. Although the mint had a long history of recutting, repunching and misplacing dates, the reason for this particularly dramatic blundering is unclear. No matter the reason, these blunders are always highly sought after by collectors and this coin represents the finest you can buy!

PCGS 0, NGC 1. PCGS does not have a price guide for MS-65 grade. This coin last sold eight long years ago at auction as part of the Eugene H. Gardner Collection, Part II, October 2014 for \$15,863. With the passage of time, the demand and competition to own the best coins for Registry sets has only increased. This coin belongs in a WORLD CLASS collection. **LOT 14****50C 1846 MEDIUM DATE. NGC MS63**

FLASHY white luster and brilliance are highly pronounced and accented by wisps of amber toning. An underrated date in the series. Die polish lines are visible on both sides. A few light marks are noted in the obverse fields and a tiny spot if noted on the reverse shield. A hard date to find white--most have splotchy toning.

WB-9. Rarity-3. Identified by the lump in the drapery near Liberty's elbow and the small lump on top of the T of UNITED.

PCGS 8, NGC 6. PCGS Price Guide is \$2,250. The last piece to sell at auction in an NGC holder was in June 2017 for \$1,116. You would think this would be an easy date to find, but populations would suggest otherwise. Only 13 coins grade higher! That's four long years since the last one appeared at auction. Jump on the bandwagon and get the bidder paddle in the air if you want to pick up an affordable, white example. Opportunities are few and far between.

PCGS# 6251 | EST: \$1,100+

**LOT 15****50C 1846 TALL DATE. NGC MS64**

UNDERRATED DATE. Scarcer overall than it's Medium Date counterpart. Blazing luster graces fields that look like a sheet of satin. A halo of golden toning adds to the eye appeal. Some light die polish lines and a planchet depression near star 12 are noted on the obverse. Needle sharp motifs are graced with frosty accents.

PCGS 5, NGC 2. A mere 8 coins grade finer. PCGS Price Guide lists this date for \$6,500. There are no recent auction records for non-CAC NGC coins. A PCGS piece sold in October 2015 for \$4,230. With seven years between sales and no white coins available, it's safe to assume this coin will garner a lot of attention and activity when it crosses the block.

PCGS# 6252 | EST: \$3,500+

**LOT 16****50C 1846-O TALL DATE. NGC MS61+**

RARE IN MINT STATE! Thick frosty luster graces keenly struck motifs. Blazing white with just a faint trace of amber reverse tone. Struck from rusty dies. Light scattered disturbances are noted in the fields, but no major marks or scratches. Likely dipped at one time. Just to help drive the rarity of a Mint State example home, it is significant to note that the venerable Louis Eliasberg Sr. only had a VF-20 example in his collection!

WB-26 R-4. The third use of the obverse die and the only use of the reverse die. Most easily identified by the small lump in the field near the lower serif of the first S of STATES.

PCGS 0, NGC 2. Just one has been granted the + designation. This coin's rarity creeps up on you. You would think that lower graded Mint State examples are easy to come by, but it is quite the opposite as evidenced by the populations at PCGS and NGC combined which is a whopping 5 pieces in Mint State. The finest is a sole MS63 graded piece. PCGS Price Guide value is \$11,000 in MS-61 and \$18,000 in MS-62. Better be ready to go the distance if you want this one for your Registry Collection! Deserving of a home in a first rate collection.

TIED FOR FINEST KNOWN!

Wholesome, fresh and original with a glorious array of obverse baby blue, celery green, gold and hues intermingled over deep mint bloom and luster. The reverse is somewhat reflective, and mostly brilliant with a gorgeous halo of peach tone to offset the devices. Keenly defined motifs are graced by a wash of mint frost.

A few light marks are seen under magnification near star 3 and on the reverse above the eagle's head. Especially RARE in GEM status, in spite of the relatively high mintage of 580,000 coins struck.

WB-5, Rarity-4. No unusual die defects on the obverse are noted, but the reverse is easily identified by the raised patch of metal below the LF of HALF as well as the prominent die lines in the shield.

PCGS 5, NGC 1, CAC 4. PCGS Price Guide values this date at \$15,000. This exact piece sold in August 2010 for \$16,100. It has been a DECADE since this piece has appeared at auction and it certainly rivals any of the other Gem graded pieces that have sold in more recent times. The quality of this magnificent piece cannot be overstated. This coin is destined for a WORLD CLASS collection. The only question is, will it be yours?

50C 1849 PCGS MS65

TIED FOR FINEST GRADED! Twirl this coin in the light and the cartwheels bounce off of the creamy mint brilliance and luster in the fields. The peripheral toning in shades of electric blue, rose and gold hues serves as a **GORGEOUS** contrast and frame to richly frosted, needle sharp devices. A well concealed abrasion is noted on Liberty's right shin and a couple of teensy flea bites are seen under strong magnification. Exceedingly rare in Gem condition.

WB-11, R-3. Known as the Repunched 1 variety, but on very late die states, like this coin, the repunching of the 1 is not visible, but the die crack through the date and from the rim to R-y through the rock support is also prominent.

From the legendary Col. E.H.R. Green Estate, Eric P. Newman/B.G. Johnson (St. Louis Stamp and Coin Co), Eric P. Newman for \$7.50, Eric P. Newman Numismatic Education Society.

PCGS 2, NGC 3. NO PCGS graded pieces have traded at auction! This exact coin sold in the Eric P. Newman auction for \$15,275 in November 2013 where it was housed in an NGC holder. Listed in the PCGS Price Guide for \$12,500. We have no doubt this coin will elicit lively bidding. Worthy of a **WORLD CLASS** collection. Good luck!

EXTRAORDINARY strike for the date and mint. Chiseled design elements are enhanced by generous amounts of frost. Blazing white due to a light dip at one time (which did nothing to diminish the overall luster. It is flashy and complete).

WB-6, Rarity 3. Lg O. Easily identified by the heavy die rust lumps scattered over the obverse on Liberty's body and within the shield. Rotated reverse die about 30 degrees to the left.

PCGS 6, NGC 4. PCGS Price Guide is \$1,500. An example sold in March 2020 for \$1,080. The strike alone is worthy of a premium bid.

REFLECTIVE fields are created due to polishing of the die and are a pretty accent to razor sharp design details. Blushes of gold toning are noted, most notably on the reverse. There is a small contact mark near star 11, and a few random reverse marks above the eagle's head, but they are commensurate with the grade. In fact, for a coin in MS-61 grade, one would expect a plethora of bagmarks, but this coin is happily free of them!

WB-2, R-3. Repunched 0 (only on early die states). This is a late die state so that diagnostic is no longer visible. The prominent feature for the variety is the large die clash in the right hand side of the shield. Obverse rim cud between the 1,8 of the date.

PCGS 3, NGC 7. PCGS Price Guide is \$2,750. An example sold in October 2016 for \$1,880 when the market was much weaker. For it's relatively high mintage, there are not a lot of Mint State pieces that have been graded.

KEY DATE. What a gorgeous, original piece. Housed in an OGH. **INTENSE** satiny smooth luster is thickly spread over clean fields. The design elements are struck to full advantage and are graced with rich, mint frost. A beautiful blend of apricot and lemon yellow toning only serves to add to the eye appeal and originality. If not for a mint made planchet flaw to the right of the final 1 in the date, this coin would easily be in a higher grade holder! A prized date in the series, especially in this nice state of preservation.

WB-6, Rarity-4. Normal date. Very late die state shows die damage on the first A of AMERICA (evident on this example)

PCGS 6, NGC 8. PCGS Price Guide is \$5,000. The last non-CAC example to sell was a **DOZEN YEARS AGO** in October 20008 where it fetched \$4,888. With the strength of today's market, the freshness of this coin and the scarcity, we expect nothing less than aggressive bidding.

ZIPPY flash and cartwheel luster. Blazing brilliance with just a whisper of soft peach and gold overtones. Very sharply struck devices. Some well concealed marks are what are keeping this piece from a higher grade. Under a loupe, one notices a couple of contact marks in the folds of the drapery and one between stars 2 and 3.

WB-7, Rarity-3. Known as the **AMERICA I** variety due to the die crack and later cud that has developed on the right side of the top of the final A in AMERICA. A myriad of die cracks are noted on both sides, but the most pronounced are on the reverse.

PCGS 8, NGC 11. PCGS Price Guide is \$4,500. An example sold in April 2019 for \$3,360 (but it was ugly with dark toning).

Extremely well struck. Even under strong magnification there are no noteworthy marks.

PCGS 198, NGC 73. PCGS Price Guide is \$4,750. One sold in June 2019 for \$3,650. White pieces are highly sought after in today's marketplace, so expect to bid aggressively to take this one home!

DAZZLING BRILLIANCE graces satiny smooth surfaces. Great cartwheel effect and eye appeal. Boldly defined motifs are enhanced by mint frost. One or two random marks are noted in the fields with a powerful glass. Claims to a higher grade in our opinion, but no guarantees.

The Arrows at the date symbolize the change in planchet weight from 206.25 to 192 grs, thus rendering the practice of melting the coins down for profit moot.

PCGS 26, NGC 33. PCGS Price Guide is \$1,000. With so many of these saved, one would expect a lot more mint state examples than what exist. In fact, there are only 102 pieces in higher grades. In fact, it only serves to create a gorgeous backdrop to razor sharp devices. One contact mark at Liberty's right knee is seen under strong magnification. We cannot overstate the absolutely incredible aesthetic appeal of this coin. TOP POP for the date!

PCGS 16, NGC 6, CAC 3. This is the SOLE MS66+ CAC and is unequivocally worthy of both! This coin has not traded at auction. PCGS Price Guide lists it for \$17,500 and we think it is worth every nickel of that and thousands of dollars more, EASILY! Tied for second FINEST graded! Eye popping mint bloom and blazing white luster looks like a sheet of satin accenting immaculate fields. Thick frost is apparent on needle sharp devices. Even with powerful magnification, nothing other than a couple of flea bites can be seen on the surfaces.

Incoming Mint Director, Colonel James Ross Snowden, ordered that moving forward, all quarters and half dollars would be issued without rays,

but would continue to show arrows at the date. This was likely to save the life of the dies and avoid the costs of additional die sinking, while still indicating the new planchet weight introduced in 1854.

PCGS 4, NGC 2. Just 9 coins graded higher and all are MS-66. A sleeper date that routinely is thought of as common, but in reality is far from it in GEM grades. PCGS Price Guide is \$15,000. Believe it or not it has been 18 years since the last non CAC example traded at auction, in June 2002 for \$14,375. The price jumps from \$15,000 to \$32,500 in MS-66. SCARCE in any condition. It is estimated that only 300 or so pieces exist of the original 460 mintage. Pleasantly devoid of contact marks, the mirror like surfaces exhibit wisps of ice blue and gold toning. Likely dipped at one time, in our opinion. Faint hairlines can be seen in the fields as well as a few lint marks. The lint marks were created when the dies were polished to enhance the reflectivity and little pieces of thread from the dusting cloths were stuck in the dies. As the coins were struck, these threads that were stuck in the dies made small impressions on the coin that look like squiggly pieces of thread.

FROSTY white radiance accents well preserved surfaces with very few hairlines noted even with powerful magnification. Needle sharp motifs are highlighted by frosty accents. A small planchet flaw is noted above the eagle's left wing. Popular two-year-only type coin with the Arrows at the Date, denoting a change in the weight of the planchet from 6.22 to 6.25 grams. Likely dipped at one time.

PCGS 26, NGC 7. Just 750 were minted. PCGS Price Guide value is \$4,000. The last PCGS PR64 sold in November 2017 for \$7,200, and was probably seen as an upgrade. If you are hunting for a white example, here she is!

50C 1795 OVERTON-110. PCGS AU58 CAC

This is a SPECTACULAR GEM AU example of this early half dollar, a stunning type coin, and essentially FULL MINT STATE. In the old days, this coin would have been called Brilliant Uncirculated! Indeed, take a look at this coin and compare it to any MS61 or MS62 examples that have sold in auction, and you will easily see how SUPERIOR this HIGH END AU58 really is!

A full, original mint luster booms all over the surfaces. Sharply struck up, the details are razor sharp and fully rendered from a forceful blow from the heavily clashed dies. A stray line or two might be seen with effort and a strong glass, but none of these are distracting. A rich silver luster shows a light hint of clear gold. The eye appeal is excellent! WOW!

PCGS 16, NGC 34, CAC 3. No CAC-approved AU58 has ever sold in auction! The closest APRS are a PCGS AU55 CAC that sold for \$33,600 in March 2018 and a PCGS MS62 CAC that brought \$66,000 in November 2020. The Price Guides are not accurate for a coin like this, one look and you will see how truly special this GEM AU is! We expect very strong bidding for this one!

50C 1824 PCGS MS66

This FABULOUS O-117 has to rank very high up on the Condition Census, and is likely the second **FINEST KNOWN** of this R-1 variety.

Beautifully toned on both obverse and reverse, this PQ GEM has a bold luster and radiant look. The details are sharply struck up, and the defining attribution points, including the die lines off the left wing, have pinpoint definition. Rich blue tones outline the silver-pewter, golden-russet-tan, and apricot-rose hues in the centers. The eye appeal is outstanding.

PCGS 6, NGC 4. There has not been a PCGS MS66 sold in auction since a PCGS/CAC MS66 sold in February 2013 for \$28,750. Prior to that, one sold in 2004. Clearly these do not appear in auction with any frequency. The current Collectors Universe value is listed at \$25,000. 50C 1833 PCGS MS65+ CAC

One of the **FINEST KNOWN** O-108s that exists! This is what a GEM 1833 half dollar should look like!

A blazing, underlying cartwheel luster booms under the layer of totally original pale blue, lilac, amber, rose, and gold patina that graces both sides. The devices are incredibly well struck, even in the central areas, which often show some striking weakness. The eye appeal is truly spectacular.

PCGS 23, NGC 24, CAC 8. PCGS has graded six in MS65+ and just five finer. No PCGS MS65+ has ever sold in auction, but the most recent PCGS/CAC MS65 was an old green tag holdered coin that brought \$14,400 in the 2020 FUN auction.

This coin will prove the Collectors Universe value of \$11,500 is just too low when the hammer falls. Just two coins are graded finer with CAC approval, none of which have ever sold in auction. If you are working on a CAC set, do not let this GEM pass you by! Good luck!

50C 1834 LARGE DATE. SMALL LETTERS. PCGS MS66 CAC

This is the fabulous Denny Kemp-Brent Pogue- Dale Friend O-106. This monster is tied for second HIGHEST graded at PCGS, and bested only by a single MS67.

This coin boasts an absolutely gorgeous blend of colors, that range from a vibrant purple and azure tone then blends into sea-green and light gold, all brought out by a fantastic cartwheel brilliance. The surfaces are generally smooth, devoid of all but the most insignificant, miniscule ticks are seen with the aid of a loupe. The details are quite bold. The O-106 features a Large 4 over Small 4 in the date, though this repunched digit is not noted on the insert.

PCGS 2, NGC 3, CAC 3. This coin may account for two of those appearances at CAC. The last time this coin sold in auction, it brought \$26,400, well surpassing the PCGS and CAC Price Guide values. The single MS67 finer sold for \$64,625 in the Pogue Sale. This coin, in this cataloger's opinion has a better look, and really is a beauty. If you seek just a single, beautifully toned GEM Bust half, pay careful attention to this one!

PCGS AU58

O-116. A very pleasing example of a very popular type in arguably the most popular grade. AU58 Bust halves are avidly collected and this colorfully toned example is quite lovely. The wear is very light and the surfaces show just some very minor contact from its brief stay in commercial channels. This is a great collector coin.

PCGS 208, NGC 93. While the PCGS Price Guide value is listed at \$850, there is a wide range of APRs including the two that just sold in a February 2021 Mail Bid auction for \$1,210 and \$1,986. This CHOICE example will bring a good price from the dedicated collector.

A lovely "super slider" O-107. Richly toned in a classic mix of lilac, rose, purple, and pewter overtones, a decent satin luster brings out the lovely iridescent shades. Generally well defined devices stand out. We note some minor roughness at the denomination and weakness on the ribbon. Any wear is limited to minor friction on the highest points. The eye appeal is great.

PCGS 9, NGC 0. This is the ultimate Everyman set grade. While Collectors Universe lists \$900 as the value, we think this one will bring a strong price.

LOT 152

50C 1836 REEDED EDGE. PCGS PR62

A wonderful early Proof rarity. Only a dozen were estimated to have been struck, and is a Low Rarity-7 as a Proof. The 1836 Reeded Edge half dollar is a very important KEY to the Capped Bust series. Only 1,200 or so were struck for circulation and these early Proof strikes are perhaps what is listed in the Judd book on patterns. The first of these were struck on November 8, 1836 and were the first coins struck on the new steam powered presses.

Richly and deeply toned surfaces retain quite a bit of original reflection in the fields. The devices are chiseled sharp and stand out against the surrounding fields. A powerful glass fails to reveal any serious lines or marks of any kind and the eye appeal is great for a PR62.

PCGS 2, NGC 0. This coin sold back in January 2015 for \$24,675. The current PCGS Price Guide value is listed at \$32,500. Note more recently we sold a PCGS PR63 CAM CAC for \$47,000 in 2017. This impressive coin is truly a notable and historic rarity worthy of an advanced collection. Good luck!

Deep, beaming mirrors are ultra

 sharply struck and have a thick frost

that stands out, imparting the bold cameo contrast. Both sides are framed by a ring of gold that deepens to a cobalt and
 violet. The surfaces are FLAWLESS and this is a beast! We just love this monster Proof Seated half.

Only 930 Proofs were struck. PCGS 1, NGC 9, CAC 2. There are NONE finer. This coin brought \$13,200 in September 2020
 and that seems very cheap for one of the FINEST KNOWN examples from a tiny mintage. We think this coin should bring
 closer to the Collectors Universe value of \$17,500. A great type coin or prize for the collector working on the FINEST Proof

LOT 154
50C 1894 PCGS PR64 CAM CAC

A wonderful Cameo Proof example that, in the old days,
 would have been classified as a GEM. With today's more
 nuanced numerical grading, PCGS got this one spot on with
 the PR64 CAM grade. Ultra flashy mirrored fields have a bold
 depth of clarity. Pleasing, totally original patina enhances
 the bold Cameo contrast between the mirrored fields and the
 richly frosted devices. The eye appeal is excellent.

Only 972 Proofs were struck. PCGS 21, NGC 17, CAC
 3. Only a single CAC-approved example has ever sold,
 realizing \$1,840 in July 2019 (a PR64+ CAM CAC sold
 in the 2013 FUN auction for nearly \$2,000). The current
 Collectors Universe value is listed at \$1,950. Fewer than a
 dozen examples are finer with CAC approval, clearly these are
 VERY RARE in CAC quality.

LOT 155
50C 1901 PCGS PR61

Only 813 Proofs were struck, and this totally original example
 is CHOICE for the assigned grade. The eye appeal is amazing
 for a PR61. Watery mirrored fields have some minor lines, but
 are mostly hidden by the wonderful iridescent toning. Housed
 in an old green tag holder.

PCGS 23, NGC 14. The current Collectors Universe value is
 \$650 and this one should bring a strong bid.

LOT 156

50C 1918-D PCGS MS66+ CAC

Legend Rare Coin Auctions is proud and honored to offer the **SINGLE FINEST** example of this important, conditionally **RARE**, early **KEY DATE** Walker. The quality and eye appeal are off the charts! The 1918-D, despite a mintage of over 3.8 million pieces is the third most challenging issue of the entire Walking Liberty Half Dollar series to find at the **GEM** level or finer (In **GEM** Mint State condition, only the 1919-D and 1921-S are tougher to find in this series, so this 1918-D is held in good company!), at the presently offered **TOP GRADE** of **MS66+** level it is **UNIQUE!** The reason that this particular date is so difficult to find in gem mirrors that of the 1919-D, these were widely distributed in the midwest at the time of issue, few were saved by contemporary numismatists. The post World War I economy fell into a deep recession in 1921, so mintages fell dramatically, and coins that were in circulation remained there.

This incredible **SUPERB GEM** example displays a bold uniform satiny luster with a thick, creamy, rich mint frost. Mainly pearly-silver with a blush of the softest pale champagne hue, the reverse possesses a touch of olive-tan at the right periphery. The devices are well formed and generally well struck, Liberty's head and hand are well formed, though some minor weakness is noted on some of the drapery lines and central feather details on the reverse. A strong glass will, after a long period of intense scrutiny, reveal a few tiny traces of contact, these are generally limited to non focal areas and are well hidden. We also note a tiny fleck or two which attest to this coin's **SUPERB** originality.

PCGS 3, NGC 3, CAC 1. This is the **ONLY PCGS MS66+** graded and there are **NONE FINER!** This is an **AMAZING** coin that is worthy of placement in the **FINEST** of all Walking Liberty half dollar sets. This coin is **PEERLESS** for the date and will certainly attract fierce bidding and a world **RECORD** auction price. Unpriced in the **PCGS Price Guide** at the **MS66+** level. This is a **MONSTER** deserving of an **AMAZING** set. Good luck!

LOT 157**50C 1933-S PCGS MS66 CAC**

A spectacular coin that was in the famed Eric Lane Collection.

A marvelous GEM housed in an OGH, this 33-S is a bold luster bomb! Sharply struck up, the details are incredibly crisp and bold with a full head and full thumb. The faintest blush of golden color frames both sides of this outstanding middle date Walker. The surfaces are exceptionally clean and are SUPERB in visual allure. WOW!

PCGS 111, NGC 61, CAC 37. While the most recent PCGS/CAC example sold in October 2020 for \$3,720, this coin brought \$7,638 in the Eric Lane Collection sale nearly six years ago!

More recently we sold the Sommelier Collection coin for \$7,931 in September 2018. The CAC CPG value is \$5,000. Very scarce finer, this Premium Quality GEM will delight any collector of Walking Liberty half dollars.

Ex Santa Fe Collection, as noted on the insert.

This frosty, brilliantly luster is tied for the FINEST certified at PCGS. There is a satiny, silver-white iridescent sheen that graces both sides. An impressively strong strike brought up all the minute details in the design. The eye appeal is nice overall with near flawless surfaces.

PCGS 12, NGC 15. The most recent example to sell in auction was CAC approved and realized \$20,400 in February 2021. The last non-CAC coin brought \$6,000 in November 2018 and the current Collectors Universe value is listed at \$6,750. NONE are finer, making this a SUPERB choice for a great set.

LOT 159**50C 1934-D PCGS MS66 CAC**

A premium quality GEM 34-D. Rich, thick, satiny luster booms with a magnificent frost. Well struck and original with a soft pearly sheen that adds to the outstanding visual allure. The eye appeal is great.

PCGS 193, NGC 35, CAC 39. Don't let the price guide values fool you, CAC-approved examples have a strong track record in auction, the most recent selling for over \$5,000! Prior to that, these were selling between \$2,000 and \$2,800. Rare finer, this is a great collector coin worthy of a strong bid.

Ex Santa Fe Collection, as noted on the insert.

Superb, SUPERB, SUPERB! WOW! This is an AMAZING 1935 half dollar! This coin is absolutely stunning with bold double sided beautiful colorful toning.

Multicolored, swirling bands of toning. Blues, golds, oranges, and greens all blend together giving this PQ and CAC endorsed SUPERB GEM a great look. We rate the colors an 8 on the obverse and a 9+ on the reverse.

The colors are fully brought out by a rich, satiny mint frost. The devices are sharply struck and the surfaces show just a tiny mark or two. The eye appeal is truly UNIQUE and AMAZING!

PCGS 81, NGC 41, CAC 38. There are 10 in MS67+ and just two graded finer. The average APR is over \$6,000 but this one, with its amazing color should bring more! Good luck!

This gorgeous coin is one we have had the honor of selling before, appearing as lot 195 in our November 2018 Regency Auction, where it was described as:

"There is no question this high end Walker sat undisturbed from the day it left the Mint. The pristine surfaces show only some raised dye lines, but nothing in the dreaded right field. Impeccable blazing silver mint brilliance is blinding with a white hot glow. Miss Liberty and the details are sharply struck throughout, and the eye appeal is wonderful!"

PCGS 220, NGC 136, CAC 99. PCGS has graded 34 in 67+. The most recent examples have sold in the \$1,800 to \$2,468 range, but this one sold for \$3,643 in the November 2018 Regency Auction. Today, the PCGS Price Guide value is listed at \$3,200. A great looking coin for the advanced collector, there are just four graded finer. Good luck.

50C 1936-D PCGS MS67+ CAC

Ex Santa Fe Collection, as noted on the insert.

What a wonderful and high end SUPERB 36-D Walker! WOW! Tied for FINEST graded at either service, this coin is one of the most stunning examples we have handled. This is a prime candidate for a high ranking PCGS Registry Set.

Sharply struck devices stand out boldly. Every detail is sharply embossed on both sides and the

design elements have a bold frost. The flawless surfaces are a miracle of survival, and the fields especially are exceptionally well preserved. The luster is blazing, white hot, and dramatically brilliant with an intense vibrance on both sides. The surfaces are nearly flawless, if it were not for a couple of the tiniest traces of contact hidden on Liberty's leg, this coin could have graded higher. The peripheries show the palest dusting of iridescent tone but this piece is essentially untuned and would fit nicely in an all untuned set. The eye appeal is unconditionally superb and this coin is stunning.

PCGS 54, NGC 35, CAC 22. There are six in MS67+ and NONE FINER. The most recent example sold for a world record \$36,425 in our January 2020 Regency Auction. Clearly the PCGS Price Guide value has not kept pace. This SUPERB GEM is worthy of an amazing set.

PQ approved. Absolutely AMAZING! What a SUPERB 1937-S Walker! Needless to say, this coin is tied for second highest graded at PCGS.

Vividly lustrous and boldly brilliant surfaces are essentially without flaw! A strong glass fails to reveal any trace of contact of consequence. This sharply struck beauty has an amazing eye appeal. We are not sure why CAC didn't bean this SUPERB coin.

PCGS 46, NGC 21. We sold an example for \$3,408 in March 2020 and two others sold in April 2020 for \$3,120 and \$3,240. The current Collectors Universe value is listed at \$4,250. Just nine are graded MS67+ finer and these sell in excess of \$20,000 when they cross the block. Good luck!

PCGS# 6603 | EST: \$3,000+

LOT 170

50C 1938 PCGS MS67+

One of the FINEST examples of this late date Walker, PCGS has graded just a single MS68 finer. This is a highly lustrous example with remarkable surfaces that are super clean and satiny smooth. A reasonable luster

glows from all over. Both sides have totally natural toning. A ring of reddish gold forms a crescent on the obverse and parts of the reverse. The balance of the colors are deep lilac with a kiss of gold and faint blue. The only thing keeping this coin from CAC approval is a tiny hint of contact in the dreaded right obverse field (visible really only with a strong glass). The eye appeal is truly amazing! WOW.

PCGS 14, NGC 2. Just a single MS68 is graded finer. NO non-CAC approved PCGS coin has ever sold in auction. We sold the last three PCGS-graded MS67+s, all CAC approved, ranging from \$8,225 to \$10,575. This gorgeous coin rivals those in terms in eye appeal and should sell for a similar range. The current PCGS Price Guide value is \$10,500 and the only 68 sold a decade ago. Good luck.

PCGS# 6604 | EST: \$8,500+

LOT 171

50C 1938 PCGS MS67

A very appealing late date Walker. Lustrous surfaces possess a better than average mint brilliance that dominates both sides. Virtually untuned, just the slightest hint of iridescence is seen when rotated in a light. Generally well struck, the eye appeal of this coin has a VERY NICE overall look, and this coin will delight even the pickiest of collectors!

PCGS 132, NGC 47. Just 15 are graded finer. These generally sell in the \$850-\$1,000 range and the current Collectors Universe value is listed at \$1,150. VERY RARE finer, a 67+ will cost about 10x more. Good luck and bid accordingly!

50C 1938-D PCGS MS66

A lovely GEM example of this KEY date. Offering the lowest mintage of the later date Walkers, the 38-D has a cache all its own, and is sought in all grades, especially in GEM. A frosty satin luster graces both sides of this untuned, well struck example that boasts a good visual allure. We are not sure why CAC didn't bean this one.

PCGS 515, NGC 114. The last one to sell brought \$1,450 in a December 2020 internet only auction and the PCGS Price Guide value is listed at \$1,850. This lovely example will fit nicely in any GEM set.

LOT 177

50C 1940 PCGS MS68

A truly SUPERB GEM 1940 Philly mint Walker. Boldly lustrous surfaces glow brilliantly and vibrantly all over on both sides of this exceptional GEM. Sharply struck devices show full definition on Liberty's hand and the eagle's feathers. Both sides have a subtle halo of rainbow iridescent toning framing mostly silver-golden centers. There are a couple of the tiniest ticks, visible only with the aid of a strong glass. VERY RARE in this lofty state of preservation and UNIQUE finer.

PCGS 29, NGC 21. There has not been a single non-CAC MS68 sold since April 2018, where one sold for \$4,800, prior to that, one sold for \$4,712. The current Collectors Universe value is listed at \$8,000. We sold the ONLY MS68+ for a world record \$29,375 in our September 2019 Regency Auction. This is a great coin for any advanced set.

50C 1940-S PCGS MS67 CAC

Coming from a sizable mintage of more than 4.5 million pieces, the 40-S is a generally available date, easily obtainable in grades up to MS65. However, as the mint churned out those millions of coins, the quality of striking was somewhat poor, and finding well struck examples is very difficult, thus limiting the number of SUPERB GEM examples as seen here.

Nicely struck, even in the centers, which show at least some outline of

Liberty's hand and otherwise fully defined skirt lines and facial details. The mint luster is bold and vibrant, virtually untuned. There are no marks of any kind to mention and the eye appeal is great.

PCGS 15, NGC 20, CAC 7. The most recent example sold in our June 2019 for \$21,738. The current Collectors Universe value is \$15,000 and the CAC CPG value is \$18,000. There are just three graded finer, and this coin is very high end and worthy of a very strong bid.

Ex Duckor, as noted on the holder.

The 1941-S is a noted condition rarity in MS67, so this MS66+ is a great grade for the collector. This date is notorious for its weak strike, and this coin, with the Duckor pedigree was clearly selected for its well above average striking definition. A dusting of golden, lilac, and pale blue tones grace the frosty satiny surfaces of this GEM, further enhancing its wonderful charms.

PCGS 875, NGC 239, CAC 157. There are 145 reported in MS66+ and only 11 are graded finer. The last two PCGS/CAC coins sold for \$5,040 and \$4,800. 50C 1944 PCGS MS67+ CAC

While the 1944 is generally available with Gems being plentiful at the MS67+ level its rarity is striking. This SUPERB GEM is an extremely lustrous example with a stunning mint brilliance that billows vibrantly from all over. Very well struck with bold definition throughout, this coin has SUPERB quality surfaces that beam with mint fresh radiance.

PCGS 162, NGC 93, CAC 83. There are 35 graded MS67+. The most recent example sold in our May 2020 Regency Auction for \$5,288 and the current Collectors Universe value is \$5,000. The only MS68 to ever sell brought \$109,250 over a decade ago! This is a real prize for the advanced Registry Set collector and will see very strong bidding when it crosses the block! Good luck!

50C 1944-D PCGS MS67+ CAC

An incredible SUPERB GEM! Tied for SECOND FINEST graded at PCGS, this is an exceptionally brilliant, lustrous coin. The surfaces have a bold satiny frost on both sides. A soft pastel iridescent glimmer can be seen in the fields, imparting a pearlescent texture. Sharply struck devices stand out, further enhancing the outstanding eye appeal. An excellent coin for the FINEST of sets.

PCGS 346, NGC 246, CAC 172. PCGS has graded 28 in MS67+ and just a single MS68 graded finer. The current PCGS Price Guide value is \$4,500 and there is a wide range of APRs, this one brought \$3,732 in February 2018. Expect very strong bidding when this one crosses the block!

50C 1944-S PCGS MS66+ CAC

Despite a mintage of nearly nine million pieces, the 44-S half dollar is **EXTREMELY RARE** in **SUPERB** grade. Blazing untuned silver luster booms all over on this high end 66+. Just some minor striking weakness is noted in the central obverse, as typical for the date. The eye appeal is quite nice.

PCGS 829, NGC 231, CAC 192. PCGS has graded 146 in MS66+ and only 10 are graded MS67 finer. The average APR for the last 10 PCGS/CAC MS66+ examples is \$1,416 and the current Collectors Universe value is \$1,500. The last MS67 sold in May 2005 so good luck finding one!

What an unbelievably well preserved example of this late date Walker in TOP GRADE. This is a SUPERB example, tied for finest and the quality is very high end!

A thick, glowing, satiny frosty luster gleams brilliantly in the fields, glowing all over on this essentially PRISTINE 46-S half. Delicate sea-green and gold toning frames the obverse periphery before yielding to untuned frosty centers. The fields are devoid of any post minting flaws, a strong glass does show some die lines on the obverses and a very minor planchet flaw on the upper reverse rim (mint made, and is mostly hidden by the PCGS gasket).

PCGS 123, NGC 101, CAC 43. PCGS has graded 10 at this lofty state of preservation, and we have had the honor of selling three of them recently, ranging from \$18,213 to \$24,675. One of the always popular and colorfully named "Bugs Bunny" Franklin half dollars. The name comes from die clashing where the tiny eagle's feather details from the reverse are seen at the front of Franklin's mouth making it look like he has buck teeth. While not very rare, this GEM has spectacular toning that is nearly on par with some of the FINEST of toned Franklin half dollars we have had the honor of selling.

LOT 214

50C 1950-D PCGS MS66+ FBL

This is a very high grade example of the date, essentially on the cusp of a SUPERB classification, a condition that is rarely seen for this date. A bold underlying luster bursts through the original Mint Set holder toning, which feature splashes of russet-tan, olive-green, and flashes of rose and teal that come out when rotated in a light. All that holds this coin back from a higher designation are a few very tiny, inconspicuous ticks. The magnificent color gives this GEM a great look!

PCGS 33, NGC 4. The last three examples sold in the \$1,920 to \$2,166 range and the current Collectors Universe value is \$3,250. PCGS has graded just three coins higher, and the only MS67 FBL to sell in auction brought \$32,400 in the 2020 FUN auction. A lovely coin that has a full, crisp strike on the Liberty Bell, accounting for its highly desirable FBL designation. Rich tangerine-gold, crimson, pale blue and lilac hues mix with verdant accents that are brought out by a bold luster. While a glass reveals some minor contact, the worst of which are well hidden under the patina on the upper right area of the Liberty Bell. The eye appeal is still quite impressive, and this date is excessively rare any finer!

PCGS 37, NGC 8. The most recent example brought \$840 in the 2021 FUN auction and one sold in the April 2019 CSNS sale for \$900. The current PCGS price is \$950 and it jumps to \$25,000 in MS67 FBL. A good looking coin that will fit into any Registry Set.

50C 1953-S PCGS MS67+ CAC

A stunning, high grade example of this popular date. First off, it is tied for FINEST graded with just one other piece. The 53-S is a classic rarity in the FBL designation, a five figure rarity in virtually any grade, and rarely seen in any grade finer than MS65 with FBL designation. As such, most collectors are relegated to finding a truly gorgeous non FBL example for their sets. While not FBL, this is a well struck and wonderfully preserved example with just a touch of weakness on the bell lines. Aside from that, the definition is striking and crisp. Wonderfully toned on the obverse, suffused in apricot and tangerine hues, mingling with hints of subtle iridescent pastel colors that come to life with the bold, brilliant, exquisite luster. There is just a touch of color on the reverse.

PCGS 40, NGC 17, CAC 23. There are just TWO MS67+ examples at PCGS and the current PCGS Price Guide value is \$3,600. This coin has sold twice in auction, once in the 2017 FUN auction for \$3,055 and in our August 2020 Regency Auction for \$2,585. The 1959 is a conditionally RARE date, which is VERY RARE in MS66+ and excessively so any finer. This is a gorgeous example that is totally original and very high end. The eye appeal is truly spectacular and has a very cool look. Glorious splashes of clover, emerald, and olive green blend with coppery-peach, apricot-rose, lemon-yellow, and lilac-dove patina have an almost Jackson Pollack-esque pattern. The reverse shows freckles of russet-olive scattered over brilliantly lustrous surfaces. The luster is brilliant and bold with a rolling cartwheel finish that brings out the varied

shades. Sharply struck the lettering of the Liberty Bell, as well as the lines, are fully rendered, nice and crisp. Both sides are pleasing and have just a few tiny ticks from contact, but none have any impact on the wonderful visual allure.

PCGS 138, NGC 46, CAC 23. There are 25 graded MS66+ FBL and a mere 2 finer. Two CAC-approved examples sold in August 2020 realizing \$3,408 and \$3,840. Late date Franklin half dollars were struck in quantity, but not quality. The 62-D is usually weakly struck and/or hacked up, and as such, this date is VERY RARE in such a high grade. The present GEM is a very pleasing, high quality example that defies the typical survivor. Well struck devices stand out from generally clean surfaces. Greenish-gold patina blends together over satiny, frosty surfaces, likely from long term storage in an original Mint Set. The eye appeal is very nice.

PCGS 50, NGC 10, CAC 7. The most recent example sold for \$1,140 in October 2020. The CAC CPG value is \$1,440 and the Collectors Universe value is \$1,600. A SUPERB example, totally original and TIED FOR FINEST graded at either service!

Clearly this marvelous survivor sat undisturbed since it was struck and was able to take on a gorgeous melange of color on both sides. The highly lustrous surfaces are free of any distracting marks or ticks, and overall the eye appeal is very high end!

PCGS 5, NGC 4. Neither service has graded anything finer. The last one to sell brought \$6,600 in October 2019, and the PCGS Price Guide value is listed at \$6,000. This marvelous SUPERB GEM could bring more! Bound for the FINEST of JFK half dollar sets!

50C 1964 NGC PR68 UCAM

No hyperbole needed here, this coin is simply perfect. Deep beaming mirrors boom against the thickly frosted devices. The eye appeal is SUPERB.

PCGS 298, NGC 398. The Collectors Universe value is \$625 and the last 10 to sell in auction average an APR of \$408.

LOT 227

50C 1964 S.M.S. PCGS SP67+ QA GOLD STICKER

Legend Rare Coin Auctions is proud to offer this monumental, modern RARITY--one of the greatest non-error issues of the U.S. mint in the latter part of the 20th century. The greatness and intrigue of this spectacular RARITY comes from the mystery of its creation.

The history begins in late 1963, after the assassination of President Kennedy. Officials at the mint rushed to create a numismatic tribute to the slain president, thus ending the Franklin half dollar and the beginning of the Kennedy half dollar. Since the Franklin half dollar had not been in use for the required 25 years, an act of Congress authorized the redesign. Indeed, just a few days after the events in Dallas, mint director Eva Adams had Gilroy Roberts, the Chief Engraver to prepare models depicting the popular, youthful president. In January 1964, the first J.F.K. halves were struck, amounting to a total production of over 429 million circulation strikes between Philadelphia and Denver and nearly four million Proofs. Somewhere along the line about a dozen Specimen strikings were produced. These are clearly different in style to either those struck for circulation or Proofs. The devices on these Specimens are sharply struck with exceptionally bold definition in the hair and the rims are high up and fully squared. The fields show extensive die polishing marks in the reverse fields. The obverse details include a small tine off the crossbar of the 4, a feature that has never been observed on any other 1964 half dollar, Mint State or Proof, showing that these dies were used for this small production and that is it. Whether these are die trials for the new design, or as a "bridge" to the Special Mint Set pieces struck 1965-67, we do not know for sure. The first example of these specially produced half dollars appeared in Stack's June 1991 auction, where a full 1964 set with special prepared dies was offered in lot 591. What is suspected is that these sets were made special for Eva Adams for distribution as gifts or for herself, and were sold to New York dealer Lester Merkin sometime shortly before her death in August 1991 and his in June 1992. The remaining sets that he had purchased were sold in Stack's auctions from 1991 to 1995, a total of 9 sets made their way into the market that way. Today, about a dozen Specimen 1964 half dollars are known, making this the RAREST of all JFK half dollars, and the rarest non-error modern coin of the U.S. series.

This spectacular coin is one of the two graded SP67+ at PCGS, the same grade as the D. Brent Pogue Collection coin, and is the median grade for PCGS-graded specimens. The surfaces are brilliant with its unique satiny texture that sets these wonderful rarities apart from their Mint State and Proof counterparts. The eye appeal is exceptional, as evidenced by the QA GOLD sticker, which signifies the coin is undergraded in their opinion. There is a single minor mark on the ST of STATES, which will forever identify this important coin.

PCGS 2, NGC 1. While the Pogue example sold in March 2020 for only \$60,000, in the past couple of years, these have taken off, as Registry collectors have fiercely gone after the precious few that have appeared in auction. A PCGS SP67 sold in April 2019 for \$108,000 and an SP68 sold in the 2019 ANA auction for \$156,000. The current PCGS Price Guide value is listed at \$115,000, and it would not shock us if this SUPERB coin brought that or more when the hammer falls.

THE GERALD FORSYTHE WALKING LIBERTY COLLECTION

Legend Rare Coin Auction is honored to offer the #1 ALL TIME PCGS Registry Set of Walking Liberty Half Dollars, the Gerald R. Forsythe Collection. Being offered as a single lot, the Forsythe Hall of Fame Registry Set contains an astounding 51 TOP POP coins, including eight that are the SINGLE FINEST GRADED!

Carefully assembled over the course of the last several decades, with the eye of a connoisseur, Mr. Forsythe focused on not just high grade, but exceptional quality Walking Liberty half dollars. Mr. Forsythe acquired coins out of auctions, and via private treaty sales. Each individual coin is of world class quality. Coins in this set are pedigreed to some of the FINEST sets of all time, including the Dr. Steven Duckor Collection. While over the years we have handled some great individual Walkers, short sets, etc, we are honored and humbled to offer this AMAZING SET.

The total Collectors Universe value of the Forsythe Collection is listed at \$2,601,900 and with a set of this stature, the total is worth way more than the sum of its parts. In many instances, the recent auction prices exceed the published prices. With all these Pop Top examples, many of which have been off the market for 5, 10, 15 years in some cases, the many of PCGS Price Guide values are likely obsolete. Keep in mind that all the work has been done for you, it took decades to assemble this ALL TIME FINEST PCGS Registry Set. This is a ONCE IN A LIFETIME opportunity for the advanced collector to acquire the ultimate set of Walkers, and immediately vault him or herself to the top of the PCGS Registry. With just a single bid, your name will forever be a part of American numismatic history! On behalf of Mr. Forsythe, all of us at Legend Rare Coin Auctions wish you the best of luck!

50C 1916 PCGS MS67 CAC

What a way to start the collection! This is a remarkable HIGH END SUPERB GEM.

Typically, these come not so nice-even in GEM condition. This coin is light years above all others.

Absolutely flawless surfaces hold up even with scrutiny from a strong glass. You can look at it all day and all you will see is thick satiny texture with NO problems. The surfaces are 100% original. A bold glowing luster beams from all over. Both sides enjoy a light hint of gold toning at the rims. The centers are original white. Miss Liberty and the details are well struck. You do not need a glass to see the full split in the thumb. The eye appeal is wonderful!

PCGS 6, NGC 11, CAC 4. The last PCGS CAC piece to sell in auction brought \$35,250 in August 2015. That was 6 long years ago! This coin will not only be a tremendous addition to any Mint State Walker Collection, it will also make a great first year Type coin. We expect strong bidding here-be prepared.

PCGS# 6566

50C 1916-D PCGS MS67 CAC

One of the most majestic examples of this first year of issue half dollars we have ever had the pleasure of handling! This SUPERB GEM is absolutely AMAZING, pristine, and a monumental example of the 16-D!

For the date, the Forsythe coin is extremely well struck and very high end! Both sides are thickly frosted with a brilliant, satiny sheen. The mint fresh silver surfaces are untoned and essentially without flaw. The fields have an even, almost matte-like texture that provides the frosty beauty that defines this AMAZING coin!

PCGS 5, NGC 7, CAC 3. Two examples sold in 2020 for over \$50,000--clearly the CAC CPG and PCGS Price Guide values are not accurate. Do not let the incorrect published prices bias you, this has a tiny Population and at the TOP OF THE POP, with NONE FINER, this coin should be figured for a very strong price.

PCGS# 6567

50C 1916-S PCGS MS67

No such thing as a finer or even an equal piece. This is the sole **FINEST** graded by PCGS 1916-S Walker. It is more than worthy of its lofty designation!

If you seek perfection, here you go. We used a strong glass and looked at the surfaces over and over and found nothing of any consequence. The surfaces have a thick satiny like texture. A thick satiny like luster beams strong from all over. Both sides are an original white. This coin was never messed with. Miss Liberty and the details are exceptionally struck for this notoriously weakly struck date. The eye appeal is dreamy!

PCG 1, NGC 1, CAC 1. This coin only sold in auction back in 2004. It brought a strong \$33,350 then. Collectors Universe sees it as \$65,000 today while CAC CPG is \$66,000. We think its worth closer to \$75,000 in the real world. Good luck!

PCGS# 6568

50C 1917 PCGS MS67

WOW! This is the epitome of SUPERB GEM Mint State quality! This early date is EXTREMELY RARE in this high grade, with perhaps two other examples graded MS67 and NONE graded higher! WOW!

Impeccable quality surfaces are incredibly clean and pristine. A rich satiny mint frost has a gleaming silvery sheen that is bright, brilliant, and vivid. A blush of the clearest golden hue is kissed gently on the otherwise essentially untuned surfaces. We have looked at this coin long and hard with a strong glass, and cannot understand what CAC saw that precluded their awarding this beauty a green bean. The visual allure is AMAZING!

PCGS 3, NGC 5. The last non-CAC example sold before CAC even existed, back in the November 2006 sale of the Anne Kate Collection. The most recent example was CAC approved, realizing a record \$39,950 in the 2016 ANA auction. This stunning coin will likewise sell for more than the published prices, which in our opinion are too low. A world-class example of this early date Philly mint Walker.

PCGS# 6569

50C 1917-D OBVERSE. PCGS MS66+ CAC

WOW! WOW! WOW! Did we say wow?!? This is a TOTALLY ORIGINAL, SUPERB GEM that is TIED FOR FINEST KNOWN! Everything about this coin is AMAZING! There are not enough superlatives!

Both sides are FLAWLESS and of outstanding technical quality. Blazing luster glows vividly on both sides, providing a back light effect through the layer of wonderful, slate, gold, and tan patina that was slowly and naturally acquired over the course of many years of paper envelope storage. You can see the patten that the paper left on the surfaces. We love the look. An incredible strike has rendered every single detail to its fullest and finest advantage. The eye appeal is AMAZING.

PCGS 6, NGC 4, CAC 2. There are two in MS66+ and NONE are graded higher at either service. Neither has sold in auction, and the closest to sell is the Eric Lane- Dr. Steven Duckor coin, which was MS66 CAC that brought a world record \$78,000 three years ago. This coin carries a PCGS Price Guide value listed at \$75,000 but with its great eye appeal and status as FINEST, should be figured for that or more.

PCGS# 6570

50C 1917-D REVERSE. PCGS MS66

Excessively RARE so fine, this impressive MS66 17-D Reverse is tied for FINEST graded at PCGS, and these are rarely EVER seen on the market. Just two have sold in the last twenty years!

WOW! This is an incredible looking BRILLIANT GEM! Shimmering glowing mint luster booms all over the blazing silvery surfaces. There is a touch of iridescent white on the reverse. The sharply struck up devices stand out boldly against the nearly pristine fields. The definition is crisp and the head and Liberty's hand show wonderful detail. The quality of the surfaces stands up to the most intense scrutiny. We think all that holds this nearly SUPERB coin from CAC approval is the aforementioned silvery-white iridescence which is probably easily removed with some acetone. Otherwise we are unable to find a single flaw of any kind of significance. The eye appeal is quite nice!

While 1,940,000 were struck the vast majority went into circulation and any in Mint State grade is RARE.

PCGS 5, NGC 3. NONE are CAC approved. The last MS66 sold in August 2015, as part of the Eric Lane Collection. Prior to that, none had sold since 2002! Those APRs will prove unhelpful. We can say it will likely be a long time until another comes up for sale! We sold a PCGS MS65+ CAC for nearly \$25,000 in 2019 and the current Collectors Universe value is \$34,500. The opportunity is not to be missed here--a world record price is not to be unexpected!

PCGS# 6571

50C 1917-S OBVERSE. PCGS MS67 CAC

This is the SINGLE FINEST example of this important early date, and it has one of the greatest pedigrees of all time: Norweb! The 1917-S Obverse is one of the most challenging KEY dates in high grade.

Described in the original 1988 Norweb III sale, lot 3674 as:

“Lustrous, brilliant, frosty surfaces with some original mottled light gray toning. Far above average in strike, this example is one of the finest surviving pieces of this, the key variety of the 1917 year. A prize for the connoisseur and specialist.”

More than three decades later, this coin stands alone at the very TOP of the Pop at this lofty grade designation. It is a very high end piece for the assigned grade. The brilliant, mint fresh, satiny lustrous frost that is as bold today as it was in 1917 when it came off of the dies. The delicate tone is mostly seen on the reverse looks the same exact way it did in 1988. This coin is not a “just made it” MS67, this coin has been graded MS67 since Superior’s Session of Auction ‘89, where the cataloger noted its “surfaces approach perfection.” The devices are crisp and boldly struck up with uncommonly strong definition to Liberty’s hand and head. The eye appeal is nothing short of AMAZING and its survival in this high grade is a miracle!

PCGS 1, NGC 0, CAC 1. Ex Norweb Collection, Bowers and Merena, November 1988, lot 3674; Superior’s Session of Auction ‘89, lot 651; Boys Town Collection sale, Superior May 1990, lot 3858; Superior’s Baltimore ‘93 auction, July 1993, lot 477; G.B.W. Collection; Eric Lane Collection, Heritage, August 2015, lot 4118, where it realized a world record \$152,750. The current CAC CPG value is \$180,000 and the Collectors Universe value is \$150,000. This FINEST KNOWN 17-S Obverse is one of the great highlight coins of this FINEST EVER Walker set.

PCGS# 6572

50C 1917-S REVERSE. PCGS MS66+ CAC

While more than 5.5 million 17-S half dollars with the mintmark on the reverse were struck, this is a major condition rarity. This GORGEOUS example is tied for FINEST graded honors at PCGS and is a spectacular specimen for sure!

A thick, glowing satin frost has a brilliant radiance on the surfaces on both sides. The surfaces are essentially without flaw, we note a tiny tick or two with the aid of a strong glass but they are generally well hidden among the details of the design. The design elements are struck to wonderful full definition, every detail is visible, including a bold outline to Liberty's hand and facial features. Even Liberty's skirt lines are well struck. The eye appeal is excellent!

PCGS 12, NGC 4, CAC 3. There are three graded MS66+ and NONE FINER. This is not the Lane-Duckor MS66 CAC that sold for \$66,000 in the 2018 FUN Auction, nor is it the MS66+ CAC that sold in September 2013. The Price Guides are all messed up, and we think this one should be figured for more than the PCGS Price Guide value of \$47,500 considering the APR of the MS66 CAC coin in January 2018.

PCGS# 6573

50C 1918 PCGS MS66

Another high end early date Walker, and it is an AMAZING, totally original GEM! Tied for HIGHEST GRADED at both PCGS and NGC!

The soft, pastel iridescent toning that graces both sides of this beautiful 1918 half dollar give this a truly spectacular look. The palest of blue, gold, and rose tone comes to the fore as you rotate the frosty, satiny mint brilliance in a light. While we note a few tiny stray ticks scattered about, the eye appeal is unaffected and is quite high end and high quality.

Over 6.6 million half dollars were struck and in circulated grades, this is a very common issue. However, GEM Mint State pieces are RARE and they are excessively so in MS66, with NONE FINER at either service.

PCGS 12, NGC 7. The last one we sold brought \$16,450 in our June 2019 Regency Auction and the current PCGS Price Guide value is listed at \$17,000. With NONE FINER, this is a prize for any top ranking Registry Set like this one!

PCGS# 6574

50C 1918-D PCGS MS65+ CAC

Among the top half dozen graded at PCGS and a very high end GEM example. Like most of the early date Walkers, the 18-D was not saved in large quantity by collectors at the time of issue and today there are slightly more than 1,100 certified as Mint State at PCGS and NGC combined, including, no doubt, much duplication, most clustered at MS63 and MS64. Gems are RARE and anything higher than MS65 is a MAJOR RARITY and a real prize for the advanced collector.

Unbelievable quality surfaces are incredibly lustrous and boast a wonderful original golden patina. The devices are sharply struck up, like the other coins in the Forsythe Collection, this coin was carefully selected for its wonderful definition on the head and hand. The initial visual impact is that of an even higher grade, it is only under intense magnification you can find a single mark or flaw. The lustrous surfaces are further enhanced by a blush of coppery-orange patina on the right obverse and the softest dusting of color on the reverse. The eye appeal is awesome!

PCGS 31, NGC 13, CAC 6. There are just two in MS65+ and four finer. Neither MS65+ has ever sold in auction. We sold the Souder-Sommelier PCGS MS65 CAC for \$27,025 in our September 2018 Regency Auction and the Eric Lane-Steven Duckor PCGS MS66 CAC sold for \$108,000 in January 2018. This GORGEOUS coin is worth somewhere in that spread, and we suspect will easily be figured for way more than the \$34,500 listed in the Collectors Universe Price Guide.

PCGS# 6575

50C 1918-S PCGS MS67

Over 10 million 1918-S half dollars were struck for circulation--and that is just what they did--they went into circulation and stayed there. Very scarce in all Mint State grades, this date is VERY RARE in GEM and this MS67 is the SINGLE FINEST GRADED between both PCGS and NGC! This SUPERB GEM is more than worthy of its lofty grade and we are not sure why CAC did not bean this absolutely stunning coin.

The first thing you see are the beautiful pastel, iridescent tones that gently grace the obverse surfaces. Enlivened by a seductive satiny gleaming mint luster, the palest golden-apricot, peach-rose, and lilac tones come out boldly. The reverse is mostly untuned. The devices are sharply struck up from a precision blow from the dies. The surfaces are devoid of all but the tiniest traces of very minor contact, but they are virtually invisible to the unaided eye. The eye appeal is amazing!

PCGS 1, NGC 0. This coin does not appear to have sold in auction based on our database. Nothing finer than MS66 has ever sold in auction. The current PCGS Price Guide value of \$90,000 seems fundamentally low to us.

PCGS# 6576

50C 1919 PCGS MS67+ CAC

What a joy it is to be able to have this SUPERB GEM on our desk! As the SOLE FINEST example of this KEY issue. Only 962,000 half dollars were struck at Philadelphia, most of which disappeared into post WWI commercial channels.

This SUPERB GEM's quality defies logic! WOW! The luster drips from surfaces that scream originality! A chiseled strike is as bold as can ever be hoped for any Walker. Every detail is razor sharp and fully rendered by an exacting strike. Clearly this coin has been lovingly cared for since it came off the dies (the surfaces are so PRISTINE, we doubt it fell off the dies). The colorful toning clearly comes from long term envelope storage. This coin is AMAZING in every way!

PCGS 5, NGC 0, CAC 5. This is the SINGLE FINEST graded, the lone 67+. The current Collectors Universe value is listed at \$80,000 and this does not appear to be one of the MS67s upgraded to a "+". A true monster that is an amazing centerpiece of this collection.

PCGS# 6577

50C 1919-D PCGS MS66

This is the King of the Walking Liberty Half Dollar series in GEM condition, and this is the UNDISPUTED, FINEST KNOWN, SUPERB GEM example of this KEY DATE RARITY. A mintage of 1,165,000 was struck, the vast majority of which went into circulation and most known specimens are well worn. Even coins in XF command four-figure prices in auction. Any Mint State 1919-D is a prize for the collector, with most of those grading between MS62 and MS64 (we believe that the Population figures are indeed inflated due to resubmissions and crossovers). GEMS are world class rarities, and this piece is the SINGLE highest graded by either service.

The surfaces are exceptionally brilliant and lustrous. One of the most challenging dates to find with sharp definition, the details are nearly fully rendered. Even Liberty's hand and head details are sharply impressed. A satiny mint brilliance glows with strong brilliance in the fields. A delicate iridescent tone can be seen when rotated in a light. The eye appeal is excellent.

The rarity of the 1919-D is explained, in part by the Armistice that ended World War I in November 1918. The economy, which had been kept humming due to the mobilization for war and wartime production, slowed down as the conflict ended. As such, the mint's production levels fell. As a recession hit the economy, the need for new coin in circulation dropped, and previously issued coins stayed in commerce for longer periods, leading to most survivors being heavily worn.

PCGS 1, NGC 0. This coin last sold in auction in April 2009 for over a quarter million dollars and it sold for \$270,250 back in November 2004. More recently a PCGS/CAC MS65 (likely the second finest known) sold in the Dr. Steven Duckor Collection for \$240,000. The current Collectors Universe value is listed at \$300,000 and no doubt if offered on its own, would realize a similar price (or more). This is a WORLD CLASS SUPERB example that is rarely seen remotely close to the quality seen here.

PCGS# 6578

50C 1919-S PCGS MS66

The 1919-S is a major condition rarity in the series, especially in any grade above MS64. This MS66 is one of the FINEST graded, with just a single MS66+ graded finer at PCGS.

The surfaces offer a bold satiny radiance on both sides. The fields are smooth, sleek, and clean flawless to the naked eye and the quality stands up to intense magnification. The only flaw we can find is a light line in the obverse field. The details are sharply and boldly struck up, with a sharp outline surrounding the icy smooth fields. This is a very high end and PQ Gem that has few few peers and barely any superiors.

PCGS 12, NGC 8. The most recent example to sell was the CAC-approved Larry Miller coin that brought a record \$48,000 in November 2020. The current Collectors Universe value is listed at \$38,500. As a very pleasing beauty this one is worth a close look!

PCGS# 6579

50C 1920 PCGS MS66+ CAC

Ultra high end, this marvelous 1920 Walker is tied for **FINEST KNOWN** at PCGS and has a stunning, totally original, look! This is what makes the Forsythe Collection the best of all time, each coin is not only the finest quality, but each coin was clearly carefully chosen for its visual impact.

It is easily evident that from the time this Top Pop GEM left the mint it was lovingly cared for. Its great visual allure is partially imparted by a multicolored, dappled toning in a classic ancient album pattern. Deeper blue, orange, and olive hues cling to the periphery and along the outline of Liberty's flag-draped figure. The centers have a clear golden-champagne hue that is richly enhanced by a satiny glow. The surfaces are smooth, both the fields and the sharply struck devices have no distracting traces of contact that would distract the eye--this holds up to the most intense scrutiny with a strong glass. The eye appeal is absolutely world class!

PCGS 26, NGC 7, CAC 8. Remarkably there are five in MS66+ (perhaps there is some duplication here), and there are **NONE** graded finer at PCGS. Only one example has ever sold, realizing a world record \$31,725 in our September 2018 Regency Auction. The Collectors Universe value is listed at \$34,500. A spectacular coin that will delight any collector, and one that helps to define this all time finest set.

PCGS# 6580

50C 1920-D PCGS MS66 CAC

The 1920-D is an important conditionally RARE early Denver mint Walker, with just a precious few graded MS66 and UNIQUE finer. This is a SPECTACULAR specimen that even the most jaded collector will fall in love with!

The quality is extremely high end, both from a technical and aesthetic standpoint. The fresh, blazing satiny mint frost booms all over. The brilliance is as bold and unmarred as the day it was when it came off the dies. This is a date that rarely comes well struck, and you can tell that this specimen was carefully selected for its spectacular quality and eye appeal. It is a WORLD CLASS example that belongs in a WORLD CLASS set.

PCGS 6, NGC 1, CAC 4. The most recent example to sell in auction (the Eric Lane-Steven Duckor coin) brought a world record price of \$87,000 in the 2018 FUN auction. That coin had scattered toning dusted on the surfaces, this bright white silver coin has a more pronounced visual allure. Previous examples sold for \$37,600 and \$54,050. The current Collectors Universe value is \$60,000. There is a single MS67+ graded finer, a coin that has not sold in auction. This is a VERY HIGH END world class GEM!

PCGS# 6581

50C 1920-S PCGS MS66+ CAC

Like its Philadelphia mint above, this 20-S is a top tier example of a major condition rarity, and this one is tied for FINEST at PCGS. Another stunning, world class Walker from this ALL TIME FINEST set.

The booming mint luster has a warm satiny glow that radiates all over the surfaces. While most examples exhibit pancake strikes, this SUPERB 20-S has bold definition for the date with just minor softness seen in the central design types. Its quality stands up to intense inspection with a powerful glass and virtually zero trace of any contact anywhere. The surfaces are a brilliant, generally untuned silver white color with just the faintest blush of a dusting of iridescence seen when rotated in a light. All we can say is holy cow this is a great looking, mint fresh SUPERB GEM that is all there and then some!

PCGS 9, NGC 11, CAC 5. There are two in MS66+ and NONE FINER. The other example is essentially a twin to this coin, and realized a WORLD RECORD \$96,938 in our January 2019 Regency Auction. No doubt, this stunning coin, with the added cache of being from the all time #1 set should make it worth more. The current Collectors Universe value is \$100,000. This coin should easily be figured for that amount.

PCGS# 6582

50C 1921 PCGS MS66

After the increased economic activity of World War I's armament, the world's return to normalcy included a steep recession in 1921. As a result, the mint's output declined dramatically (except for the coinage of Morgan dollars, which saw a record output from the three U.S. mints). Only 246,000 Walkers were struck in Philadelphia, of which, there are only six total between PCGS and NGC that have received such a high numeric grade, and NONE have been graded finer at either service. Indeed the 1921 Walker is the only Philadelphia mint issue in the entire series that is KEY in all grades.

Visually this GEM is all there! It has a bold, booming luster that displays a captivating, untuned brilliance. The central portions of the design elements are nicely impressed and show up boldly, including nice head definition and Liberty's thumb is well pronounced. The shimmering satiny finish is a real delight. The surfaces are unmarred by any serious contact of any kind, and only under the most intense, close up inspection with a powerful glass do any minor traces of contact come out. The eye appeal is amazing! A coin that really stands out as the best of the best of this important KEY date issue.

PCGS 4, NGC 2, CAC 1. This is the former Eric Lane collection coin that realized a very strong \$54,050 in August 2015. That was the first time an example sold in this grade sold since Heritage sold the Ally Collection in July 2002! This is an important opportunity that does not present itself with ANY frequency, and only does when major collections are sold. Dr. Steven L. Duckor's world class set only had a PCGS MS65 CAC. This is a stunning coin worthy of a world class set and world record realization. The current CAC CPG value is \$63,000 and the PCGS Price Guide value is listed at \$55,000.

PCGS# 6583

50C 1921-D PCGS MS66

This is a very well known, richly toned, and pedigreed GEM example of this early, recession induced, low-mintage date. First appearing in the modern era as part of the Ally Collection in 2002, this coin has graced the JFS Collection, before reappearing in 2006 when Mr. Forsythe purchased it. This coin is one of just a trio of PCGS graded MS66s with NONE FINER.

Easily recognized because of its dominate shades of deep aubergine-purple toning that blends beautifully with amber-rose, sunset-orange, and cobalt blue tones. Both sides are awash in the same color scheme. A remarkable underlying mint brilliance brings the deep, totally original patination to the fore, with each subtle change in hue visible. The sharply struck design elements stand out and the surfaces are exceptionally clean and free of any distracting traces of contact. The eye appeal is UNIQUE and spectacular!

The post war recession caused the mintage to plummet to 208,000 (Walter Breen's research showed that 257,672 pieces were originally struck and 49,672 were stored at the mint and melted, resulting in the published mintage of 208,000. Very few were spared from the ravages of commerce, and even coins as low graded as VF are considered scarce and desired by collectors, any Mint State example is a prized collectible, any GEM is a 20th century numismatic treasure!

PCGS 3, NGC 3. The only one to sell in the last decade and a half was the CAC-approved G.B.W.-Eric Lane-Dr. Steven Duckor coin which most recently sold for a record \$168,000 in the 2018 FUN auction. This coin has been off the market since 2006! The PCGS Price Guide value is listed at \$125,000. This marvelous GEM is a world class Condition Rarity and will delight any collector!

PCGS# 6584

50C 1921-S PCGS MS66

This AMAZING coin is the SINGLE FINEST 1921-S Walker that exists, and it is a totally original, unimpeachable GEM quality example! It is an undisputed highlight of this World Class collection! The 1921-S is the RAREST Walking Liberty half dollar to find in GEM. Needless to say, we are blown away by the eye appeal and overall quality. You know that after 35 years of grading PCGS has not seen another example as fine as this one, let alone finer.

Exceptionally lustrous surfaces have a shimmering mint brilliance, satiny on the obverse and swirling with bold cartwheels on the reverse. A delicate iridescent tone is seen on both sides. The devices are struck up with little weakness seen anywhere. Indeed, this coin has about as full a strike as can be seen on any high grade example. There is a single contact mark in the dreaded right obverse field which is partially hidden by a patch of toning. The eye appeal is AMAZING.

PCGS 1, NGC 2. This coin has not appeared in auction. The only MS66 to sell in this GENERATION was the Rev. McClure Collection coin graded by NGC, and realized a world record \$188,000. The current PCGS Price Guide value is listed at \$250,000. A stunning coin that is right at home in this FINEST of ALL TIME collection!

PCGS# 6585

50C 1923-S PCGS MS67 CAC

In our opinion, this 1923-S is by far the **FINEST KNOWN** for the date, but we think for the series in PRE 1923 coins. We admit to resending it to PCGS seeking an MS67+. We see no reason why it did not (we make no promises).

Flawless surfaces dazzle you all over. You can use a neutron microscope and you will find nothing. The dreaded right field is amazingly clean and smooth. A bold glowing luster beams from all over. Shades of original gold/pale golden brown are on the upper parts of the coin on the obverse. Most amazing about this coin-the strike. 100% full everything. You do not have to imagine the full skirt lines, use a glass to see the full head, or try and figure out if the thumb is split-this coin has a crazy full strike! The eye appeal is jaw dropping!

PCGS 2, NGC 1, CAC 2. We do think this is both coins on the pops. There has never been a 1923-D MS67 sold via auction. This coin clearly was taken from the bank and stored ever so carefully for 98 years. How much is the very finest worth? We feel strongly this coin is worth the \$125,000.00 Mr. Forsythe paid for it. If you buy the **VERY BEST**, this is your coin!

PCGS# 6586

50C 1927-S PCGS MS66 CAC

After a four year hiatus, the 1927-S half dollar mintage of 2,392,000 were the first struck since 1923. Due to the demands of Roaring 20s commerce, most of these disappeared into circulation, and in circulated grades, the 27-S carries little premium, in the rarified MS66 grade, which is the HIGHEST seen at either service, it is a classic rarity!

The satiny brilliance of the fields show off a stunning luster, bringing out the gentle golds that are seen at the peripheral areas on both sides. The palest of sky blue comes to the fore as you rotate the incredibly shimmering surfaces in a light. Every detail is crisply impressed with full, precise definition imparted by an exacting blow from the dies. A plethora of swirling die lines are seen in the fields, a testament to the mint trying to remove clash marks. Even with a strong glass, you will not find a single mark of consequence anywhere. This STUNNING GEM is Premium Quality exemplified and the quality is unimprovable in any way!

PCGS 10, NGC 1, CAC 5. There has not been an example sold in auction since August 2016--that is nearly half a decade ago! The PCGS and CAC CPG values are both listed at \$30,000 and that level seems to be too low. How can price guide values be accurate if none have traded in nearly five years?

PCGS# 6587

50C 1928-S PCGS MS66

A simply wonderful GEM that is tied for second HIGHEST GRADED.

A magnificent GEM that boasts a thick satiny luster that has a decent amount of mint frost on the well struck devices. The smooth silver fields are aglow with a vibrancy that is rarely seen on 1928-S half dollars. Even the right obverse field shows no major marks or contact. Both obverse and reverse show fully struck design elements, even the hand shows decent definition. Generally without flaw, this high end example has a bold look.

PCGS 11, NGC 4. There is just a single MS66+ graded higher. While the most recent example sold in auction for \$10,200 in the 2020 FUN auction, we sold one for \$19,388 in our July 2018 Regency Auction. The current Collectors Universe value is \$18,500. Clearly this GEM was chosen for its outstanding visual allure.

PCGS# 6588

50C 1929-D PCGS MS67+ CAC

This is truly a significant example of this date which saw a lower mintage of just over a million pieces, most of which were extensively circulated as the world plunged into Depression after the Stock Market crash in October. This one ranks as tied for **FINEST KNOWN**. Mr. Forsythe purchased this magnificent **SUPERB GEM** from our September 2018 Regency Auction, where it was described as:

After 35+ years of certification, this is the lone **FINEST** 1929-D graded. No question this masterpiece is worthy of that lofty designation!

We assume this coin sat undisturbed for at least 100 years (it sure looks like it did). The surfaces are pristine all around. Even using a strong glass will **NOT** yield **ANY** problems of any size. The dreaded right field has been tamed! A soft but glowing luster beams from all over. Wicked original colors of purple/green/gold cover 1/3 of the right obverse and small parts of the reverse. The balance of color is fully deep silvery original white. Miss Liberty and every detail are fully struck. You do **NOT** need a glass to see the split thumb. The eye appeal is superb!

PCGS 5, NGC 1, CAC 3. There are two reported at MS67+ at PCGS, and this is the **ONLY ONE** to have ever sold in auction, realizing a **WORLD RECORD** price of \$82,250 in our September 2018 Regency Auction. The current Collectors Universe value is listed at \$82,500.

PCGS# 6589

50C 1929-S PCGS MS67 CAC

A truly AMAZING SUPERB GEM example, tied with just one other for the FINEST GRADED honors. The surfaces are surprisingly pristine and immaculate! The eye appeal and technical quality is otherworldly!

Outrageous, blazing, flashy nearly reflective lustrous surfaces BOOM with an incredible vibrancy that cannot be beat! You need a pair of sunglasses to look at this MONSTER! Sharply struck up, every detail is AMAZINGLY struck up with full definition on both sides. The head, thumb and skirt lines are all well defined. Stark white silver surfaces abound, devoid of even the slightest hint of patina and the surfaces are totally unmarred by any contact of any kind.

Struck at the start of the Great Depression, the year of the famed stock market crash, half dollar production would not resume until 1933, and only in San Francisco! The fact that any survive in GEM or finer grades is incredible, and this date is truly EXCESSIVELY RARE in MS67!

PCGS 2, NGC 3, CAC 2. Back in January 2005, an example sold for a record price of \$71,875, before being offered again shortly after the market crash that accompanied the Great Recession of 2008. Because of that 2009 APR, we believe that the Price Guide values are all wrong! A TOP POP like this with CAC approval should be worth above the published prices and no doubt the advanced Walking Liberty specialist will realize just how important this immaculate SUPERB GEM is!

PCGS# 6590

50C 1933-S PCGS MS67+ CAC

This is an AMAZING example, totally original, and the term "Superb" just does not seem to convey the spectacular 33-S. Tied for FINEST graded, this coin is not just all there on a technical stand point, but its visual allure is off the charts!

Captivating, coppery-orange color coats the reverse while the obverse is a lighter pewter in the centers with deeper olive tan gold at the rims. The color is brought out by a strong underlying mint brilliance that has a warm, satiny texture. The devices are razor sharp in strike, with each detail fully rendered with a precision blow from the dies. Needless to say, the surfaces are FLAWLESS, and the eye appeal is just beyond what you can imagine for a SUPERB Depression era Walker.

PCGS 18, NGC 12, CAC 10. There are three in MS67+ and NONE FINER! None of these have sold in auction. This coin sold as part of the Highland Collection in March 2015 for a world record \$32,900, as an NGC MS67 (no "+" and no CAC) so clearly the Collectors Universe value of \$27,500 has nearly zero relevance to the valuation of this MONSTER 33-S!

PCGS# 6591

50C 1934 PCGS MS68

Tied for FINEST graded with a total Population at PCGS of 12 in this lofty state of preservation. Truly marvelous surfaces are a delight to behold! Stunning, intense mint brilliance radiates all over with a booming luster. The surfaces are smooth and the crisply struck devices stand out boldly. A strong glass reveals a tiny tick on the sun which is all we can tell keeps this immaculate, SUPERB GEM from a CAC approval.

Regardless the eye appeal and technical qualities are off the charts!

PCGS 12, NGC 14. There are NONE graded finer! We have only sold one, way back in 2013 in our Regency Auction V, which realized \$6,900. The current PCGS Price Guide value is listed at \$6,750. What an amazing SUPERB GEM! Again, another WOW coin!

PCGS# 6592

The Gerald R. Forsythe Walking Liberty Half Dollar Collection is the #1 All-Time PCGS Registry for Mint State Walking Liberty Half Dollars. With a bonus-adjusted average Grade of 67.82, it sits more than a full point above the next closest competitor. Since it was added to the PCGS registry, the set has accumulated numerous accolades, including five straight Gold Award certificates from 2009 to 2013, eight consecutive Platinum Awards from 2013 to 2020, and a PCGS Registry Tenth Anniversary Award. This remarkable set is truly deserving of its PCGS Hall of Fame status.

50C 1934-D PCGS MS67+ CAC

This is the SINGLE FINEST 1934-D that survives, a stunning MS67+ that is amazing in terms of technical and visual quality. Mr. Forsythe clearly appreciated this coin when he bought it back in August 2006 for a world record price! The 34-D is a condition rarity, and this one is UNIQUE at this lofty grade.

The present SUPERB quality coin has a sharp strike including bold definition on Liberty's head, thumb, and skirt lines. A delicate, somewhat dappled, totally original olive, tan, russet, gold and pale green patina is dusted across the obverse and reverse, the colors enlivened by a strong, rolling luster. The eye appeal is AMAZING!

PCGS 6, NGC 2, CAC 3. This is the ONLY MS67+ graded at either service. This coin has been off the market almost 15 years, thus its auction record is obsolete. The PCGS Price Guide value is listed at \$32,500 and if offered on its own, we have no doubt that this SUPERB GEM would bring a bid in this range.

PCGS# 6593

50C 1934-S PCGS MS67 CAC

One of the **FINEST KNOWN** examples of this conditionally **RARE** date. Despite a mintage of over 3.6 million, the 34-S is **EXTREMELY RARE** in **SUPERB** grade and there are **NONE FINER**.

Richly lustrous, this **SUPERB GEM** has a thick, satiny frost in the essentially flawless surfaces. Both sides are evenly dusted with diffused golden tone. The eye appeal is absolutely outstanding with a sharply defined razor precise impression from the dies and flawless technical quality.

PCGS 12, NGC 10, CAC 6. The last PCGS MS67 CAC sold nearly six years ago in August 2015 from the Eric Lane Collection, realizing \$30,550, which was ex Jack Lee. Even non-CAC coins are bringing strong prices, we sold one in January 2020 for \$20,563. The current CAC CPG value is listed at \$28,200. This **SUPERB** coin should be figured strongly, who knows when another will pop up.

PCGS# 6594

50C 1935 PCGS MS68 CAC

Arguably the **FINEST** 1935 that exists! We can **NOT** imagine a better coin.

Flawless surfaces are a joy to behold. We used a strong glass and looked all over and found **NO** impairments of any size, anywhere. The surfaces have a sleek yet satiny texture. A strong glowing luster beams from all over. The luster illuminates a beautiful swirling light toning pattern of original pastel blue/gold/pale green/original white colors. Miss Liberty and the details are sharply struck and standout. The eye appeal is sensational!

PCGS 2, NGC 1, CAC 2. Neither CAC coin has ever been sold via auction. The estimated Collectors Universe Value is only \$25,000. Yeah right! We say our estimate is closer to reality. Not only will this coin be the highlight of any GEM Walker set, it will be a knockout in any Type set or even a box of 20!

PCGS# 6595

50C 1935-D PCGS MS66+

A totally original GEM, wholesome and marvelous quality, tied for FINEST graded at PCGS. The luster abounds on PQ surfaces with a warm satiny mint frost. Nicely struck up, the devices are enhanced by a delicate silver-pewter on the fields that deepens to a warm golden and softly hued pastel pearlescence at the rims. The only thing that keeps this nearly superb example from a higher grade are a few tiny bumps at the reverse rim at 12:00, these are not distracting the to the naked eye.

PCGS 9, NGC 1. The current PCGS Price Guide value is listed at \$4,500 and we sold a different example for \$4,583 in our March 2019 Regency Auction sale of the Grand Prix Collection. The average APR for the 10 appearances in auction going back to 2011 is \$5,268. NONE are FINER.

PCGS# 6596

50C 1935-S PCGS MS67

Sheer visual PERFECTION! WOW! This is a blazing, untuned SUPERB GEM that is tied for FINEST GRADED at PCGS.

An incredible satiny mint luster has a thick creamy frosted texture. The surfaces radiate with a glowing, incandescent brilliance. Generally well struck, we note just a touch of bluntness on Liberty's hand. The surfaces are essentially PRISTINE and the eye appeal is that of a freshly coined Walker.

PCGS 4, NGC 6. There are NONE FINER. The last example in this lofty state of preservation to sell in auction was CAC approved and realized \$41,125 in March 2013. You have to go back to 2009 to find the next most recent example to sell. These are VERY RARE and the opportunity to obtain an example is a once every four year or so occasion. The current PCGS Price Guide value is listed at \$27,500. This is clearly a fantastic example in this world class set.

PCGS# 6597

50C 1936 PCGS MS68 CAC

A truly AMAZING beauty! WOW! This majestic SUPERB GEM is one of just TWO so graded and there are clearly NONE FINER. Everything about this 1936 half dollar is high end and ultra beautiful! This is likely the ABSOLUTE FINEST KNOWN of this middle-date Walker!

Incandescent luster booms all over the surfaces of this SUPERB GEM! The fields are sheer perfection with no issues of any kind. We looked at this monster over and over and are unable to find even the most microscopic flaw using a strong glass. A delicate kiss of the palest powder blue and clear gold enhance the blazing hot white silver surfaces. Every detail is crisply struck and razor sharp in definition. The eye appeal is AWESOME!

PCGS 4, NGC 14, CAC 2. In 35 years of PCGS-grading not a single MS68 has ever sold in auction! How can the price guides be accurate if there is ZERO auction data? NOTE our auction data base shows two records from 1990 but we checked the listings and they are for 1936 commemoratives that are incorrectly attributed. This coin deserves its place in this TOP Registry set. Good luck!

PCGS# 6598

50C 1936-D PCGS MS67+ CAC

Eighty-five years ago, this wonder piece was minted and has survived all kinds of mischief probably being safely stored. There is no such thing as a finer 1936-D!

Overall, the surfaces are clean and smooth. Only when using a strong glass can you see a faint frost break in the dreaded right field. The luster is strong and glows allover. Both sides are white with a dash of gold by the rims. Miss Liberty and the details are lightly frosted and are fully struck. The eye appeal is pretty neat!

PCGS 48, NGC 29, CAC 22. PCGS has graded only 6 in MS67+. The last one to sell in auction brought \$36,425 in January 2020. This coin will be an incredible addition to any GEM Walker set!

PCGS# 6599

50C 1936-S PCGS MS67

This is a very challenging date to find this fine! Indeed, this date is a very rare one in SUPERB grade, only 16 are graded MS67 and NONE are finer at PCGS.

A brilliant, blindingly flashy cartwheel luster booms all over. Every detail is razor sharp in strike with full definition to the head, hand, and stripe details. A very strong luster and brilliance dazzles the eye. There is a clear gold dusting on the obverse and a glass locates a tiny line and a toning dot, but nothing impacts the vivid naked eye allure of this SUPERB 36-S!

PCGS 16, NGC 22. The last two PCGS-graded examples to sell in auction were CAC approved, selling for \$18,213 and \$19,975. There has not been a non-CAC PCGS coin sold since June 2015, and before January 2015, these were five figure coins also. The current Collectors Universe value is \$20,000. NONE are finer.

PCGS# 6600

50C 1937 PCGS MS68

A truly marvelous TOP POP SUPERB GEM! Everything about it is beautiful!

A delicate blush of pearly iridescent toning caresses the immaculate surfaces. It is only under the most intense scrutiny that a strong glass reveals a single touch of contact that is what keeps this frosty SUPERB coin from CAC approval. Both sides offer the most beautiful hint of mint-green, soft lilac-rose, and powder blue tone gives this pearlescent and boldly lustrous coin a stunning look. Every detail is boldly impressed, fully and crisply rendered from an exacting blow from the dies. The eye appeal of this exceptional coin is SUPERB!

PCGS 7, NGC 3. The most recent examples to sell have all been CAC approved and the only one to sell in the last six years or more was the one we sold in March 2020 for \$29,375. Clearly the published prices are inaccurate! Obviously with NONE GRADED FINER, this is a WORLD CLASS example destined for the finest of sets!

PCGS# 6601

50C 1937-D PCGS MS67+ CAC

A stunning condition census example, tied for second highest graded at PCGS and this one is absolutely fabulous in terms of its technical and aesthetic quality. Needless to say, this is a MAJOR RARITY in this state of preservation.

This SUPERB GEM offers a radiant, frosty satin bloom on both sides. The surfaces glow with a vivid mint brilliance. Pale, iridescent blue, silver, and clear gold hues are seen on the obverse, mostly at the periphery. Well struck, this SUPERB GEM has an amazing look and it really is hard to imagine a finer 37-D!

PCGS 82, NGC 52, CAC 46. There are 15 graded MS67+ at PCGS and just a single MS68 graded higher at that service. At the time of this writing, the last two examples sold in our January 2020 Regency Auction, with the Santa Fe Collection coin achieving a near record price of \$21,738. The current PCGS Price Guide value is \$17,500 and the MS68 at PCGS has never sold in auction (it is not CAC either).

PCGS# 6602

50C 1937-S PCGS MS67+ CAC

WHOA! WOW! A magnificent SUPERB GEM that ranks at the very TOP OF THE POP! We cannot stop looking at this impressive, original beauty!

Radiating luster boldly beams throughout the surfaces. The luster is thick, oozing with a brilliant, creamy brilliance. The sharply struck devices are frosty and stand out nicely against satiny smooth surfaces. There is a wonderful dusting of iridescent pearly gold, champagne, and brilliant silvery color. The surfaces shimmer with a glowing vibrance that is quite enchanting. SUPERB and original, the eye appeal is simply stunning!

PCGS 55, NGC 26, CAC 28. PCGS has graded 9 in MS67+ and there are NONE graded higher. Two examples sold in 2020: one in April for \$21,600 and the other in November for a world record \$24,000. The PCGS Price Guide value is listed at \$22,500. A truly magnificent coin that is a real delight to behold!

PCGS# 6603

50C 1938 PCGS MS67+ CAC

What a marvelous, well preserved, SUPERB GEM! This coin looks like it just came off the dies and pulled straight from press. We are amazed at its technical quality!

Exceptionally brilliant mint luster blooms all over. The incredible surfaces are essentially PRISTINE and devoid of any serious marks of any kind that would detract from the fabulous visual allure. The strike is sharp and bold with fully defined design elements. The faintest blush of a pearlescent sheen attests to the superb originality of this spectacular example.

PCGS 146, NGC 49, CAC 43. PCGS has graded 14 in MS67+ and just a single MS68 finer. We have sold the last half dozen examples, realizing between \$8,225 and \$10,869. The current PCGS Price Guide value is listed at \$10,500. The sole finer MS68 has been off the market almost a full decade and it realized \$18,400 in a November 2011 auction. Clearly this magnificent coin is one of the best of the best!

PCGS# 6604

50C 1938-D PCGS MS67

With a mintage of only 491,600 the 1938-D has the lowest mintage of the later date Walkers and is perennially popular as such, regardless of grade. The present, stunning MS67 is tied for second highest graded by PCGS, with just seven graded MS67+ finer.

First off, looking closely at this SUPERB GEM we have no idea why CAC did not sticker it. The luster is bold and incredibly brilliant with a sensational amount of flash. The obverse fields show some minor die lines showing an early state. Sharply

impressed with nice and nearly complete striking definition, this is an exceptional quality and beautiful example of this key date.

PCGS 54, NGC 30. The current PCGS Price Guide value is listed at \$4,500 and recent examples have sold in the \$2,884 to \$4,080 range. Keep in mind that the last three MS67+ examples sold in the \$22,200-\$44,400 range. This is a truly spectacular 38-D!

PCGS# 6605

50C 1939 PCGS MS68

An impressive looking MS68 example! Both sides show a rich satiny sheen that is especially brilliant on the reverse, while the obverse has a more frosty texture below a dusting of the lightest pale gold patina. The golden toning deepens near the periphery to a coppery-orange hue. Yet again, you can clearly tell this coin was specifically chosen for its exacting strike.

This SUPERB GEM has just a single tiny mark in the field, which is all that precludes CAC approval. Other than that, this coin is nearly PERFECT! The eye appeal is truly wonderful!

PCGS 25, NGC 22. The current Collectors Universe value is \$6,500 and the last non-CAC, PCGS graded examples sold in our February 2016 and June 2015 Regency Auctions for \$4,348 and \$4,230 respectively. Just a mere handful are graded finer, all MS68+ and the Price Guide value jumps to \$17,000 in that grade. This is a spectacular SUPERB GEM!

PCGS# 6606

50C 1939-D PCGS MS68

Tied for FINEST GRADED this 39-D is in rarified company and is certainly deserving of its lofty designation. Blazing silver surfaces beam boldly all over with a look generally reserved for modern issues that just came off the dies. There is a stunningly bold silvery flash that really captivates the viewer's gaze. Sharply struck up devices are frosted and stand out boldly against the surrounding fields. Visually this coin is second to none with a mint fresh, totally brilliant blazing mint luster that is unimpeded by any color or breaks. WOW.

PCGS 3, NGC 3. The only PCGS-graded example to sell realized \$25,850 back in January 2016 and that one was spectacularly toned. The current Collectors Universe value is listed at \$29,000.

PCGS# 6607

50C 1939-S PCGS MS67+ CAC

With just a single MS68 graded higher, this SUPERB 67+ is a great coin for this world class set. Dazzling, blazing mint luster blooms vividly all over this example that is virtually perfect. Well struck from a broken reverse die. The eye appeal is amazing.

PCGS 263, NGC 150, CAC 170.

There are 30 graded 67+ at PCGS and just a single 68 finer. We sold one in July 2020 for \$3,760 and the current Collectors Universe value is listed at

\$4,750. The MS68 has never appeared in auction and would likely bring over \$25,000 if it did.

PCGS# 6608

50C 1940 PCGS MS68 CAC

Sheer PERFECTION! That examples survive in such stunning states of preservation are a marvel! This SUPERB GEM is flawless!

A rich, shimmering mint brilliance takes on a satiny texture that blooms boldly through a frosted iridescent white and gold hue that gently kisses the silky smooth surfaces. The fields are exceptionally clean and free of distractions, mint made or otherwise. The pearly sheen gives off a delicate pastel blue around the rising sun. The

exacting strike left all of the intricate details well defined and clearly this late date was chosen for its superior technical and visual qualities that set it apart from other CAC approved examples of this rarified lofty grade. Put another way, this coin's eye appeal and originality are just simply amazing!

PCGS 29, NGC 21, CAC 12. Remarkably there is a single PCGS MS68+ graded finer, a coin we had the honor of selling for a world record price of \$29,375 in September 2019. In 2020 we had the honor to sell three distinct PCGS MS68 CAC examples, which brought between \$6,756 and \$8,519. The current CAC CPG value is \$7,500 and the Collectors Universe value is \$8,000. Remember, the single MS68+ sold for \$29,375--this spectacular example is essentially unimprovable!

PCGS# 6609

50C 1940-S PCGS MS67+ CAC

The 1940-S is a VERY RARE issue in SUPERB GEM grade. Indeed PCGS and NGC combined have graded just about three dozen coins in MS67 or finer (NONE ARE FINER than the presently offered MS67+), no doubt that the Population figures in MS66 and higher include much duplication in hopes of attaining a VERY RARE and desirable MS67 grade. We think that the Populations in MS67 are also inflated as coins get crossed from NGC and PCGS, again in hopes of getting a higher grade.

The presently offered SUPERB GEM MS67+ is tied with two others as FINEST at PCGS and is a MAGNIFICENT example! This is a truly exciting 40-S, a spectacular representative of this late date issue. Boasting a beautiful look with simply elegant coloration at the obverse periphery, a crisply impressed strike, and a bold luster. Enchanting bands of gold, orange, violet, rich green, and soft russet hues cling to the periphery along 12:00 to 6:00. The center shows a brilliant underlying silver that beams with a strong luster. The reverse hosts a wonderful pearly sheen, essentially untuned and resplendent. The strike is about as bold as you will see for this date that is usually flat. A strong glass reveals a few of the tiniest traces of contact, none are evident to the naked eye, nor do they have an impact on the OUTSTANDING visual quality!

PCGS 18, NGC 20, CAC 7. PCGS has graded 3 in MS67+ and NONE FINER. This is the magnificent coin that sold in June 2015 for \$27,025 and is the ONLY CAC-approved MS67+ to sell in auction. It should be figured for more than the published \$24,500, as a regular MS67 CAC sold in our June 2019 Regency Auction for \$21,738! Another WORLD CLASS example that makes this #1 All Time Walker Set what it is!

PCGS# 6610

50C 1941 PCGS MS68 CAC

This SUBLIME 1941 half dollar is tied for second FINEST graded at PCGS. Its quality is first rate and the eye appeal is off the charts!

An incandescent brilliant luster booms all over on this blazing SUPERB GEM. The mint brilliance is intense, unimpeded by any toning of any kind. Every detail is sharply impressed into the planchet with a thick frosty texture that stands in stark contrast to the near-FLAWLESS surfaces. The eye appeal is AMAZING!

PCGS 31, NGC 31, CAC 5. The last one we sold was in June 2019, realizing \$5,170. The current PCGS Price Guide value is \$5,750 and the CAC CPG value is listed at \$5,620. Just a single MS68+ has been graded finer at PCGS, which has never been sold in auction. This is a world class example that looks as fresh today as it did when it came off the dies 80 years ago.

PCGS# 6611

50C 1941-D PCGS MS68 CAC

WOW! This is the SINGLE FINEST CAC-approved 41-D half dollar and is ranked as tied for FINEST at either service. This is one of the greatest examples of this date that survives! WOW!

Shimmering, satiny mint brilliance glows vividly all over both the obverse and reverse. A frame of violet and gold rings the obverse, giving that side a very cool look. The devices are thickly frosted and well struck which stand out nicely against the PRISTINE quality surfaces. The eye appeal is simply awesome!

PCGS 3, NGC 5, CAC 1. No PCGS MS68 has ever sold in auction, but there is a non-CAC example being offered privately for over \$25,000. Clearly the price guide values are all wrong! This is an amazing coin worthy of its place in the greatest set of Walkers ever assembled!

PCGS# 6612

50C 1941-S PCGS MS67 CAC

A stunning example, a world class example of this wartime condition rarity! While over 8 million examples were struck only 11 have been graded MS67 at PCGS and NONE are finer.

Everything about this coin is special! Not only is it a Pop Top, but it is one of just TWO in this lofty state of preservation that have been beamed by CAC. An intense mint brilliance beams throughout the surfaces enlivening the satin smooth surfaces and sharply struck up devices. The design elements are frosty on the high points and glossy brilliant in the recesses. Virtually untuned, this magnificent SUPERB GEM is worthy of its lofty grade and CAC approval. It is truly a stunning example.

PCGS 11, NGC 31, CAC 2. This is not the Eric Lane coin that brought \$35,250 in August 2015, which is the only CAC approved example to sell via auction. The Anne Kate coin sold for a world record \$90,850 back in 2006 and it would not shock us if this coin was its equal. The current Collectors Universe value is listed at \$32,500. Expect very strong bidding when this one crosses the block!

PCGS# 6613

50C 1942 PCGS MS68 CAC

No question this coin is one of the finest 1942 Walkers that exists. It certainly will be the life of any party!

Amazing surfaces are a joy to behold. They are perfect. The dreaded right field is something everyone should see and remember-you'll never see one more perfect. An intense glowing luster makes the coin "pop". Glorious shades of original pale pastel colors swirl all over. Miss Liberty and the details are needle sharp in strike. The clarity of the full thumb really stands out. The eye appeal of this coin is mind boggling!

PCGS 7, NGC 7, CAC 3. The only PCGS CAC piece to ever sell in auction brought \$28,200 in December 2019. We expect strong bidding here as this coin is just incredible!

PCGS# 6614

50C 1942-D PCGS MS67 CAC

An unimpeachable SUPERB GEM 42-D! Thick frosty satin luster glows through a dusting of pearly-gold and iridescent pastel toning. Generally well struck with full definition throughout save for the extreme central portions. All that holds this amazing coin from an even higher grade are a few tiny ticks. The eye appeal is very high end!

PCGS 208, NGC 134, CAC 79. The current Collectors Universe value is \$675 and the most recent 10 PCGS/CAC examples sold for an average of \$1,136. VERY scarce any finer, there are 26 in MS67+ and 8 in MS68 at the very top of the Population. A very pleasing example!

PCGS# 6615

50C 1942-S PCGS MS66

A blazing, blinding luster envelopes both sides, with the obverse displaying a nearly Prooflike appearance. A glass reveals some light die polish lines in the obverse fields. A minor graze on the central obverse is all that keeps this coin from a CAC approval or higher grade.

PCGS 605, NGC 189. The PCGS Price Guide value is listed at \$525 and auction records range from \$360 to \$600. A very highly lustrous coin that is a delight to behold.

PCGS# 6617

The Gerald R. Forsythe Walking Liberty Half Dollar Collection is the #1 All-Time PCGS Registry for Mint State Walking Liberty Half Dollars. With a bonus-adjusted average Grade of 67.82, it sits more than a full point above the next closest competitor. Since it was added to the PCGS registry, the set has accumulated numerous accolades, including five straight Gold Award certificates from 2009 to 2013, eight consecutive Platinum Awards from 2013 to 2020, and a PCGS Registry Tenth Anniversary Award. This remarkable set is truly deserving of its PCGS Hall of Fame status.

50C 1943 PCGS MS68 CAC

In our opinion, this coin more than deserves a plus. No question this coin ranks within the top 1% of 1943's that exist!

Clearly this coin was never handled. Thank goodness for third party grading and the coin is now preserved in perfection forever! The dreaded right field-is perfect. All of the surfaces are satiny and look smooth. A thick glowing satiny luster beams from all over. Both sides are evenly blanketed in an original white/pale blue/auburn like color. Miss Liberty and the details are wicked strong in strike. The eye appeal is jaw dropping!

PCGS 16, NGC 25, CAC 9. The last one to sell in auction brought \$29,175 in December 20. We expect a bidding war for this SUPER HIGH END SUPERB GEM Walker! Think big on price or you won't get it.

PCGS# 6618

50C 1943-D PCGS MS68

MONSTER quality! WOW! Tied for FINEST at both PCGS and NGC, this blast white untoned SUPERB GEM is as fresh and brilliantly lustrous as the day it fell off the dies during the height of the wartime economy. Of the more than 11.3 million struck, this MS68 is among the five graded at the TOP of the PCGS Pop.

Sharply struck, the devices are crisp and fully defined from a precision blow from the dies. Blazing, rich lustrous surfaces boom all over, the fields are incredibly smooth and offer a stunning, PRISTINE, FLAWLESS surface. WOW!

PCGS 5, NGC 10. The only one to sell in the last decade brought \$20,563 in our January 2020 Regency Auction. The only other PCGS-graded example to sell in auction was the Anne Kate Collection coin that brought \$51,175 in 2006 (that coin was untuned like this one, but had some marks on Liberty's knee. This marvelous coin should be valued higher than the listed \$20,000 in the Collectors Universe Price Guide.

PCGS# 6619

50C 1943-S PCGS MS67+ CAC

Yet another killer piece for the #1 MS Walker set. It looks like it went from the bank to a safe haven and stayed put for many years.

Immaculate surfaces are the least you'd expect. They do not disappoint. Even the dreaded right field is the epitome of perfection! A strong glowing luster beams from all over. Both sides enjoy a mellow mix of totally original golden brown/faint lime/faint blue/deep champagne colors. Miss Liberty is sharply struck with bold definition of the split thumb. The eye appeal is incredible!

PCGS 55, NGC 33, CAC 30. PCGS has graded only 6 in MS67+ with none higher. The last PCGS CAC example to sell in auction brought \$52,875 in December 2019. We believe more than a dozen collectors still need a 67+! Be ready!

PCGS# 6620

50C 1944 PCGS MS67 CAC

A gorgeous SUPERB GEM! What a brilliant and lustrous, mint fresh MS67 Walker. Well struck and boasting ultra clean surfaces, this beauty has the lightest blush of iridescent silver white on the left obverse field, but would fit awesomely in an untuned set. The eye appeal is great.

PCGS 127, NGC 93, CAC 83. The PCGS Price Guide is \$700 and recent examples with CAC approval have brought \$720 and \$780. Just about 3 dozen have graded finer at PCGS, and CAC approved examples in MS67+ sell in the \$3,600 and \$5,288 range-- the ONLY MS68 to sell realized \$109,250 over a decade ago!

PCGS# 6621

50C 1944-D PCGS MS67+ CAC

Among the highest graded 44-Ds on the PCGS Population Report with just a single MS68 graded finer. Totally original with a gorgeous swirling cartwheel luster that radiates fully across both sides. Nicely struck up with bold central definition that stands out against the satiny smooth surfaces. A blush of the palest iridescent toning graces both sides of this PRISTINE, FLAWLESS SUPERB GEM. Virtually unimprovable, the technical and visual qualities are exceptional!

PCGS 344, NGC 242, CAC 172. PCGS has graded 28 in MS67+, NGC has graded 8. Each service has graded just a single MS68 finer. Going back to January 2019, Legend Rare Coin Auctions has had the honor of selling six examples, ranging from \$2,928 to \$6,756, with an average at around \$5,000. The current Collectors Universe value is \$4,500 and it jumps to \$20,000 in MS68 (the sole PCGS-graded example has never sold in auction).

PCGS# 6622

50C 1944-S PCGS MS67 CAC
TIED FOR FINEST CERTIFIED at PCGS for this late date S-mint Walker. Incredible qualities combine for a truly spectacular visual impact!

Blazing, white hot mint luster radiates boldly across both sides. The obverse has bold flash that enlivens the high end quality surfaces. Free of distracting marks, ticks, or discolorations of any kind. Sharply struck up with bold definition throughout the design. A delicate, pale golden iridescent hue can be

seen when rotated in a light. The visual impact of this important CONDITION RARITY is SUPERB in every way!

PCGS 10, NGC 10, CAC 2. The last time a PCGS-graded MS67 sold in May 2005! That coin sold for \$20,700. That is AMAZING that NONE have sold in nearly 16 years! WOW! Due to the dearth of auction records, the price guide values are too low. Imagine waiting 16 years to upgrade your set!

PCGS# 6623

50C 1945 PCGS MS67+ CAC

Not a rare date in the absolute sense, this MS67+ is indeed very rare, with only a SINGLE MS68 graded finer. This high end SUPERB GEM stands a cut above the other examples we have had the honor of selling. Vivid luster shines boldly throughout the fields with a great looking satin sheen. The devices are sharply rendered with crisp definition and warm frost. A lovely olive-tan-gold that rings part of the obverse periphery. The eye appeal is beautiful!

PCGS 228, NGC 124, CAC 103. There are just 29 graded MS67+ and a single 68 graded finer. In late 2020, we sold two PCGS/CAC MS67+, one for \$5,053 and the other for \$5,288. We think this virtually perfect example should be figured around that level.

PCGS# 6624

50C 1945-D PCGS MS68

Despite a mintage of nearly 10 million pieces, the 45-D is clearly VERY RARE in MS68, with just two graded so high at PCGS.

Blazing, white hot, incandescent mint luster booms boldly all over with a sublime brilliance. Well struck with a bold rendering of the design types, this coin is essentially flawless, and the only contact is a tiny mark on the rising sun. The eye appeal is awesome!

PCGS 2, NGC 5. Neither PCGS MS68 has ever sold in auction. The current Collectors Universe value is listed at \$20,000. This is a mint fresh, late date SUPERB GEM that seriously deserves its place in this WORLD CLASS All Time FINEST set!

PCGS# 6625

50C 1945-S PCGS MS67+ CAC

Tied for FINEST GRADED, this is an incredible SUPERB GEM example! WOW, this is way closer to MS68 than MS67! (No promises)

The surfaces are PRISTINE, the quality really holds up to the strongest glass. WOW! You can look at this coin over and over and find NOTHING to not love! Even the dreaded right obverse field is flawless. An intense, radiant luster booms through a moderate blend of sensational bands of rainbow colors that frame the peripheries on both sides. That touch of color really gives this

piece a classy look. Miss Liberty and the details are frosty and well struck for the date, with just some weakness on the hand.

No question, this coin was never messed with in any way and the eye appeal is incredible!

PCGS 63, NGC 46, CAC 17. There are just three examples in MS67+ and NONE ARE FINER! The only one to ever sell brought \$17,038 in our October 2017 Regency Auction. While the current Collectors Universe value is \$17,500, we note a PCGS MS67 CAC sold for over \$37,000 a decade ago! This coin needs to be figured for a very strong level, it is a WORLD CLASS beauty!

PCGS# 6626

50C 1946 PCGS MS67

A sharply struck and boldly lustrous SUPERB quality GEM that belongs in the finest of sets. A few tiny ticks and giggles are seen in the fields, but they do not detract from the strong lustrous surfaces. Pleasing, brilliant, and untuned, this coin has a lot to offer visually!

PCGS 87, NGC 49. The current PCGS Price Guide value is listed at \$1,250, and recent APRs range from \$750 to \$900. Only two dozen examples are graded finer and they range from mid-four to low-five figure prices when sold in auction.

PCGS# 6627

50C 1946-D PCGS MS67+ CAC

A beautifully toned, SUPERB GEM that is tied for FINEST at PCGS! Not only is this high end coin a 67+ in terms of grade, we rate the color as a 9 on our 10 point color scale. It is AMAZING! We have been drooling over this late date Walker since it came in!

Bold sunset-orange and rainbow toning kiss the surfaces on both sides. A glowing satin sheen gives this coin an underlying mint brilliance that makes the entire coin sing! The sharply struck devices stand out in dramatic fashion. The eye appeal is incomparable! We love this marvelous, WONDERFUL monster.

PCGS 152, NGC 164, CAC 79. There are just 18 graded MS67+ at PCGS and NONE are graded finer. We sold two gorgeously toned examples recently, realizing \$17,625 and \$15,683. While the Collectors Universe value is listed at \$13,500, this coin needs to be figured for more, it is way more visually alluring than the average 67+. This 46-D is simply a monster!

PCGS# 6628

50C 1946-S PCGS MS67 CAC

This is a blast white, untoned mint fresh SUPERB GEM example! Perfect for a magnificent Short Set, the surfaces are blazing with an incandescent, brilliant, mint luster. Well struck with bold definition to the classic Walking Liberty design types. All of the lines in the flag's stripes are crisply defined and the only weakness is in Liberty's thumb, which always comes soft on this date. The surfaces are very clean, the only lines seen are mint made die lines. We don't see any marks or contact worthy of mention, even under close inspection with a strong glass. The eye appeal is very high end.

PCGS 113, NGC 95, CAC 43. The most recent PCGS/CAC coin was sold in February 2021's sale of the Bob Simpson Collection, which realized \$3,360. The average of the last 10 PCGS/CAC examples to sell is nearly \$2,000, despite the CAC CPG value of \$1,620 and PCGS Price Guide of \$1,600. Just 10 in MS67+ are graded finer, which carry a Price Guide value is listed at \$21,500. This incredible coin is SUPERB for a great set!

PCGS# 6629

50C 1947 PCGS MS67+ CAC

Tied for the FINEST graded of issue at PCGS, and the eye appeal is spectacular. It is a truly an AMAZING SUPERB GEM!

has an almost watery-reflective appearance when rotated in a light. The strike is bold and crisp throughout with wonderful definition and full separation to Liberty's hand and thumb, all the drapery lines are exquisitely impressed. The surfaces are pristine, and even with the aid of a powerful glass we are unable to track a single mark or line worthy of mention. Truly an amazing example of this late date Walker.

PCGS 132, NGC 77, CAC 35. PCGS has graded 20 in MS67+ and NONE are graded finer. We sold the last two examples that appeared in auction, realizing \$9,106 in October 2020 and \$9,694 in May 2020. The current Collectors Universe value is listed at \$12,500. The record for one is \$15,275, realized in April 2013. This is a truly special SUPERB GEM!

PCGS# 6630

50C 1947-D PCGS MS67+ CAC

A spectacular SUPERB example of this final Walking Liberty half dollar issue which ranks at the very TOP OF THE POP.

WOW! This is a truly incredible example. The precision blow from the dies imparted razor sharp definition in strike, with every detail crisply and fully rendered in exacting form. Intense, incandescent luster blazes throughout the fields which are incredibly smooth and flawless. The quality stands up to close inspection with a strong loupe, where not even the slightest imperfection can be found. Mostly white and untoned, there is just the slightest blush of iridescent champagne toning. The eye appeal is truly AMAZING, you will not find a more visually impressive example! Did we say "wow" yet?!

PCGS 96, NGC 77, CAC 36. PCGS has graded 16 in 67+ and NONE are graded finer at either service. We have sold five examples, for an average price of \$25,733, the majority of which were richly patinated, a similar example sold in our September 2018 Regency Auction for the world record price of \$34,075. The current Collectors Universe value is \$25,000.

TOTAL COLLECTION EST: \$2,800,000+

LOT 229

1C 1802 S-234. PCGS AU58+ CAC
Ex Naftzger-Reynolds, as noted on the insert.

This “slider” 1802 S-234 has a bold look, interesting provenance, and in a very pleasing grade. The S-234 is a Rarity-3 die variety, and this AU58+ ranks as Condition Census #6 by Del Bland, #8 by Noyes, #8 in the Breen reference and regarded #5 finest by our consignor.

Wonderful, even brown with steely overtones on the devices and ample original red color clings to the recesses of the design types on the obverse. Struck from a later die state, Breen’s IV, which features the formation of the cud above the BE in LIBERTY and multiple die clashes. The clash marks created a very interesting arc of lines on the lower reverse. There is some very minor roughness not struck out of the planchet near UNI. Sharply struck, the surfaces are generally smooth and there are no distracting lines or marks of any kind.

The pedigree of this coin dates back to the George C. Carlton Collection, sold in Thomas Elder’s December 1917 sale, lot 710. After a number of unknown or unrecorded intermediaries, it ended up with Dr. William Sheldon. From there, it was in the collection of the American Numismatic Society. Transferred to the Collection of Roy E. “Ted” Naftzger, following a settlement between Naftzger and the ANS which involved a number of coins Dr. Sheldon had swapped during his research for his famed works on early large cents. Naftzger sold this coin, via Bill Noyes, to Tom Reynolds. Tom Reynolds Collection, Goldberg, February 2016, lot 264.

PCGS 27, NGC 10, CAC 7. There are four AU58+s graded, remarkably all were in the Reynolds Collection. The Reynolds sale in February 2016 took place in a weaker market. Since then, other coins have resold for more. This piece has a great look, pedigree, and the AU58+ grade is oh so popular among type collectors. What a great coin!

LOT 230

L1C 1828 LARGE NARROW DATE. PCGS MS65 BN CAC

Ex Nancy and Bryan Collection, as noted on the insert.

N-6, noted on the insert, a Rarity-1 die variety. A lovely GEM Mint State example struck from a late die state with die rust appearing as raised lumps on Liberty’s cheek and in the fields. There is a die crack that connects 28 through star 13 and into star 12. Fairly well struck up, with the central star details mostly split and the devices are nice and crisp. Light brown and mahogany surfaces have some hints of olive, tan, and original underlying mint red. A bold bronze luster is seen on both sides. A small mark and toning spot is seen on the obverse, serving as pedigree markers.

PCGS 11, NGC 2, CAC 2. This is the most recent example to sell, realizing \$2,520 in February 2020. A non-CAC example which was not as attractive sold in April 2018 for \$6,000. The current PCGS Price Guide value is listed at \$6,750 and the CAC CPG value is \$9,060. A great type coin with a bold eye appeal that will delight any collector.

PCGS# 1654 | EST: \$3,000+

LOT 231

L1C 1834 SMALL 8. LG STARS. MED LET. PCGS MS64 RB

A really neat near-GEM large cent. This coin has it all: high grade, bold luster, good strike, and ample original mint red color. Well struck, the devices stand out nicely against the fields. The color and luster gives this CHOICE coin a great look. The obverse die was heavily cracked through the stars. The eye appeal is great.

PCGS 6, NGC 2, CAC 2. The current PCGS Price Guide value is listed at \$5,250 and the only ones to sell in auction were not CAC approved. The last one to sell brought \$5,760 in August 2019. VERY RARE in this quality, we expect this CAC approved CHOICE example to sell for a strong bid. A great example of a middle date large cent for your type set.

PCGS# 1709 | EST: \$5,000+

LOT 232

1C 1851 PCGS MS66 RB CAC

A GLORIOUS GEM 1851 large cent! Wouldn't it be great if all late date Coronet cents looked like this one?! A brilliant, bold, cartwheel luster rolls across both sides. Seductive red color gleams from around the razor sharp devices, back lighting the mellow, soft brown overtones of the GEM quality surfaces. This is a great looking GEM worthy of a great type set!

PCGS 16, NGC 10, CAC 7. The most recent example to sell was ex Naftzger Collection and sold in our February 2018 Premier Session, realizing \$3,410. The current Collectors Universe value is listed at \$2,700 and this coin should bring more than that. Good luck!

PCGS# 1893 | EST: \$2,500+

LOT 233

L1C 1854 PCGS PR65RB CAC

Newcomb-12, considered to be Rarity-6 as a Proof, apparently the only die pair used to produce the fifty Proofs struck, of which perhaps 15-20 survive in all grades (combined PCGS and NGC have graded a total of 18 pieces)

The present GEM is stunning! Deep,

coppery mirrors beam with ample original RED color mellowing into a violet-brown. The surfaces are completely problem free and totally devoid of all but the most insignificant flecks seen only at certain angles and with a powerful glass. Every detail is razor sharp in definition with full, sculpted, crisp, almost high relief definition. The eye appeal is extremely high end and the technical quality is absolutely superb. The splashes of red really capture the light and dazzles the viewers gaze.

Only 50 Proofs were struck. PCGS 3, NGC 1, CAC 3. The last example to sell was nearly seven years ago, realizing a record \$28,200 in June 2014 as part of the Gene Gardner Collection. The current Collectors Universe value is listed at \$30,000 and just a single PR66 RB is graded higher at PCGS. A great and rare coin that is worthy of a fantastic collection of early copper.

Bidding will be fierce!

PCGS# 1992 | EST: \$20,000+

LOT 234

1C 1858 SMALL LETTERS. PCGS PR65 CAC

An incredible GEM example of this rare Proof Flying Eagle cent, bearing approval from both CAC and Eagle Eye, attesting to the quality, originality, and eye appeal. The short lived Flying Eagle series is quite the challenge in Proof with low mintages across the board. Of the approximately 200 Proof Small Letters struck, PCGS CoinFacts estimates 80 survive in all grades.

Richly reflective, totally original surfaces have a gorgeous blend of olive and lilac highlights over golden-tan surfaces. The reflection beams all over when rotated in a light. The devices are sharply struck up and stand out boldly against the surrounding fields. Even with a strong glass, we fail to locate even a single tiny fleck or tick that is worthy of mention. The eye appeal is excellent.

Only 200 were struck. PCGS 9, NGC 4, CAC 5. Do not let the CAC Pops fool you, only a single CAC approved example ever sold in auction, a GEM from the Gene Gardner Collection, which realized \$35,250 nearly six years ago. Just four are graded finer, only one of which ever sold in auction, a PR65+ CAC that sold in our June 2015 Regency Auction. The current Collectors Universe value is listed at \$25,000 but we suspect this one will bring more when it crosses the block. A very RARE Proof Type coin that belongs in a superb cabinet of Proof cents.

LOT 235

1C 1864 L ON RIBBON. PCGS MS65 RB

A very lustrous, high end example with BOLD original mint RED color that booms all over. The "B" in RB is more of a light pastel violet-blue, and there is virtually zero brown. While looking this coin over with a strong glass, we noted a tiny fleck between the I and N of UNITED. The 4 in the date is repunched, you can see the underlying 4 with magnification. The quality is pleasing and the eye appeal is quite nice.

PCGS 115, NGC 95. One sold for \$1,560 in April 2020. The Current PCGS Price Guide value is listed at \$1,800 and these are quite scarce any finer. Good luck!

A wonderful Premium Quality GEM 1896 Indian cent. WOW! Blazing mint red color radiates boldly on both obverse and reverse. Sharply struck and boldly lustrous, this is a magnificent piece that is virtually flawless. Housed in an old green tag holder, this is a magnificent GEM!

PCGS 28, NGC 5, CAC 12. The most recent sold for \$4,230 in December 2020. Rare finer there are just 16 graded between MS66+ RD and MS67 RD. The price guides are just not correct on these. Good luck.

LOT 236

1C 1880 PCGS MS66 RB CAC

This is a truly BEAUTIFUL GEM RB example that rivals the example we sold in our February 2021 Regency Auction. Boldly lustrous, brilliant red color radiates all over, and has just begun to mellow. This coin retains about 90% of its blazing original red coloration. Blushes of iridescent violet come out when rotated in a light. Any fleck is invisible to the naked eye and even with a strong glass would take lots of very careful inspection to find. Needless to say the eye appeal is excellent in every way.

PCGS 8, NGC 16, CAC 4. Prior to the one in our February 2021 Regency Auction, the only CAC approved example brought \$3,360 in August 2019. The current PCGS Price Guide value is \$3,000 and note a slightly redder example would cost double. This coin has lots of potential for the astute Indian cent collector. Good luck.

1C 1905 PCGS MS66+ RD CAC

What a spectacular SUPERB GEM! We have been in love with its ultra high quality since the moment it came into the office! An intense, booming cartwheel luster swirls brilliantly over the incredible surfaces. The red is blazing, fiery, and simply stunning. An incredible strike just adds to the absolutely beautiful quality and eye appeal.

PCGS 73, NGC 56, CAC 14. There are 10 in this exceptional grade with just four finer (none are CAC). We sold another example for \$5,288 in November 2018. The current Collectors Universe value is listed at \$4,000 and it jumps to \$16,000 in MS67 RD. This seems like a great value to us, especially if you demand CAC approval. Good luck.

1C 1859 PCGS PR65 CAM CAC

A truly spectacular CAMEO GEM!

Really, we describe this coin as a
beast!

Absolutely incredible surfaces are intensely reflective with a bold clarity and deep mirrored flash. A stunning coppery-orange color is all natural and beautiful for a Copper-Nickel GEM. Every detail is pin-point sharp with razor crisp definition on thickly frosted devices affording this beauty its incredible CAMEO contrast. The eye appeal is absolutely amazing!

Only 800 Proofs were struck, and Cameos are decidedly RARE among survivors. PCGS 9, NGC 6, CAC 2. The only CAC approved example to sell in auction was an NGC-graded piece we sold nearly three years ago. The most recent PCGS-coin sold in May 2019 for \$6,600. The current CAC-CPG value is \$9,360 and no doubt this exceptional coin will see very strong bidding--keep in mind a PCGS PR66 CAM will sell for near \$20,000! Worthy of a WORLD CLASS set, bid accordingly.

1C 1926-S PCGS MS65 RB CAC

The 1926-S is a major condition rarity, virtually unobtainable in GEM RED condition. This lustrous RB GEM is mostly red, with some light mellowing over the lustrous surfaces. Well struck and ultra clean surfaces combine with the bold luster imparting a great look. This MS65 RB is all there and then some!

PCGS 20, NGC 31, CAC 9. The most recent PCGS/CAC coin sold two years ago for \$10,800. The current PCGS Price Guide value is

\$7,000 but the CAC CPG value is \$8,750. Keep in mind that in RB there is a single MS65+ RB finer and there are just TWO in MS65 RD (those being six figure rarities when they come on the market). This is a great coin that will fit nicely into an otherwise RED set. Bidding will be fierce for this one.

1C 1928 PCGS MS67+ RD CAC

This coin looks as fresh and new as the day it left the bank. We could not ask for a better piece!

Superb surfaces offer not even the tiniest impairments. You can use a strong glass and look for hours and find zero. A full glowing luster makes the coin stand out. Both sides are a GEM original Mint red color. There are NO spots. Lincoln and all of the details are sharply struck. The eye appeal is phenomenal!

PCGS 70, NGC 12, CAC 19. PCGS has graded 18 coins MS67+ RD (possibly a few dupes). The last PCGS CAC piece to sell in auction brought a resounding \$9,000 in June 2019. As you can imagine, there are no correct price guides. We are pricing this coin based on what was paid and that was for the quality. This is closer to an MS68 RD than an MS67 RD!

1C 1943-S STEEL. PCGS MS68 CAC

This is a SUPERB GEM bordering on PRISTINE quality! Absolutely stunning silver brilliance booms with a vivid luster. A strong glass reveals a few tiny flecks but no marks or serious spots that impact the great eye appeal.

PCGS 121, NGC 78, CAC 69. The last one to sell in auction brought \$3,173 in our August 2020 Regency Auction. The current PCGS Price Guide value is \$4,250 and the CAC CPG value is \$3,750. There are just five MS68+s graded finer this is a PRIME candidate for a great Registry Set.

PCGS# 2717 | EST: \$2,800+

1C 1943 STEEL. PCGS MS68 CAC

This is a virtually PERFECT 43 Steel cent! WOW. Everything about its quality is superlative with a bold luster and immaculate surfaces. The strike is bold and the eye appeal is amazing.

PCGS 75, NGC 62, CAC 32. This is a great match to the one we sold in December 2020, which realized \$3,055. The current CAC CPG value is \$3,120. Just three are finer and this one should bring a premium price!

PCGS# 2711 | EST: \$2,600+

LOT 244

1C 1953-D NGC MS67+ RD

Bank roll fresh! This SUPERB GEM is of truly magnificent quality and ranks tied for FINEST graded by either service. Featuring the boldest of brilliant, vibrant RED luster across the entirety of the virtually PRISTINE surfaces and crisply rendered devices. Every detail is sharply struck up and stands out against the highly lustrous red surfaces. WOW!

PCGS 8, NGC 6. Only two have sold in auction, one in August 2016 for \$1,763 and this one in our August 2020 Regency Auction. The current Collectors Universe value is listed at \$4,250. This is a fantastic SUPERB GEM that belongs in the FINEST of Lincoln cent collections. Good luck!

LOT 245

1C 1912 MATTE PROOF. PCGS PR64+ RD

A generous mint red satin luster graces both sides of this popular Matte Proof Lincoln. The surfaces have a glimmer of varied red color that really pops in a light. There are some minor flecks on the reverse, but the overall eye appeal is nice.

PCGS 1, NGC 0. This coin has not appeared in auction. The current PCGS Price Guide value is listed at \$1,850. Very RARE any finer, this crisply struck near GEM will sell for a strong bid.

1C 1914 MATTE PROOF. PCGS PR65 RB

Really, PCGS. where's the brown? This brilliant, essentially RED GEM has a great look. Golden-red surfaces are vivid and satiny, the devices are crisply struck up. The eye appeal is quite nice we see only a single tiny fleck on the bridge of the nose.

PCGS 71, NGC 33. The most recent sold for \$1,680 in November 2019 and the current PCGS Price Guide value is \$1,600. A nice looking coin that will delight any collector.

LOT 247

2C 1872 PCGS PR66 RD CAC

A virtually FLAWLESS GEM that is a world class Set Registry contender.

Among the FINEST in the RD category, PCGS has seen just two graded finer.

Bold, beaming mirrors have a brilliant, reflective flash that brings out the stunning original mint red color. The surfaces are essentially pristine with just a few minor traces of red iridescent toning at the rims. The sharply struck up devices stand out, though the frost is not thick

enough to warrant a Cameo designation. These are very rare so fine especially with such great color and looks!

Only 950 Proofs were struck. PCGS 15, NGC 8, CAC 5. The current Collectors Universe value is listed at \$7,250 and this coin realized \$7,200 in 2018. Only two are graded finer, including the Simpson coin, graded PR67 RD that sold for \$45,600 in November 2020. A truly magnificent example that will be at home in any SUPERB set!

3CS 1862/1 PCGS MS67

This is a MARVELOUS, multicolored SUPERB GEM.

A rich mix of violet, blue, gold, apricot, crimson, orange, and lilac toning blend over frosty lustrous surfaces. Well struck and pleasing overall, the eye appeal is great.

PCGS 22, NGC 17. The last one to sell brought \$7,200 and it did not have the eye appeal of this GEM. The current Collectors Universe value is listed at \$7,500 and there is just a single MS67+ finer. Bound for the finest of sets.

PCGS# 3681 | EST: \$6,500+

LOT 249

3CS 1865 PCGS MS67+ CAC

One of the FINEST examples from this popular Civil War era issue. The quality is SUPER HIGH END and the coin is absolutely magnificent! Only 8,000 three cent silvers were struck and this one ranks as second HIGHEST graded at PCGS with just a single MS68 finer.

PRISTINE! Flawless surfaces are superior to most we see on Mint State 3 cent silver pieces. The luster is thick and frosty with a warm satiny finish in the fields. The only marks

we see with the aid of a strong glass are mint made die clashing. The strike is sharp and bold with complete definition on both sides. Both sides have a soft teal blue with lilac toning and gold at the rims The eye appeal is really pretty!

PCGS 6, NGC 5, CAC 3. This is one of only two graded MS67+ and there is just a single MS68 graded finer (a coin that has not been sold in auction since 1998!). Neither PCGS-graded example has ever sold in auction, but we sold a PCGS MS67 CAC for \$9,106 in March 2020 and another sold for \$11,750 in August 2017. The current Collectors Universe value in MS67+ is \$17,500 and it jumps to \$31,500 in MS68. This is a very important opportunity for the three cent silver specialist that cannot be missed. Bidding will be fierce!

LOT 250
3CS 1869/'8' PCGS PR66 CAM
CAC

The so-called overdate 1869/8 three cent silver is quite the rarity regardless of designation. PCGS CoinFacts estimates 20 are known in all grades, and that service has graded a total of 40 (including no doubt much duplication), NGC does not certify the overdate variety. While described as a 9/8 by Walter Breen, more modern scholarship has shown that the 69 is just repunched.

The fields are a fully reflective, flashy mirror finish with a bold depth and clarity. The devices are thickly frosted and well struck, providing the highly desirable CAMEO contrast. Both sides have a lilac-teal overtone that is quite lovely.

Only 600 Proofs were struck. PCGS 2, NGC 0, CAC 3. There are just three finer in all grades. The most recent sold for just shy of \$10,000 nearly six years ago. The current PCGS Price Guide value is \$15,000 and we have no doubt bidding will be intense when this GEM crosses the block.

This SUPERB GEM is a friend of ours, having been sold in our March 2020 Regency Auction of the Seattle Collection. It is an amazing quality example, one of only 21,000 struck. This one ranks near the top of the PCGS Population Report. The nickel surfaces beam all over with a blazing silvery luster. Sharply struck up, both sides show full detail. There is a very delicate dusting of iridescence and the surfaces are virtually FLAWLESS. Housed in an old green tag holder.

PCGS 48, NGC 3. The current PCGS Price Guide value is listed at \$2,150. There are only five coins graded higher, and this one is worthy of a SUPERB set.

An amazing, totally original SUPERB GEM! Holy cow this coin is as bold and fresh today as it was when it was struck! The eye appeal is superior to probably every single example that survives! WOW!

Tied for FINEST graded DCAM at PCGS, this is a PRISTINE example for the date or type purposes. The mirrors are exceptionally deep and smooth and reflect brilliantly in the light. The well struck reliefs are highly frosted and are wonderfully

contrasted against the mirrored fields. The contrast is so BOLD the reliefs seem to stand out in full 3D effect! Both sides are flawless and the eye appeal is VERY HIGH END!

PCGS 6, NGC 8, CAC 4. Only 725 Proofs were struck. The Collectors Universe value is listed at \$15,000 and this SUPERB GEM should bring more than that. An incredible coin for anyone working on a set of this obsolete denomination. Good luck.

3CN 1887/6 STRONG OVERDATE. PCGS PR67+ CAM CAC

A visually STUNNING, truly spectacular SUPERB GEM ranking at the very APEX of the PCGS Population! Bold, black and white contrast defines this example. Sharply struck with fully frosted devices and the mirrored surfaces are totally untuned. The underlying 6 in the 7/6 overdate is bold and visible to the unaided eye. The quality and eye appeal are both tops!

PCGS 16, NGC 10, CAC 11. The eye appeal of this MONSTER is so bold we expect it would sell in excess of the recent auction prices, and bring closer to the \$7,931 we got for the David Poole Collection PCGS PR67 CAM (was not CAC or "+") in May 2018. The current PCGS Price Guide value is listed at \$9,500. THERE ARE NONE FINER. Good luck!

5C 1866 RAYS. PCGS MS66 CAC

The first five cent nickel issue was struck in 1866. The design included a spray of rays between the stars surrounding the large 5 in the center. The metal proved hard to work with, and the complexity of the design, the reverse dies shattered quickly, and in 1867 the rays were removed.

This is a lustrous and totally original GEM. A subtle golden blush with some icy blue hues attest to the originality of this PQ beauty. Sharply struck from shattered dies, this one is virtually without flaw and has an outstanding visual allure.

PCGS 54, NGC 22, CAC 11. The last PCGS/CAC coin sold for \$3,643 for September 2019, earlier that month an example sold for \$5,760--the average APR for a PCGS MS66 CAC is \$6,129. The CAC CPG value is \$3,750 and there are only 8 in MS66+ graded higher. What a great coin for the greatest of sets. We know bidding will be strong as collectors look to add this first year of the nickel series to their sets!

5C 1872 NGC PF64 GOLD CAC

A conservatively graded Proof 1872 nickel, a great type coin and one that is highly collectible, even though they have not been the hottest series in recent years (we like them a lot!). This one is housed in an old NGC fatty holder and is very high end, a real GEM or better coin. Struck from a later state of the dies, the finish is slightly more lustrous than reflective, though there is a bold flash to the nickel surfaces that come out in a light.

PCGS 142, NGC 105, CAC GOLD 2. Only 950 Proofs were struck. This coin will see very strong bidding as it has a lot going for it: old generation holder, bold eye appeal, and Gold CAC bean. What more could you want?

5C 1913 TYPE 1. PCGS MS68+ CAC

It is an honor to offer this UNBELIEVABLE, ultra high grade Type 1 1913 Buffalo nickel! Tied for FINEST graded at both PCGS and NGC, this is one of the best of the best and what an awesome coin to start off your world class Buffalo nickel set!

Virtual perfection! A thick luster beams with a glowing mint radiance on both sides accenting the vivid and stunning pastel rainbow toning that graces the obverse. Tangerine, pink, emerald, pale blue, and vibrant silver comes out in concentric circles on the obverse and the reverse is a more even olive-russet-tan with colorful hints around the lower portions of the buffalo. A bold strike has left every detail fully rendered, from the Indian's braid and feathers. All the definition of the bison's head, haunches, and the mound that he stands on are seemingly chiseled they are so sharp. This coin is about as PERFECT as you could ever hope to find in a circulation strike Type 1 Buffalo! Not only is the technical quality all there and then some, the eye appeal is nothing short of SUPERB!

PCGS 36, NGC 41, CAC 13. This one is more colorful than the monster MS68 that we sold as part of the Angel Dee's Collection in December 2016 and is more eye appealing than the only MS68+ sold in auction, which brought a record \$31,200 in June 2020. This Godzilla MOOSE of a Buffalo nickel will exceed that level and bring a world record bid. No doubt this coin belongs in the absolute FINEST set.

5C 1913-D TYPE 1. PCGS MS67

A beautifully toned SUPERB GEM! The eye appeal is absolutely off the charts! The sharply struck up devices and satiny smooth surfaces are enveloped by a thick, satiny frost.

The obverse is awash in pale blue, nickel-silver, and rich tangerine gold. There are a few tiny ticks that are well hidden and invisible to the naked eye. The reverse is dramatically rotated, adding interest to the coin. A popular first year issue and one year subtype with the raised ground below the bison.

PCGS 88, NGC 32. The current PCGS Price Guide value is listed at \$2,000 and we sold the last two examples, realizing \$1,939 in our December 2020 Regency Auction and \$2,820 in our October 2020 Regency Auction. SUPER HIGH END. Originally was NGC MS66 (tag included). We really do not understand why it never crossed (no promises).

Problem free surfaces adorn both sides. There are NO hidden flecks. A surprisingly strong luster beams from all over. There is a pretty patch of totally original toning on the lower right of the obverse, otherwise the coin is clean nickel color. All of the details are sharply struck. This looks more like a 1928 than a 19-S! The eye appeal is remarkable!

PCGS 33, NGC 17, CAC 8. PCGS has graded 6 in MS65+. There are only 3 coins graded higher by PCGS. The last PCGS CAC MS65+ to sell in auction brought \$42,000 in March 2019. 5C 1937-D 3 LEGGED. PCGS MS65

The 1937-D 3-Legged Buffalo nickel is a world-famous KEY date issue that is well known to both advanced collectors and novices alike. This scarce variety was created when a mint employee ground down the reverse in an attempt to remove clash marks. His overzealous work removed the clash marks along with the Buffalo's front leg. While available in circulated grades, Mint State coins are scarce and GEMS are rare.

This GEM is very eye appealing. Highly lustrous surfaces beam from all over with a wonderful multi-colored iridescent pastel toning seen on both sides, especially on the obverse. Generally well struck, there is just a touch of the typical weakness seen on these issues.

OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have **stunning** color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

5C 1951 PCGS PR68 DCAM

An immaculate, Pop Top, wonderful DCAM Proof Jefferson nickel. Tied for FINEST graded at PCGS, and the eye appeal is HIGH END! Stunning mirrors beam from all over and are the epitome of depth, clarity, and cleanliness. The devices are razor sharp and thickly frosted providing an AMAZING visual effect!

PCGS 7, NGC 7. We have sold three examples from 2017 to 2019 ranging from \$4,113 to \$4,935 and the current Collectors Universe value is listed at \$5,750. This STUNNING SUPERB GEM is worthy of the FINEST of sets! Good luck!

5C 1959 PCGS MS66+ FS

Tied for second highest graded at PCGS and finer than the Incline Collection coin that we sold in July 2020. Chrome-like silver-nickel luster flashes over generally clean, GEMMY surfaces. Exquisite in strike every detail of Jefferson's beloved Monticello is fully and crisply rendered. The eye appeal is nice!

PCGS 19, NGC 0. Only two examples have sold in auction, both back in 2016, one for \$1,234 and the other for \$617. Collectors Universe value is listed at \$850. We sold a MS67 FS, in October 2017 for \$9,694, more recently an example brought \$6,000 in June 2018. An important opportunity that does not come up that often.

5C 1952 PCGS PR68 DCAM

WOW Everything about this SUPERB GEM is AMAZING! Exceptional technical and visual qualities stand out and that is why this highly contrasted example ranks as second FINEST graded at PCGS. Brilliant, deep, beaming mirrors have a blinding reflection in the fields. The sculpted definition of the devices stand out in stark contrast to the fields. This is a stunning example!

PCGS 7, NGC 3. The last one to sell realized \$3,960 in October 2020 but before that, we sold one in May 2019 for \$6,463 and the current PCGS Price Guide value is listed at \$6,500. The sole PR69 DCAM has never sold in auction, making this a spectacular coin a prime candidate for the best of Registry Sets.

5C 1956 PCGS PR68+ DCAM

Absolutely PERFECT! To call this deeply contrasted 1956 DCAM nickel SUPERB is an understatement.

The surfaces are FLAWLESS and the deep mirrors beam from all over contrasting against the frosted devices. This coin has a stunning visual allure!

PCGS 3, NGC 1. Just a single PR69 DCAM has ever graded finer at PCGS. While the most recent example sold in January 2019 for \$4,080, we sold one in December 2017 for \$6,746 and the current PCGS Price Guide value is listed at \$6,500. Perfect for the absolute best Registry Set of Jefferson nickels.

Tied for FINEST in the 5FS designation and NGC has not graded a single example with six Full Steps. This is a wonderfully toned GEM with a bold luster that enlivens a blush of powder blue and tangerine-gold tone. Sharply struck overall with decent definition to Monticello. The eye appeal is great.

PCGS 0, NGC 1. This is not the one that sold in 2012 for \$1,150. We sold a PCGS MS65 FS for \$3,525 in the July 2020 sale of the Incline Collection. We would think that after all was said and done, this coin could bring close to that.

5C 1961 NGC MS66+ 5FS

VERY RARE with a full strike as seen here! Clearly the mint's focus was to churn out as many coins as possible without regard to striking quality. NGC has yet to grade a single example with 6 full steps, and this is the SINGLE FINEST with 5 full steps at NGC. This is a sharply struck and boldly lustrous example. Wonderfully preserved with few minor ticks seen only with the aid of a strong glass.

PCGS 0, NGC 1. The only NGC MS66 5 FS sold in auction back in May 2007 for \$2,300. If a PCGS MS66 FS came up for sale, the Collectors Universe Price Guide suggests a retail value of \$20,000! Where this FINEST of NGC-graded "5FS" designated GEM hammers is anyone's guess.

H10C 1839 NO DRAPERY. PCGS MS66+ CAC

What a great looking early date Seated Liberty half dime! Totally original and offering a wonderful, borderline SUPERB GEM quality--both from a technical and visual standpoint. Bold, almost reflective luster comes out when the beautifully toned surfaces are rotated in a light. The surfaces are lightly dusted by a delicate blend of pastel patina that includes shades of green, gold, with bold pinks and blues mixed in. The details are sharply struck up with a lovely frosted texture. A tiny mark on the rim at 1:00 is likely all that keeps this coin from an even higher grade.

PCGS 28, NGC 21, CAC 11. There are 3 in MS66+ with just 10 finer. This coin recently sold in our October 2020 Regency Auction. Our consignor has decided to go in a different direction with his type set, and is giving someone else a chance to own this absolutely stunning SUPERB GEM! The current PCGS Price Guide value is \$4,250. A great type coin that will delight anyone working on a type or date set of this mid-19th century series.

There is something truly special about these SUPERB GEM No Motto Seated half dimes, especially when they are O-mints. To think these survived the ravages of the Civil War in such pristine condition is amazing. This one is boldly lustrous with a warm glowing satiny frost in the fields. Both sides have concentric rings of blue and rose toning attesting to its careful album storage and protection. The devices are sharply struck up and have a great definition. The eye appeal is amazing on this tiny jewel.

PCGS 12, NGC 31, CAC 7. This is the only MS66+ and it sold for \$4,080 in July 2019. Amazingly there are seven finer at PCGS, and a CAC 67 will cost about double. A great coin for type or date.

We have no idea how a 160 year old small coin can remain in "untouched" condition for so long. This is defiantly a SUPER HIGH END piece from a time long ago!

We are not kidding when we say this piece is untouched. Even using a strong glass you see NO problems. The luster is strong.

Both sides are a great job by Mother Nature: original creamy white with subtle gold overtones splash about both sides. Miss Liberty and the details are frosted and have sharp strikes. The eye appeal is excellent!

PCGS 44, NGC 21, CAC 27. The last one to sell in auction brought \$3,120 in August 2020. We cannot believe how badly spanked these have been. We consider these to be "stupid" cheap. The current price guides are behind reality. This is such a neat and obsolete coin

LOT 287**10C 1804 13 STARS REVERSE. PCGS AU55 CAC**

Ex Pittman and Pogue Collections, as noted on the insert.

This is the **FINEST KNOWN** 1804 13 Stars Reverse dime available to collectors! The Early United States Dime reference said it succinctly: "Probably does not exist in Mint State." To this day, neither grading service has seen anything higher than this CAC-approved AU55. Of the two varieties of 1804 dimes, the 13 Star, listed as JR-1, is listed as Rarity-5, and is slightly less rare than the 14 Star overall. However, in high grade they are about even in terms of rarity. The present coin was struck from an interesting state of the obverse die with a small die crack from the dentils between stars 8 and 9 and some die defects by Liberty's throat. Most known examples grade XF or lower, and many have serious issues that would preclude numeric grading. At the time the JR reference was published, the finest seen was the AU50 Harold Bareford coin, which ended up in the Ed Price Collection. This one is finer, and when it came up for sale, Ed Price upgraded his world class early dime collection with this specimen. The James A. Stack coin was Choice XF with some minor scratches. The Norweb collection had a low grade example (VG/F), Eliasberg's example was "AU50, but gouged." The only coin finer is the one impounded at the Bibliotheque Nationale in Paris.

The present coin has a fabulous, totally original look. Even, dove-gray and pewter-tan patina shows accents of the palest gold in the recesses of the sharply struck up devices. The central portions of the Draped Bust, Large Eagle design types are fully and crisply rendered, with just some weakness at the peripheral dentils along the left obverse rim.

All coins dated 1804 have a certain cache thanks to low mintages, poor survival rates, and the famed 1804-dated silver dollar which ranks as one of the greatest coins of all time. The 13 Star reverse die was a work horse of the early mint, striking 1802 dimes, 1802 quarter eagles, 1804 dimes, and 1804 quarter eagles. Offering a superb provenance that dates back to Barney Bluestone's December 1945 auction, lot 1341 where it was acquired by John J. Pittman, where it remained until David Akers's sale of the John J. Pittman Collection, Part 1, October 1997, lot 541. Later appearing in ANR's Kennywood Collection sale, January 2005, lot 342 to Ed Price. Heritage's July 2008 sale of the Ed Price Collection, lot 1442, as NGC AU55, when it was purchased by D. Brent Pogue. Stack's Bowers/Sotheby's sale of the D. Brent Pogue Collection, Part 1, May 2015, lot 1045, where it realized a record \$164,500 as PCGS AU55. Our consignor has owned some of the greatest early dimes and this one belongs in the **FINEST** of early dime cabinets.

PCGS 2, NGC 1, CAC 1. This coin has been off the market since May 2015. The current Collectors Universe value is \$195,000 and the CAC CPG value is \$192,000. This is a world class rarity in the **FINEST KNOWN** state of preservation and is much more eye appealing than coin #2 on the Condition Census, the extensively pedigreed Parmelee-Newcomb-Bareford-Lovejoy-Bolen-Jewell-Price coin which is NGC AU55 and has some scratches noted (and the images seem to show signs of cleaning).

10C 1804 14 STARS REVERSE. PCGS AU58

Legend Rare Coin Auctions gets to handle some of the greatest rarities, but when one of the **FINEST KNOWN** examples of one of the great rarities of the early Draped Bust dime series comes in, even we get a tingle up our spines! This is truly an incredible **AMAZING** example, which as the PCGS CoinFacts Plate, is likely the **FINEST KNOWN**! In fact, as the former NGC MS63, this coin is listed in the PCGS CoinFacts Condition Census as "MS62 Estimated Grade", and sits above the Wilson-Eliasberg-Price-Pogue AU58, which ranks as #2. Only 8,265 dimes were struck in 1804, representing two very distinct varieties. The JR-1 has 13 stars on the reverse and is more common overall, the 14 Star Reverse is overall rarer. The JR-2 is listed as a Rarity-5, but PCGS CoinFacts suggests 20 survive in all grades. Most known examples are low grade or have some sort of condition flaw that would preclude third party certification. The five finest graded by PCGS are as follows:

1. AU58. The presently offered coin, formerly NGC MS63, ex William Jacob Collection, Heritage, April 2013, lot 4178. No prior pedigree information was provided.
2. AU58 CAC. The Eliasberg-Price-Pogue coin. Ex David Wilson Sale, Henry Chapman, March 1907, lot 694, Virgil Brand (inventory #37166), Armin Brand, consigned to B.G. Johnson on September 30, 1935, Louis Eliasberg, Sr. to Richard Eliasberg, found in a small box of coins circa 2004, Heritage FUN Auction, January 2007, lot 861 (as PCGS AU53), Ed Price Collection, Ed Price Collection, Heritage July 2008, lot 1443 as NGC AU58 CAC (which realized a world record \$632,500), D. Brent Pogue Collection, Stack's Bowers and Sotheby's, May 2015, lot 1046 as PCGS AU58, Stack's Bowers August 2018 ANA auction, lot 1110. (PCGS CoinFacts lists it as going from the Wilson sale to John M. Clapp Collection, John H. Clapp Collection, Clapp Estate to Louis E. Eliasberg, Sr. en bloc, via Stack's, 1942. We thank Saul Teichman for clearing this up).
3. AU53. James A. Stack Collection, Stack's sale of the James A. Stack Collection, January 1990, lot 13, Waldo E. "Pat" Bolen Collection, NUMISMA '95 (Stack's, RARCOA, and David Akers), November 1995, lot 2019, Heritage, August 2007, lot 1622, D. Brent Pogue Collection, Stack's Bowers and Sotheby's, May 2015, lot 1047.
4. AU50. Gene Gardner Collection, Heritage, October 2014, lot 98227. Earlier ex Superior, June 1998, lot 1035.
5. XF45 CAC. The Norweb Collection coin. Purchased privately from Stack's in March 1955, Noweb Collection, Part 1, Bowers and Merena, October 1987, lot 403, Heritage, January 2003, lot 6363, Heritage, January 2012, lot 3136, Heritage, April 2013, lot 4177, Heritage August 2014, lot 5559.

The currently offered "GEM" AU58 specimen seemingly "came out of nowhere" when it was cataloged in its first and only previous auction appearance. This is an earlier die state than the Eliasberg-Price-Pogue and Stack-Bolen-Pogue examples, missing the bisecting obverse die crack. Possessing a bold strike, the central portions of the obverse and reverse designs are fully and crisply struck up, while the left peripheries show typical weakness, though the definition is stronger than the other AU58 coin. The surfaces are evenly and beautifully toned with a warm dove gray overtones that yield to tannish-gold, soft powder blue, and accents of russet. A blush of underlying luster clings to the surfaces, giving this coin a great look. The wear is barely perceptible, and this coin is essentially MINT STATE, perhaps the only one that has any claims to that status (clearly the graders at NGC thought so, as it was graded MS63 there, lot tag available to the winning bidder). A strong glass will, after careful, intense scrutiny, reveal a few tiny contact marks, but generally, the surfaces are free of any adjustment marks, hairlines, or any other distractions. The eye appeal is incredible for a date that rarely comes nice. We are shocked that CAC did not give this impressive coin its green seal of approval.

PCGS 2, NGC 0. When this coin sold in April 2013 as an NGC MS63, it brought the second highest price ever for an 1804 dime, realizing \$367,188. Brent Pogue paid a record \$632,500 for his example in July 2008. The Collectors Universe value is \$300,000. With the Eliasberg-Pogue AU58 impounded in the #1 D.L. Hansen Collection, but missing from his second set. This is the **ONLY OTHER** chance for any advanced collector to add this important rarity to their set. Do not let it get away from you!

MS66+

This is an incredible borderline SUPERB GEM, and its quality is absolutely breathtaking! This is the SINGLE FINEST graded by PCGS, and is arguably the FINEST KNOWN 74-S Arrows Dime. This is a rare date in Mint State with perhaps 50 known in Mint State grades, and only five are estimated in GEM or better grades.

Wonderful, satiny mint brilliance gleams in the fields, highlighting the sharply struck, frosty devices. A delicate dusting of iridescent patina, showing varied shades of lilac, gold, pewter, and pale blue that come to life in a light. Essentially flawless, this is a magnificent GEM that is FINER than the Eliasberg coin.

PCGS 1, NGC 0. This coin brought \$15,600 in November 2019 and the current PCGS Price Guide value is listed at \$18,500. As a type coin or Seated Dime, this SUPERB GEM is an exceptional coin for the FINEST of sets.

10C 1877-CC NGC MS68

WOW! What an amazing Carson City dime! Rarely does any coin of any denomination from this era survive in such a pristine state of preservation and to have a dime, a workhorse denomination have such a SUPERB grade is a real delight! While 7,700,000 dimes were struck at Carson City (one of the largest mintages from the mint), only about 125 are thought to exist in MS65 or finer according to PCGS CoinFacts. This MS68 graded by NGC sits at the TOP OF THE NGC POP, with just two other pieces. Bid accordingly.

The flawless surfaces are satiny smooth and particularly lustrous, as to be expected at this lofty grade. Depending on the angle held in a light, the fields take on a semi-reflective brilliance that is visually captivating. The boldly struck devices have a glorious and thick mint frost. The only marks we see are mint made die clashing, mostly seen at the central reverse. Lilac and rose gold meld with olive and soft teal which enhance the outstanding visual allure. Thanks to its high mintage, the 1877-CC is often selected for type sets, and this one belongs in a monster set.

PCGS 0, NGC 3. This coin brought \$22,325 back in March 2015. The finest PCGS has graded was a 67+ that has yet to cross the block. Arguably the FINEST KNOWN, this coin should bring a world record. Good luck.

A gorgeous TOP POP SUPERB GEM Barber dime. In our opinion this one is nicer than the only other MS67+ graded. Clearly there are NONE FINER.

A strong, satiny vibrance glows all over the PRISTINE, immaculate surfaces. Frosty devices are pin point sharply struck. Both sides are adorned in a wonderful mix of totally original toning which is light and enhanced by the bold, radiant luster. Wow, just WOW, the quality and eye appeal are great.

PCGS 16, NGC 7, CAC 12. There are two in PCGS MS67+ and NONE FINER. The other one brought \$4,700 in our September 2016 Regency Auction, this one is nicer and it would not surprise us if this coin sold for more than the Collectors Universe value of \$5,000. 25C 1820 LARGE 0. PCGS MS65+ CAC

This is a very high end and high grade GEM B-2, that ranks near the top of the Condition Census for the variety. Five known die marriages for this date consisting of 3 different obverse and four different reverse dies. This variety, the B-2 is readily identified by the leaf which is connected to the denticles on the reverse.

Vivid mint bloom gives this amazing coin its great look. The surfaces are creamy and snow white, offering a bold, brilliant luster. There are accents of a light reflection in the fields that brings out the soft champagne gold tone that flits across the surfaces. A strong glass reveals a couple of well concealed toning spots and a tick on Liberty's cheek, but none of these are distracting to the overall AMAZING GEM eye appeal. Thick mint frost accents bold motifs which are remarkably free of weakness, particularly significant when one considers the screw press used to mint the coins.

PCGS 3, NGC 1, CAC 3. There are two PCGS MS65+s graded and the other example sold in May 2015 for \$54,050. In our opinion, this frosty, brilliant silver example is more attractive than the other mottle-toned example. The current Collectors Universe value is listed at \$55,000. The PCGS Population Report shows four graded finer, including the Clapp-Eliasberg-Pogue coin that brought almost a six figure realization in May 2015. This is an amazing type coin worthy of the finest type set Good luck!

LOT 303

25C 1846 PCGS PR65 CAC

From an original mintage of a mere dozen pieces, the 1846 Proof Seated Liberty quarter is, like other Proof quarters of the decade, a MAJOR RARITY with just 8-10 examples estimated to survive, that is about as rare as the 1804 dollar, 1894-S dime, and 1884 Trade dollars, each of which is a seven figure rarity today. This gorgeous PR65 GEM is tied for FINEST graded and is the ONLY CAC approved example at the grade level. There are NONE graded in any Cameo designation.

This coin is totally original with a classic old time look that easily plate matches to the Norweb Collection coin (Bowers and Merena March 1988, lot 1581).

A brilliant, watery reflection in the fields boldly comes to life as you rotate this totally originally toned beauty under a light. The underlying beaming mirrors bring to life the dappled golden-russet that accents the lilac-pewter-dove hued silver surfaces. Each detail is expertly struck up. The eye appeal is quite bold indeed!

This Norweb pedigreed GEM is arguably the FINEST KNOWN. The Eliasberg coin was graded PR64 at PCGS when sold as part of the Gene Gardner Collection and is now NGC PR65. The Phil Kaufman coin was also graded NGC PR65. John J. Pittman, whose extensive collection was remarkable for its early Proof Seated material lacked an example of this date. A major rarity that is missing from many WORLD CLASS collections.

PCGS 3, NGC 4, CAC 1. Only 12 were struck. Clearly there is Crossover and duplication of submissions in the population data. No high grade Proof 1846 quarter has sold since 2015, when several examples crossed the block, (which perhaps made this issue seem more common than it is). This is a very rare and special coin. The current PCGS Price Guide value is listed at \$65,000 and we think our estimate will prove conservative when the hammer falls. This is an important opportunity to add a highly collectible coin that is RARER than many classic six and seven figure rarities! These are just too cheap! Good luck.

A stunning, essentially untoned, essentially SUPERB GEM 97-O Barber quarter! This coin looks like it just came off the dies, it is that brilliant, frosty and lustrously flawless.

Boasting an exceptional luster and strike for a New Orleans mint issue, this beauty was clearly lovingly cared for over the years. There is a single stray line above the right wing that keeps this coin from an even loftier grade and tied for second highest grade and tied for second highest

PCGS 11, NGC 5, CAC 5. PCGS has graded just three in MS66+ and three finer. This coin brought \$15,600 as a 66 in December 2020. This one is sharper, more lustrous, and more attractive than the other PCGS MS66+ CAC that has sold. The current PCGS Price Guide value is \$15,500 in 66+ and goes up to \$21,000 in MS67. A great coin for the FINEST of Barber quarter sets. Bidding will be fierce!

25C 1902-O PCGS MS67

The 1902-O quarter comes from a mintage of 4,748,000, but is a RARITY in any Mint State grade, over the course of the last 35 years, PCGS and NGC combined have graded 130 examples between MS61 and MS68. EXCESSIVELY RARE in SUPERB GEM grades, at PCGS this is the SECOND HIGHEST GRADED with just a single MS67+ finer.

An incredible frosty, satiny sheen glows from the surfaces. The centers are a creamy white, essentially

untoned silver. Both sides have a bold frame of deep, dappled aubergine tones, the reverse is more toned than the obverse. Sharply struck and devoid of serious marks, this high grade example is worthy of any top ranking set.

PCGS 1, NGC 0. This coin sold twice in 2020, realizing \$13,800 in June and \$18,600 in January. The current Collectors Universe value is listed at \$20,000. We think today, with the market stronger than it was in June 2020, it should bring a stronger price. A coin that will fit into any SUPERB set. With only a single example finer at PCGS, the competition will be fierce! Good luck!

25C 1907-S PCGS MS67+ CAC

Ex R.S.D. Collection, as noted on the insert.

The 07-S is a true condition rarity in GEM Mint State grades, especially so in SUPERB grades. This is a truly WILD survivor of this S-mint date.

Exceptional quality in every regard, this coin has a superb mint luster that booms all over the amazing clean surfaces. The surfaces are toned with a vibrant teal, lilac, and gold tone. Well struck up and essentially flawless, save for some mint made planchet roller marks that were not taken out of the planchet when struck. The eye appeal is amazing.

PCGS 2, NGC 1, CAC 2. This is the ONLY MS67+ graded and it has not sold as a 67+ ever. As a regular 67 it sold nearly seven years ago in the Gene Gardner auction, and the Eliasberg-Pogue coin sold in March 2020 for a world record \$72,000. As second finest graded, this amazing coin will bring a very strong price which could surpass the \$22,500 PCGS Price Guide value. Good luck--Barber quarter Registry Set collectors step up for this SUPERB GEM!

There is one small HIDDEN reeding mark on the nose that keeps this coin from a MS66 and beyond. You need a strong glass to find it. The quality is HIGH END!

The surfaces show a scattered tick or two--nothing serious. We grade the reverse a full MS66+. A bold luster beams from all over. A gorgeous band of original navy/russet toning frames the reverse rims and part of the obverse. The centers are a creamy original white. Miss Liberty and the details are fully struck. The eye appeal is stunning!

PCGS 21, NGC 19, CAC 6. PCGS has graded only 2 in MS65+. The other coin sold for \$960 in January 2018. The current Collectors Universe is \$1,050. After seeing this coin, you'll know to pay more!

This is one of the freshest and ULTRA HIGH END MS Barber Quarters we have seen in a long time AND it is the elusive 13-S too. Do not forget, we built the #1 all time set, so we know what they should look like. We can't believe this coin is not an MS66 (we make no promises).

Perfect surfaces (not just immaculate) are something we cannot stop staring at. The texture is silky/satiny. Even using a strong glass, we do NOT see any real imperfections. We grade the obverse a 65.8+ and the reverse a full MS66. There is a strong and glowing luster. Both sides are a crisp totally original white color. Miss Liberty and the details are frosty and are fully struck. The eye appeal is phenomenal and this coin really stands out!

PCGS 15, NGC 4, CAC 4. PCGS has graded 2 in MS65+. A 65+ obviously has never been sold via auction. The current Collectors Universe Value is \$35,000 while the CAC CPG value is \$36,000. No question this coin is worth virtually MS66 money. Forget what others sold for, this coin is totally SUPERIOR even to some 66's. Seeing is believing! This coin will please the pickiest buyer!

This amazing early Roosevelt dime issue is tied for **FINEST** graded by NGC. Virtually flawless, this coin offers a full, crisp strike and bold, frosty mint luster. Splashes of peripheral tone contrasts nicely against the otherwise brilliant silver surfaces.

PCGS 9, NGC 14. Over the years, just five NGC-graded examples have sold in auction, realizing an average of more than \$1,650--there has not been one sold in over four years! More recently a PCGS-graded coin sold for \$3,360 in October 2019. The current Collectors Universe value is listed at \$3,850. What a great coin for anyone working on a set of **FINEST** graded Roosevelt dimes.

Powder blue and lilac-dove in the centers meld to richer orange-gold and emerald-clover green at the rims. Nearly full torch lines, but showing some weakness on the lower band. The eye appeal of this Mint Set toned beauty is off the charts.

PCGS 3, NGC 8. The only non-FB example to sell brought \$3,450 back in January 2009. Only two MS68 FB examples have sold, bringing an average of about \$2,000. The current MS68 Collectors Universe value is listed at \$1,850. This is a very rare opportunity for the advanced collector building a high ranked set. Good luck.

Incredible quality! Beautifully toned surfaces show off multicolored, original Mint Set color that is draped over virtually flawless surfaces. Rich luster glows through the rich patina, accenting the varied hues. Sharply struck up devices are bold and give this coin its **SUPERB FT** designation.

PCGS 3, NGC 16. The most recent example sold in auction for \$1,020 in May 2020. There is a large price disparity between PCGS and NGC-graded examples, in the same month a PCGS MS68 FB sold for \$3,500 and the current Collectors Universe value is listed at \$4,150. PCGS 12, NGC 32. The last one to sell in major auction brought \$4,113 in the 2014 FUN auction--that was 7+ years ago! The current Collectors Universe value is \$4,000 and it is likely this one will exceed that when the hammer falls! Good luck!

A truly special GEM example. High end quality surfaces are satin smooth with a delicate Prooflike flashy quality to the luster. This coin was struck using the same die pair that was identified as striking the Branch Mint Proofs. A soft, champagne-gold is dusted over the sharply struck devices and GEM quality fields. A strong glass fails to reveal any serious marks, lines or discoloration anywhere. The underlying flash really gives this one a great look!

PCGS 219, NGC 202, CAC 54. There are only eight in MS65+. This is a great example of the type, and this one brought a strong \$5,040 in October 2018. The current PCGS Price Guide value is \$4,500. OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

25C 1897 PCGS PR66

A beautiful and totally original GEM Proof Barber quarter. Brilliant, boldly reflective, watery mirrored fields boom from below a rich patina. Rich lilac, powder blue, and rose-gold color dominates both sides with the reverse boasting an intriguing dappled pattern. There are a few tiny lines seen hidden below the toning, but they are appropriate for the assigned grade. The eye appeal is unmarred and quite nice!

Only 731 Proofs were struck. PCGS 28, NGC 29. Clearly CAC is tough on these, as only 4 have ever beamed. Do not let the Pops fool you: while three sold in 2020, you have to go back to 2014 to get another PCGS PR66 selling in auction. The current Collectors Universe value is \$1,800. \$1 1795 2 LEAVES. NGC VF35

There is something really cool about early silver dollars in mid-grade. You are holding a coin that circulated while George Washington was President, and the founding fathers were still debating on the form and function of our fledgling republic, that could have been spent by one of those revered early leaders.

This B-1, BB-21 has moderate, generally problem free wear. A few minor contact marks and a mild rim bump on the reverse are noted, but the eye appeal is quite nice with deep toned fields and lighter devices giving this CHOICE VF a lovely Circ Cam look.

PCGS 64, NGC 444 (all 1795 Flowing Hair dollars in VF grades). This coin is freshly graded and fresh to the market. The last one sold in March 2019 for \$6,600 and the current Collectors Universe value is listed at \$8,250. LOT 321

\$1 1797 10X6 STARS. PCGS MS64 CAC

An incredible B-3, BB-71 that is easily one of the **FINEST KNOWN** examples for the date, with the added allure of an amazing pedigree: Colonel E.H.R. Green, Eric P. Newman, and Bruce Morelan!

This **STUNNING** example is a very important, borderline GEM Mint State Draped Bust, Small Eagle dollar type. For the **DATE**, only 7,776 were produced. Mint records at the time accounted for the number of coins struck in a year, and back dated, but still workable dies were used later on, as die steel was quite expensive. Of the coins dated 1797 with the 10X6 star orientation on the obverse, this coin is tied for **FINEST** graded by PCGS. Offering a **SUPERB** luster that gleams through the iridescent, original toning. Richer pewter-slate hues blend with lighter blues and hints of olive at the periphery, surrounding lighter silver-gray centers. For an early dollar, the luster shows a full, radial cartwheel band that enlivens the soft shades seen on both sides. While a strong glass reveals some minor "chatter" scattered about, there are no distracting marks of any kind, fully free of any adjustment marks. Sharply struck throughout, any weakness does not even warrant mention and the eye appeal is simply **OUTSTANDING**. While the Jack Lee and Louis Eliasberg coins have been graded MS65 by NGC, the original cataloger of the Newman Collection noted: "We urge the readers to make their own comparisons. It is our opinion that this is the most eye appealing of the three."

This historic example has only appeared at auction twice since Col. Green acquired it in the early 20th century. Plated in the 1993 Bowers-Borckardt Encyclopedia of U.S. Silver Dollars and listed as one of the Notable Specimens there, but not included in the 2013 revision. Most of Eric Newman's collection was acquired as a purchase of the Col. Green estate. This coin was purchased for \$75. There are no prior pedigrees noted, and this coin does not appear to match the Cleneay or Mills coins, sold in 1890 and 1904 respectively and are untraced since.

PCGS 3, NGC 0, CAC 1. Our partner and friend Bruce Morelan bought this coin out of the November 2013 sale of the Eric P. Newman Collection where it was sold as NGC MS64+ CAC and it realized a world record price of \$440,625. The PCGS Price Guide is listed at \$225,000 which is dragged down by the non-CAC graded pieces that sold in the D. Brent Pogue Collection (May 2016) and an example sold in July 2015. This coin is CAC approved, and when compared to those other two, well, quality and visually there is just no comparison. Bound for an **AMAZING, WORLD CLASS** set. Good luck!

What a neat early dollar! This B-3, BB-234 has a very unique look.

This piece displays a generally problem free, moderate circulation on both sides. Ages ago, this coin was cleaned before being placed in a Wayne Raymond or similar album where it acquired a lovely multi-colored patina that frames both sides. The devices are brighter silver giving this coin a “circ-cam”

look. A few minor marks and a short scratch are noted, along with a fingerprint left when placed in the

album. A cool piece that will appeal to many collectors.

PCGS 52, NGC 79 (in all VF grades). The last one to sell in auction brought \$2,650 in August 2020. The current PCGS Price Guide value is listed at \$2,300 and with its colorful look, this coin will see strong bidding.

LOT 323

T\$1 1878-S STRUCK 5% OFF CENTER. PCGS XF40

Error coins from this era are incredibly RARE, and the larger the coin, the rarer the error. This remarkable OFF CENTER struck 78-S Trade Dollar is a real trophy coin, one of perhaps three such coins known in the entire series!

First off, we believe PCGS was conservative in their grading, we would not be shocked if at some time it was called AU, as the “wear” is quite minimal, and we doubt this coin actually went into circulation--it is more likely that the discoverer of this curiosity carried it around as a pocket piece. Struck off center towards 1:00 on the obverse, there is a margin along the opposite rim. Only light friction is noted, all the devices retain strong definition throughout. Very cool, deep toning “pulls away” from the peripheral devices accentuating the off center strike. The eye appeal is clearly unique and intriguing. This is a VERY RARE error, possibly unique for the date, and perhaps a handful exist for the entire series.

Our estimate is based on our consignor’s conversations with Fred Weinberg, Fred believes that this coin could realize anywhere between \$35,000 and \$50,000, but who knows! This is a truly unique opportunity to acquire a very important and visually impressive Mint error. We would like to congratulate the winning bidder in advance on this one!

\$1 1881-S PCGS MS64 CAC

AMAZING! This is a gorgeous GEM (do not let the MS64 on the holder fool you, this coin is GEM!) A bold, flashy cartwheel luster has a marvelous Prooflike reflection, especially on the reverse. The obverse is awash in multiple bands of multicolored magenta, orange, emerald, clover, cobalt, and violet hues swirl and mingle together, richly enhanced by the blazing luster. The reverse has a ring of rainbow at the peripheries, framing a stunning blazing silver center. The color rates a 9 on our 10-point color scale. A few minor contact marks are seen, but we have seen the same kind of marks on many coins graded MS65, so we consider this one a GEM, but remember it is the color that makes this 81-S truly special! Bid accordingly!

\$1 1881-S PCGS MS66

This is a high quality beautifully toned 81-S dollar. We rate the colors, which range from neon green, stunning magenta, bold blue, and lovely teal tones, a 9 on our 10-point color scale. There are a few tiny traces of contact on both sides. Sharply struck up, the details are very crisp and the eye appeal is quite bold.

This coin is on par with many great looking coins we sold in the Northern Lights, David Hall, and Roadrunner Collections, and we would expect it to end up in another great collection of Toned Dollars.

\$1 1881-S PCGS MS66

A stupendous GEM. Beautifully toned with bands of icy blue, lemon-yellow, magenta, and rich, varied violet toning that dominates the entire surface of the obverse, save for an untuned patch on the bridge of the nose. The color rates an 8.5+ on our 10-point color scale. Sharply struck up the, the details are complete and frosty. Any tiny tick or mark is entirely superficial and has limited impact on the overall outstanding eye appeal. This coin will see very strong bidding.

LOT 336

\$1 1881-S PCGS MS66 CAC

Incredible everything! This is a world class toned 81-S that would have been right at home in the Roadrunner Collection we sold last year. The entire obverse is awash in colors from neon lemon-yellow to emerald green, magenta, pale blue, and fiery tangerine-orange. The colors rate a 9.5 on our 10-point color scale, as they are truly intense and boldly brought out by the wonderful flowing S-mint cartwheel luster. The eye appeal is amazing.

A similar colored coin brought \$4,700 in our June 2019 Regency Auction. This amazing coin will bring a strong bid when it crosses the block. Good luck.

\$1 1881-S PCGS MS66 CAC

A richly toned reverse defines this gorgeously toned GEM. Teal, aqua, cobalt, and rose tone dominate the entire surface of the reverse. You know that if we are offering a reverse toner, it has to be at least a 9 on our 10-point scale and has to be all there and then some quality wise. The eye appeal is AMAZING!

PCGS# 7130 | EST: \$800+

LOT 338

\$1 1881-S PCGS MS66+ CAC

Here is a beautifully toned borderline SUPERB GEM 81-S dollar. Rich neon tangerine, bold magenta, and warm blue-green toning covers the entirety of the obverse in a majestic melange that we rate a 9 on our 10-point color scale. The only thing that keeps this monster toner from an even higher technical grade are a couple of tiny marks by Liberty's mouth. The eye appeal is outstanding!

A coin worthy of any of the major toned dollar collections we have offered. The most recent MS66+s sold were in the Roadrunner Collection, Part 2 in October 2020, realizing \$852, \$1,410, and \$6,756. Clearly there is a wide range of APRs, but this one should bring a price within our estimate range. Good luck

\$1 1881-S PCGS MS67 CAC

An incredible toner! This piece has all the colors of a farmer's market berry section: blues, reds, deep purples reminiscent of blue, black, cran, and raspberries, that dominate the entire surface of the obverse. The blazing brilliant cartwheel luster booms all over, giving life to the 9.5 out of 10-point color. The devices are sharp. The reverse has a hint of gold at the rim otherwise is blast white and untuned. Be prepared for very strong bidding for this one!

\$1 1881-S PCGS MS66

Swirling cabernet-red and lemon-lime hues dominate on both sides of this GEM. Brilliant luster booms on the surfaces enlivening the colors that rate an 8+ out of 10. There is some minor chatter seen under the color, none of which is truly distracting. A coin that will delight the toned dollar collector.

A marvelous GEM toner! Garnet, sapphire, and emerald toning give this a jewel like look. Incredible S-mint luster booms bringing the colors to life! We rate the color as an 8.5 on our 10-point color scale. The reverse essentially untuned with a blush of pale gold over partially prooflike reflective luster. Sharply struck and very eye appealing, this is a great piece for any collection of toned dollars.

We have sold various toned examples of this date and grade ranging from \$852 to \$17,625, with most selling in the \$1,000-\$2,000 range.

\$1 1881-S PCGS MS66 DMPL CAC

We love this fully cameo and super flashy coin!

Full 8"+ mirrors beam boldly from all over. In fact, the mirrors are so flashy you can see them from the next room! The mirrors reveal a few trivial ticks none of which are harmful. There is strong clarity in the mirrors. When you twirl the coin the mirrors have a huge "watery roll" effect. We rarely see 1881-S's like this. There is a hint of reddish gold color by the rims. Miss Liberty and all the details are fully struck and have thick bold frost. The eye appeal is sensational!

PCGS 85, NGC 91, CAC 15. The last PCGS CAC piece to sell via auction brought \$3,407 in September 2019. Do NOT be fooled by the pops, this date is extremely elusive. Opportunity knocks loud here!

A very pretty toned 83-O! A stunning mix of coppery orange gold, deep emerald-green, magenta-rose, and royal purple that blend beautifully together across the obverse, while the reverse is an even deep bluish-purple with cranberry-red accents. This is a gorgeous coin that rates an 8.5+ on our 10 point color scale overall. Housed in an older blue tag PCGS holder, this coin is a delight for any advanced collector of toned dollars. \$1 1886 NGC MS68

An impressive SUPERB GEM 1886 Morgan. Boasting a mintage of nearly 20 million pieces, the 1886 is ubiquitous in all grades through MS67. Needless to say, in MS68 it is quite rare and excessively so any finer. A bold luster booms on both sides, with vivid cartwheels that roll smoothly along. Sharply struck, the devices are frosty and the surfaces are generally free of all but the tiniest traces of widely scattered contact. A blush of the palest blue and tangerine can be seen on the obverse. The eye appeal is excellent.

PCGS 15, NGC 37. The most recent example sold for \$6,300 in October 2020 and prior to that, APRs were between \$3,850 and \$4,800. This highly eye appealing example will sell for a strong bid! Good luck.

\$1 1892-O PCGS MS65 CAC

As a date, the 92-O is generally common in lower grades, but it becomes incredibly scarce in GEM and EXTREMELY RARE any finer than MS65.

The presently offered coin is the definition of GEM. Blazing untuned surfaces are ultra high end and offers a swirling cartwheel brilliance that is very intense for the date. Razor sharp devices stand out with a thick frost and this MS65 is far superior to the vast majority of known specimens.

This is a WOW! coin.

PCGS 277, NGC 78, CAC 18. The most recent example to sell was the Larry Miller Collection coin in November 2020 for \$8,400 and prior to that, we sold one in our March 2019 Regency Auction for \$11,750. Clearly the published prices do not reflect current CAC trends. VERY RARE finer, with a total of 40 graded, 75% of which are MS65+s. Good luck.

PCGS# 7216 | EST: \$7,000+

LOT 355

\$1 1894 PCGS MS64 CAC

The 1894 Morgan dollar has the second lowest mintage in the entire series. As the nation's economy stagnated following the Panic of 1893, Morgan dollar mintages remained low. In fact, the Philly mint output in 1894 was limited to 110,000--only 10,000 more than the 93-S. While the mintages are similar, the 1894 is, luckily for collectors, more available, and even in Mint State can be found. A CAC approved, original, near-GEM caliber coin is always highly sought.

A decent strike for the date impressed strong detail on both sides. A brilliant satiny luster blooms boldly, highlighting a pale gold pastel iridescence. The totally original surfaces reveal a few tiny ticks seen under intense magnification which are totally appropriate for the assigned grade, and the eye appeal is great.

PCGS 279, NGC 118, CAC 48. Do not let the pops fool you, the last PCGS/CAC coin sold over two years ago, realizing \$8,400. The current CAC CPG value is \$10,000 and the Collectors Universe value is \$7,000. RARE finer, this is a superb example for any collector. Good luck.

\$1 1899 PCGS MS66 DMPL

The 1899 Morgan dollar has one of the lower mintages of the series, with only 330,000 struck. In the DMPL classification, this date is scarce, especially so in Premium Gem grades as seen here. Clearly there are NONE FINER at PCGS. This ultra reflective, deeply mirrored GEM is razor sharp in strike and the thickly frosted devices are boldly contrasted against the mirrored fields. The cheek and eagle are especially frosted. Both obverse and reverse display a delicate iridescent toning that adds to the OUTSTANDING eye appeal.

PCGS 13, NGC 10. The most recent sold for \$6,120 in the 2021 FUN auction and this GEM is more pleasing than the coin we sold in the PFM Collection. The current Collectors Universe value is \$6,350 and we suspect this coin will bring a strong price when it crosses the block. Another tied for FINEST coin that belongs in a great set.

What an AMAZING DMPL 1900 Morgan! Clearly this is the FINEST KNOWN example and what a STUNNING black and white contrasted example it is. From arm's length you would think its a Proof! It is a highlight of this auction, and will be a highlight of the next collection it graces!

Intense, deep, beaming mirrors flash boldly in the fields on both sides. The mirrors are a full 8+++” depth of clarity in the reflection. The sharply struck devices show off a thick, luxurious creamy, white frost. A strong glass reveals some very trivial, minor marks are seen as are some mint made die polish lines. The eye appeal is spectacular.

PCGS 2, NGC 2, CAC 1. The is the ONLY MS65+ DMPL graded at either service. In MS65 DMPL, the PCGS Price Guide and CAC CPG value are both listed at \$60,000 and this MS65+ DMPL should sell for more. Bound for the FINEST set of DMPL Morgan dollars!

\$1 1921 CHAPMAN. PCGS PR67

Legend Rare Coin Auctions is honored to present the **FINEST KNOWN** 1921 Chapman Proof Morgan dollar. Of the entire series, the Chapman Proofs are among the **RAREST** of the **RARE** regardless of condition. It is estimated only 40 were minted by special request by the Chapman Brothers, coin dealers in Philadelphia in the late 1800s and early 1900s. Like Farran Zerbe, who also had specially issued Morgan dollars in 1921, they had connections in the Philadelphia mint, and they were obliged. The Chapman Proofs look more like the Proofs that were struck in 1878-1904, while the Zerbe Proofs (which are more "common") have more of a "Specimen" finish.

Unbelievable quality mirrors are ultra bold, deep, and flash endlessly from all over, offering stunning clarity and cleanliness. The classic Morgan dollar design types are exceptionally well struck and display thick mint frost, creating a nearly full **CAMEO** contrast and bold look. There are a few tiny die polish lines in the fields, but they are mint made and microscopic, visible only with the aid of a strong glass and have no impact on the totally awesome visual allure of this **HISTORIC** numismatic **RARITY**.

PCGS 1, NGC 1. This **SUPERB GEM**--the **FINEST KNOWN**-- last sold in our November 2018 Regency Auction for \$229,125, a world record price for a Chapman Proof Morgan. The current PCGS Price Guide value is listed at \$275,000 and this one is truly worthy of the absolute **FINEST** of Morgan dollar sets! Good luck!

We do say this coin is HIGH END! You can clearly see the strong "deep dish" appearance.

Magnificent surfaces have only a small thin cut/line in the left obverse field that really blends in. Otherwise, they are smooth and semi satiny. Rarely do we ever see these with such an intense luster. In fact we call it a luster bomb! This is an original white coin with faint hints of pale gold. The ONLY thing we see keeping this coin

from a 66+, is a microscopic reeding mark on the cheek-and we mean microscopic. Miss Liberty and the details are 95% fully struck. They are frosty too. The eye appeal of this coin is jaw dropping!

A truly incredible coin that is oh so close to MS66+ quality. While we make no guarantees, we think this GEM could get a "+" one day. A bold, brilliant, cartwheel luster booms all over on both sides. The details are sharply impressed with full, crisp definition seen on Liberty's portrait and eagle's wing feathers. The delicate overtone of pearly iridescence. There are no flaws worthy of mention and the eye appeal is incredible for this otherwise common issue.

PCGS 941, NGC 1494, CAC 309. The Collectors Universe and CAC CPG values of \$475 and \$455 will prove too low when this one crosses the block. PCGS/CAC examples in MS66+ have sold in the \$1,650 to \$2,820 range, and we think this one will sell in the spread between MS66 and MS66+ prices. A great coin for the pickiest of collectors.

OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

THE GERALD FORSYTHE PROOF INDIAN \$10 COLLECTION

Legend Rare Coin Auctions is honored to offer the Gerald R. Forsythe Collection of Proof Indian Head Eagles. This is a world class cabinet of these very special and important 20th century rarities. Each coin is not only of superlative Gem grade, but each was carefully selected over the years by Legend Numismatics, and all part of the famed "Far East" set, before being purchased privately by Mr. Forsythe. This Hall of Fame set is the ALL TIME #1 PCGS Registry Set, with a weighted GPA of 66.29. Every one of the eight coins in this amazing set is CAC approved and ultra high end in terms of visual and technical quality, none of which have been "conserved" in an effort to reach a loftier numeric grade, as so many of these precious numismatic treasures have been over the years. Each coin in the set would be a highlight for any major numismatic auction, but to have the entire set in one auction, with such high quality examples is an event that likely has not happened in a generation.

Proof Eagles had been struck going back to the mid-1830s when a few novodel 1804 eagles were struck for placement in diplomatic presentation sets. Starting in 1838 when eagle coinage began again, small numbers of Proofs were struck for collectors. As the decades passed, and numismatics became a more common pursuit, the mintages of Brilliant Proofs increased, but remained under 100 pieces for most years. Starting in 1907, when the mint changed over from the Liberty Head to Indian Head design types, a different finish was tried. Prior to 1908, all Proofs were struck with a reflective mirrored brilliance. Mints in Europe had begun changing their finishing techniques in the 1890s to a sandblast, or matte finish. The Philadelphia Mint saw this design change as a good opportunity to experiment with the matte finish as well. In 1908, the mint began selling Matte Proof gold sets to the collecting public. The new artistic concept was not "shiny" as in earlier issues, and much of the mintage was left unsold and later melted. In 1909 the mint changed to a more satin finish, which, while "shiny" was not reflective in the way that the Proof Liberty Head gold coins had been. These too were a commercial flop, and in 1910, the Roman finish was introduced, and it looks like a cross between the 1908 and 1909 issues. Again, collectors did not warm to the Roman Finish, and the sand blast matte finish was brought back from 1911 to 1915 when the mint finished producing Proof gold coins. While contemporary collectors did not take a shine to these lovely pieces, modern collectors appreciate the beauty and rarity of the Proof Indian Head eagles.

Our offering of the Gerald R. Forsythe Collection of Proof Indian Head Eagles will be a highlight of the entire numismatic year in 2021. While lesser grade Proofs might appear at auction from time to time, a complete set, well matched in terms of quality and eye appeal, with CAC approval is an opportunity that cannot be missed!

\$10 1908 MOTTO. MATTE. PCGS PR67+ CAC

What a way to start the sale of this remarkable collection. What can we say? This coin is the epitome of perfection and everything else! Tied for finest known with just a single other coin. PCGS showed it no mercy by not grading it PR68 in our opinion (NO promises). We fully consider this a MONSTER WONDER COIN!

Incredible SUPERB GEM full MATTE Proof surfaces actually jump out at you. The matte texture is undeniable. Of course the surfaces are perfect. There are NO shiny spots. Both sides are a rare GEM original deep gold color. There are no flecks, spots, or discolorations anywhere. Every detail is needle sharp in strike and boldly stands out. The eye appeal is wild, as you would expect from a coin at the top of the PCGS Population.

PCGS 4, NGC 0. CAC 3. PCGS has graded 2 in PR67+. We are highly suspect that this coin is recorded twice in both PCGS and CAC pops. There are NO auction records for ANY PR67's or PR67+ pieces. The current Collectors Universe value is \$200,000 We can see a bidding competition where this coin sells for a world record price. Nothing similar has ever been available. Good luck!

\$10 1909 PCGS PR66 CAC

Another absolute stunning Proof Indian. We have no idea why PCGS only graded this coin PR66. It sure looks much better to us (NO promises)!

Impeccable surfaces are clean and sleek. The satin finish just oozes all over. There is a strong glowing luster. A deeper yellow gold color is even all over. There are NO spots, flecks, or discolorations. Every detail is pinpoint sharp in strike. The eye appeal is dazzling!

ONLY 78 were minted. PCGS 3, NGC 6, CAC 2. There are just two graded finer. There are no auction records for any PR66 ever being sold. The current Collectors Universe Value is \$105,000. This coin represents a once in many years opportunity.

\$10 1910 PCGS PR67+ CAC

LRCA is proud to offer the FINEST \$10 1910 Roman Finish proof. The looks like a PR69 modern medal! We have never seen or heard of anything remotely close!

Exquisite satiny surfaces are sleek and have zero imperfections of any size. You can use a strong glass and look over and over and all you will be doing is enjoying the view! A strong glowing luster illuminates the coin. Both sides are a stunning GEM ORIGINAL yellow gold color. There are some hints of faint orange gold on the reverse. The details are so strong struck they almost appear 3-D. The appeal is heart pounding!

We consider this coin to be a true numismatic treasure and is wildly special. To find one so original and high end is a once in a lifetime opportunity.

Only 204 pieces were minted. PCGS 2, NGC 1, CAC 4 (We know this piece is 2X). This is the only "+" and FINEST 1910 \$10 Proof graded. There is no auction record. The current Collectors Universe Value is \$250,000. Yeah right! We can see this coin selling for beyond Pluto money-much more than \$250,000. If there are not multiple bidders on this coin, we'll be shocked. Good luck!

\$10 1911 PCGS PR67 CAC

This is one of the coolest Matte Proof \$10 Indians we have ever seen. As with all of the coins in this amazing set, the quality is SUPER HIGH END!

Amazing SUPERB GEM Original Matte surfaces are pristine. Using a strong glass and looking around only impresses you even more. There is a slight glow of luster. Remarkably both sides are deep matte color with vivid hints of orange all over. There are NO flecks, spots, or discolorations anywhere. The details could not be any more fully struck. The eye appeal is totally insane!

Only 95 were ever minted. PCGS 9, NGC 8, CAC 3, PCGS has graded one coin higher, a PR7+. The last auction record for a PCGS CAC piece was \$192,000 in April 2018. We expect this piece to shatter that price! The extreme rarity of this grade for ANY Matte Proof \$10 can NOT be overstated!

\$10 1912 PCGS PR66 CAC

PCGS showed NO mercy on this magnificent piece. We rank it a 66+ all day long (no promises)!

There is only a single microscopic HIDDEN die chip on the obverse that holds this killer coin from PR67. The sand blast matte texture is clean, thick, and smooth. There is a wonderful and totally original orange gold patina. We can't say enough about the extreme strike. Every detail is incredible, and the eye appeal is amazing!

PCGS 6, NGC 8, CAC 3. The last example to sell at auction brought only \$77,027 back in January 2015. It says an awful lot when a date has not been offered in six years. The current Collectors Universe Value is \$90,000. We think that is too low and that today this is a six-figure coin. We expect intense bidding here.

Even those that are not brilliant Proofs, sometimes they can still be outstanding. This coin is beyond that, and is tied with just two other coins for **FINEST KNOWN!** We also say this coin is **VERY HIGH END!**

Marvelous sandblast finish surfaces are uninterrupted. The surfaces beneath are perfect. As typical for the date (from the alloy mix) both sides enjoy an original deeper olive gold color. There are **NO** flecks or discolorations anywhere. Miss Liberty and every detail are needle sharp in strike and boldly stand out. The eye appeal is attention grabbing!

Only 71 were minted. PCGS 3, NGC 4, CAC 2 (this very well could be both). There is no auction record for any PCGS PR67 ever selling. Somehow the current Collectors Universe Value is \$195,000. The rarity of ANY Matte Proof \$10 in such a lofty grade like this is **UNDER-rated**. These simply to **NOT** exist with a CAC bean. \$10 1914 PCGS PR65 CAC

We searched all over the world for coins for the Far East Eagle set (Forsythe's predecessor). A 1914 is extremely rare in GEM. This coin is a wonder example.

Most important, this coin is totally original. It has moderate sandblast surfaces. When using a strong loupe, you can see a few very minor imperfections. There is a small light stain in the headdress. Both sides are a more moderate deep gold color. Of course Miss Liberty and every detail stand out with razor sharp strikes. The eye appeal is all there for this GEM!

Only 50 were minted. PCGS 8, NGC 9, CAC 3. There are just two coins finer, neither of which have ever sold in auction. The last PCGS CAC piece to sell in auction brought \$84,000 in April 2018. For sure this is a rare opportunity.

WOW, WOW, WOW! To find a 1915 so fresh and original is very, very rare. This coin is tied for second FINEST known. We consider this coin to be VERY HIGH END!

Remarkable original sandblast Matte surfaces are a delight to behold all over. Only when using a strong glass can you see a few faint small shiny areas. Nothing is visible to the naked eye. The color is a moderate deep gold. Miss Liberty and the entire strike are just incredible. Even the stars on the rim stand out! The eye appeal of this SUPERB GEM is fantastic!

Only 75 were minted. PCGS 5, NGC 6, CAC 2. PCGS has graded only a PR66+ higher. No PCGS CAC piece has ever been sold via auction. In fact, the last piece to sell that way was a non CAC which brought \$99,875 12/2014! 7 LONG years ago. What is this worth today? We shall find out. Be prepared to pay much more than \$99,000! G\$1 1856 SLANTED 5. PCGS MS66 CAC

Of the two major variations of 1856 gold dollar, the Slanted 5 is the more available, but most are known in lower grade. PQ Gems as offered here are indeed quite rare and anything finer must be regarded as EXTREMELY RARE.

This is visually appealing example with a soft, medium yellow gold coloration that is brought to life with a thick, satiny finish to the frosted surfaces. A glowing luster beams around the crisply struck up devices. There are only the most minimal breaks to the mint frost, but otherwise the surfaces are without flaw. Needless to say, the eye appeal is awesome.

PCGS 12, NGC 4, CAC 5. The most recent example brought \$5,280 in the 2019 FUN auction, while this coin sold a few months prior for \$5,760. The Collectors Universe value is \$5,000 and the CAC CPG value is \$5,620. A great type coin that will delight anyone working on a gold type set. Bid accordingly!

G\$1 1889 PCGS PR66 CAM CAC

A sensational GEM CAMEO PROOF example from the final mintage of gold dollars. Off the market for decades, this coin comes from the same estate as the 1793 S-14 and 1852 Humbert \$50 we sold in our February 2021 Regency Auction.

Blazing, deeply reflective fields, beam all over on both sides. The devices are sharply struck up and have a thick, creamy frost that creates a stunning cameo contrast. The surfaces are essentially without flaw and both sides possess a glorious orange-peel texture. A toning dot or two are noted and attest to the wonderful originality of this FRESH GEM.

PCGS 10, NGC 1, CAC 1. There is just a single coin graded higher in the CAMEO designation. No PCGS PR66 CAM has sold in auction for nearly seven years! The Collectors Universe value is \$15,000. Good luck!

OUTSTANDING! It is amazing that this is not the FINEST KNOWN of the date! The technical and visual qualities are off the charts! A thick, satiny luster booms brilliantly over the frosty golden surfaces. Flawless fields and design reliefs are sharply struck up with razor precision. A medium honey gold color is brought out by the mint bloom and gives this totally original SUPERB GEM a great look. Tied for second HIGHEST graded at PCGS, there are precious few that survive so fine!

PCGS 109, NGC 85, CAC 36. There are just 11 graded MS67+ and two finer at PCGS. The PCGS Price Guide value is listed at \$5,000 and that is around what these bring on average. The last 68 to sell brought \$24,000 in 2018. Seems like a good value to us!

\$2.50 1908 PCGS PR64 CAC

A very pleasing, nearly GEM quality example of this now popular Proof issue. The mint produced 236 Proofs during this first year of the Bela Lyon Pratt design, part of the Renaissance of U.S. Coinage that Teddy Roosevelt envisioned when he and Augustus St. Gaudens began redesigning the \$20 and \$10 gold pieces a year earlier. The Matte finish, which had been used in Paris, Rome, and London mints going back to the 1890s, was completely different than the brilliant reflective

finish used on Proofs going back to the 1820s, and proved unpopular among contemporary collectors. The Matte finish was created by blasting the dies and planchets with a fine grit sand which imparted countless tiny facets that glint in the light.

A totally original, essentially GEM quality sand blast Proof quarter eagle that is a delight to behold. The surfaces offer a wonderful Matte finish with infinite microscopic facets that reflect the light. Unlike the majority of survivors that have been dipped and stripped of any originality in an effort to get a higher certified grade, the present coin offers a natural olive-tan golden patina. The details are needle sharp. There are two minor scratches noted in the obverse field that keep this awesome coin from an even higher grade. The eye appeal is very high end for the assigned grade.

PCGS 24, NGC 18, CAC 4. This coin is from the March 2017 sale of the Blue Moon Collection which featured a complete 1908 Proof Set where it realized \$21,125. The current PCGS Price Guide value is \$19,000 and the CAC CPG value is \$21,600. This is a great looking near-GEM that should see spirited bidding.

A crusty, original CHOICE AU BD-2. A somewhat scarce R-4 die marriage that is popular for the collector. Light friction is seen on both sides and there are some minor traces of contact from its time in circulation. Some minor traces of mint made die adjustment marks are seen, noted for full disclosure, but they do not detract from the generally very pleasing eye appeal.

PCGS 34, NGC 20, CAC 15. The last PCGS/CAC example sold five years ago, realizing \$11,171. The current Price Guide values are \$11,500 at PCGS and \$12,300 in the CAC CPG. A popular early federal gold piece in a very popular collector grade. Bid accordingly!

PCGS 7, NGC 4, CAC 2. The only VF25 to sell was an NGC/CAC coin that sold in a May 2020 internet auction for \$2,000. The Current CAC CPG value is \$2,500 and the Collectors Universe value is \$2,000. A great collector coin--highly desirable as a CAC approved example.

With a healthy mintage of 1.855 million, the 03-S is common in lower Mint State grades, up through the MS65 level, at MS66 it becomes scarce, and in 66+ it is down right RARE! This stunning GEM is bordering on the SUPERB grade and it is UNIQUE finer. A blazing yellow-gold coloration is enlivened by a stunning satiny mint brilliance. Every detail is crisply struck from an exacting blow from the dies, rendering each design element to its fullest, sharpest definition. The eye appeal is stupendous!

PCGS 35, NGC 41, CAC 9. There are 10 graded MS66+ at PCGS, and just a single MS67 graded higher. This coin brought \$5,520 in July 2019--almost two years ago. The market has changed quite a bit since then and this one should sell for more today. Good luck.

PCGS 278, NGC 204. The last one to sell brought \$2,280, but the market on generic gold is stronger today. The current Collectors Universe value is listed at \$3,750. We highly suggest you view this coin and figure your bid aggressively. Scarce any finer. Good luck.

\$10 1800 PCGS MS61

A brilliantly lustrous Mint State BD-1, the only die variety used to strike 1800 eagles. This early eagle is fresh, well struck and has amazing patinated surfaces with glorious original luster everywhere are semi-Prooflike and flashy. A bold strike brought up every detail on both sides. A coppery-gold color is rich and clings to the recesses of the design elements. The fields show some chatter and contact, which attest to the 61 grade, but the luster and color are better than most.

This is a fresh to the market Mint State piece, consigned to us by a dealer who bought this coin from a collector that had it since the 1970s. It was just recently certified by PCGS before being consigned to our sale, giving the collecting public the first shot at owning this BU early \$10 for 45-50 years.

PCGS 11, NGC 13. The most recent non-CAC PCGS-graded example to sell realized \$32,900 back in the 2014 ANA auction. The current PCGS Price Guide value is listed at \$35,000. Rare finer and worthy of a Mint State gold type set.

The first year of Indian Head eagles saw three different major Red Book types, the No Periods, No Motto type is the only collectible one, as the Rolled Edge and Wire Edge are very rare. The present example is fully CHOICE and on the border of a GEM classification. Satiny mint luster glows over wonderful original golden surfaces. The eye appeal is excellent, enhanced by a crisp strike and pleasing surfaces.

PCGS 961, NGC 791, CAC 143. The last examples to sell realized between \$3,120 and \$3,630. The current CAC CPG value is \$4,120 and this coin will bring a strong bid. Good luck.

From an original mintage of 351,000, the 1915 eagle is a rarity in higher Mint State grades, making the MS64 the best most collectors are able to buy. Satiny mint luster glows all over. The Indian and the eagle are fully defined and sharply struck. We note some minor marks which account for the assigned grade. From a technical standpoint this coin is all there.

PCGS 519, NGC 352. All that glitters is gold, and demand for slightly better date gold is in strong demand.

\$20 1873-S CLOSED 3. NGC MS63+

Ex Classic Liberty Collection, as noted on the insert.

While a common issue in AU and lower Mint State grades, this amazing CHOICE BU example is the **SINGLE FINEST GRADED** by either service! Its quality and eye appeal are all there.

Struck from an early state of the dies, there is a distinctive semi-reflective nature to the brilliant rolling luster. With a glass you can see just how fresh the dies were when this one was struck as there are a number of die polish lines that were not struck out from use. Every detail is razor sharp with full, crisp definition seen on both sides. The surfaces have some minor contact, but they are not at all hacked up. The eye appeal is excellent.

PCGS 0, NGC 1. While this coin sold for \$17,400 in 2019, we like it as much or more than the PCGS MS63 that sold a decade ago for nearly \$28,000. In MS63+ there is no price listed by Collectors Universe, but in MS63 it is listed at \$27,500. If you are working on the **FINEST** set of \$20 Libs take a look at this amazing coin! This one has a rich orange-gold color that is enlivened by a bold, retained luster. There are some minor friction lines seen but there are no serious marks worthy of mention and the eye appeal is decent overall.

PCGS 39, NGC 47. The most recent NGC-graded example sold for \$12,600 and the current Collectors Universe value is \$17,500. A decent coin for the collector looking for a better CC \$20. Bidding will be strong for this popular rarity.

This is the second highest graded example of this scarce doubled die reverse variety. The doubling is seen in all the lettering of the reverse, most visibly at TWENTY DOLLARS. This FULLY CHOICE example is the PCGS CoinFacts plate coin, and is very high end.

Not only is the variety rare, but the 1888 double eagle is a condition rarity, with precious few graded MS63 or finer. A rich yellow-gold surface is enhanced by a glowing, swirling cartwheel luster. Sharply struck the all important doubling is bold as are all the details of this highly original piece.

PCGS 31, NGC 6, CAC 5. (this is the only PCGS MS63 graded example attributed as FS-801). The current PCGS Price Guide value is listed at \$11,000 for the variety, and this coin brought \$7,801 in February 2020. \$20 1915-S PCGS MS66+ CAC

This is by far one of the very nicest Mint State 1915-S Saints we have ever seen! No question this coin is closer to MS67 than MS66!

Exciting surfaces are superior to most. Only when using a strong glass can you find some microscopic ticks widely scattered around in tiny groups and a frost break or two. For a 15-S the surfaces are seriously above average in terms of BOTH cleanliness and texture. The surfaces are a slight satiny texture. We actually grade the reverse a full MS66.9+! This is NOT a “dirty” or rugged looking coin. The luster is strong and glows from all over. Both sides are an even deeper gold color. There are NO stains or discolorations. Miss Liberty and the details are frosty and are very well struck. The eye appeal is fantastic!

PCGS 241, NGC 171 CAC 21. PCGS has graded just 9 coins in MS66+ with NONE higher. The last PCGS CAC piece to sell in auction brought \$52,875 in August 2020 with ferocious bidding. That was no fluke, another coin had sold for \$36,000 in January 2020. The coin offered here, has been off the market for many years. We have handled only one other a VERY long time ago.

50C 1923-S MONROE. PCGS MS67

Anyone who has handled classic commemoratives knows that the 23-S Monroe is one of the worst produced, most lackluster design types. The present example is tied for second HIGHEST graded at PCGS and is exceptionally high end.

A bold luster radiates all over the satiny smooth and frosty surfaces. A blush of the palest patina clings to the peripheral devices framing both sides. The devices are sharply struck for this normally pancake flat, low relief design. You can see the full outline of the allegorical female figures that make up North and South America on the reverse. The eye appeal is amazing and very high end.

PCGS 12, NGC 10. Two examples sold in 2020, one for \$10,200 and the other for \$13,800 and the current Collectors Universe value is listed at \$15,000. Just a single MS67+ is graded finer, making this SUPERB MS67 is worthy of a great set of classic commemoratives.

LOT 400

50C 1928 OREGON. PCGS MS67 CAC

Totally original and HIGH END! Superb quality surfaces are frosty with a bold satiny glow, which enhances the warm, pearlescent sheen that graces both sides. The devices are crisply struck up and fully rendered. The eye appeal is awesome!

PCGS 127, NGC 89, CAC 48. The PCGS Price Guide value is \$700 and the CAC CPG value is \$715. The most recent example we sold was back in November 2017 for \$880. Just 26 are graded finer and this one belongs in a great set.

PCGS# 9342 | EST: \$550+

LOT 401

50C 1935 SPANISH TRAIL. PCGS MS67+

A pleasing, high end, SUPERB GEM example of this very popular, low mintage KEY classic commemorative. A rich luster blooms vividly on both sides, enhancing a lovely iridescent pastel toning. Lemon yellow, pale lime, and the faintest dusting of powder blue mingle over generally smooth, problem free surfaces. Nicely struck, this popular commem is one of the KEYS.

PCGS 39, NGC 15. The most recent example sold in December 2020 for \$3,360 and the current PCGS Price

Guide value is listed at \$3,500. Rare any finer, the

PCGS value jumps to \$22,000 in MS68. A great option for someone to upgrade their set without spending five figures.

Good luck.

PCGS# 9376 | EST: \$2,800+

LOT 402

50C 1935 SPANISH TRAIL. PCGS MS67

The Spanish Trail is a popular, lower mintage KEY to the Classic Commemorative series. The satiny surfaces have a rich luster that comes to fore as a pearly silver bloom. Sharply struck with the iconic design sharply rendered. The eye appeal is nice.

PCGS 183, NGC 114. Recent examples have sold in the \$1,500 to \$1,800 range and the Collectors Universe value is listed at \$2,250. Scarce any finer. Bound for a great set of Commemorative type coins.

PCGS# 9376 | EST: \$1,500+

LOT 403

50C 1934 TEXAS. PCGS MS67 CAC

WOW! This is an incredible SUPERB GEM Texas half! Totally original and beautifully preserved, this example is outstanding! Sharply struck and thickly frosted with a rich satiny sheen. The eye appeal is enhanced by a soft toning that generally clings to the reverse periphery, while the centers are an even pewter pearly silver coloration. This is a very high end piece!

PCGS 107, NGC 67, CAC 62. Its been two and a half years since a PCGS/CAC MS67 has sold in auction, thus the records are obsolete. The CAC CPG value is

\$715. VERY RARE any finer, a 67+ would bring \$1,500-\$2,000 and if you can find a PCGS MS68, it would cost upwards of \$20,000! A prize for a great set of Classic Commemoratives.

PCGS# 9381 | EST: \$650+

LOT 404

50C 1947-D BOOKER T.

WASHINGTON PCGS MS67+ CAC

Tied for FINEST graded 47-D Booker T. Washington half dollar. There were 100,000 struck, and this is a POP TOP specimen. Frosty lustrous surfaces gleam with a pearly glow.

Well struck and the surfaces are essentially flawless. The eye appeal is excellent.

PCGS 17, NGC 20, CAC 13. There are just 2 in MS67+ and neither has ever sold in auction. There was a PCGS MS67 CAC that sold for

\$8,813 in 2017 and the current Collectors Universe value in MS67+ is \$8,500. A SUPERB example that is worthy of the FINEST of sets.

PCGS# 9409 | EST: \$7,000+

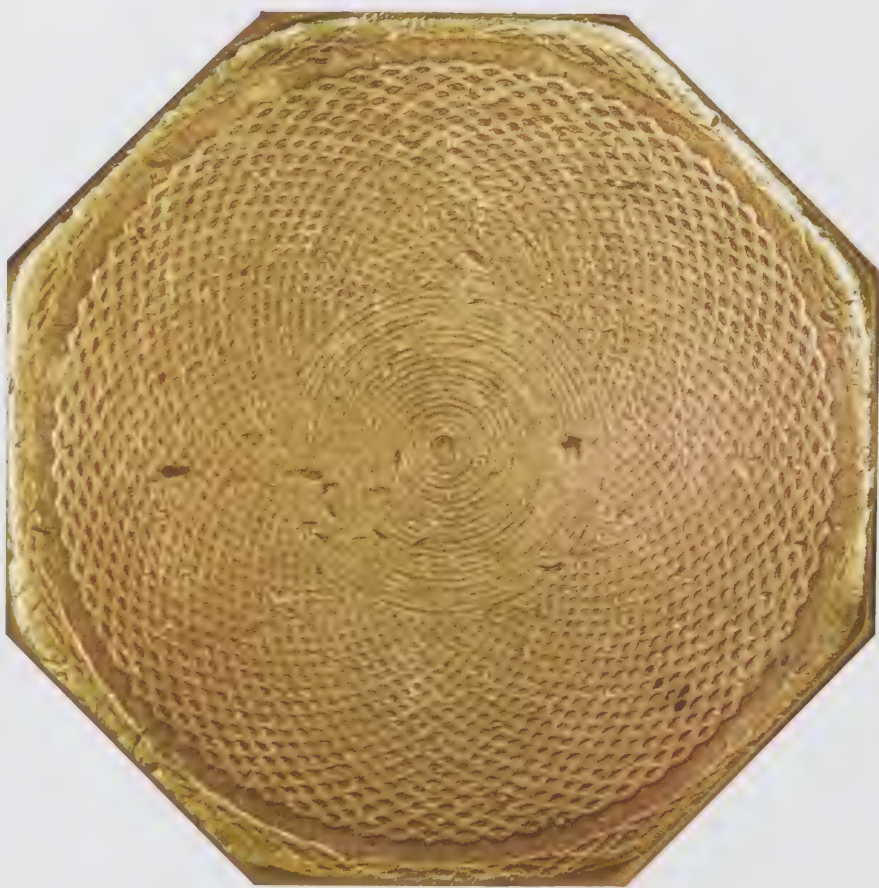

LOT 405

50C 1953-S WASHINGTON-CARVER. PCGS MS66

We love the look of this awesome toned GEM Washington Carver half dollar. Both sides are awash in varied, deep purple, orange, and coppery gold patina that evenly coats the satiny lustrous surfaces. We note a few tiny traces of contact, but the surfaces are devoid of any distracting marks of any kind.

PCGS 251, NGC 152. Ignore the Population Reports, Price Guides, and APRs. This coin is worth a very strong premium for its gorgeous eye appeal! We expect near record bidding for an MS66. WOW!

PCGS# 9440 | EST: \$500+

LOT 406

\$50 1851 "880". REEDED. HUMBERT. NGC AU53 CAC

This nearly CHOICE AU K-5 slug was sold in our June 2019 Regency Auction, where we wrote:

"This is a very handsome example of this rare and impressive type. Wonderful honey-gold coloration coats the surfaces on both sides. Both sides are boldly defined, with just some minor weakness on the highest points of the design types. While lightly worn and showing some minor contact marks, these are very minimal. The edges are solid, free of any dings that usually plague the corners. This is quite the pleasing coin and when you consider how choppy a 2.5 ounce gold coin that circulated during the Gold Rush can be, this one is very high end. Without a doubt this is one of the more eye appealing AU examples you will encounter.

Perennially popular among collectors, these "ingots" or "slugs" were struck in the U.S. Assay office in San Francisco, under the direction of Augustus Humbert. His mint operated for several years before the Federal government took over operations and eventually in 1854 opened as the official branch mint in San Francisco. Because of his reputation for honesty, Humbert's operations put out of business many of the other assaying and minting firms that opened after the discovery of gold in California. Indeed, these "slugs" were so well received in "old west" commerce, even after the official branch mint at San Francisco poured federal issue gold coins into commercial streams, they were still widely circulated."

PCGS 6, NGC 12, CAC 3. This totally original piece sold for \$55,813 in our June 2019 Regency Auction. The current Collectors Universe value is listed at \$67,500. There is something truly majestic about these hefty coins, they are rarely seen finer, and this is a great type that will delight any advanced collector or gold bug.

PCGS# 10211 | EST: \$50,000+

LOT 407

1C 1855 J-170A. PCGS PR61

A more modest grade example of this popular Flying Eagle pattern. Struck in a copper-nickel alloy with a plain edge. The upward flying eagle on the obverse is reminiscent of the reverse of the Gobrecht dollars struck two decades earlier. Decent surfaces show olive-brown toning across both sides. The devices are generally well struck, though there is some minor weakness in areas, typical of these reduced sized large cent patterns. The eye appeal is nice for the assigned grade.

PCGS 1, NGC 0. The most similar example to sell was a PCGS PR62 that sold in August 2010 for \$2,760. Only two have sold since, a PR64 and a PR64+. Neat Rarity-6 pattern in an affordable grade. Good luck.

PCGS# 62428 | EST: \$2,200+

LOT 408

25C 1857 J-188. PCGS PR64 BN

A truly fascinating pattern quarter. The obverse is the regular issue die, paired with what is suggested to be a setup reverse die, that is just the legends UNITED STATES OF AMERICA and QUAR. DOL. The letter punches are those of Anthony Paquet.

Struck in copper with a reeded edge, it is estimated to be Rarity-7, and there are about four known, of which, this is tied for **FINEST** graded.

Rich chocolate brown toning graces both sides and the surfaces are generally evenly toned. Well struck on the obverse. The reverse has a couple of flecks which help serve as pedigree markers.

Ex. Superior's sale of the Walter Lee Crouch Collection, June 1977, lot 391, Bowers and Ruddy's sale of the William R. Sieck Collection, July 1981, lot 127, Stack's Sale of the Albert Savage Collection, October 1997, lot 947, Heritage's sale of the William Rau Collection, April 2018, lot 4484, Heritage's FUN 2020 Auction, lot 5858.

PCGS 2, NGC 1, This coin most recently sold for \$5,760, and prior to that, it sold for \$9,000 as part of the Rau Collection. The current Collectors Universe value is listed at \$9,000. Bound for a SUPERB set of patterns, we think this piece is really neat and likely irreplaceable. Good luck.
